A horse belonging to Robert Thompson at Marquam, was shot in the shoulder last Saturday evening by some one. The animal was so badly injured, that it was found necessary to kill him. An Important Sewerage Outlet. Now that Seventh street is being improved, it is very important that it should have a good sewerage outlet. And the only practical outlet is through Singer creek. A sewer should be built through the depression caused by the heavy flow of water in winter, that would be sufficiently large to carry off the sewerage from several adjacent streets, and should be constructed with a view to its more urgent need in the future. Seventh street should by all means have a good and sufficient sewer drainage, and it will be but a short time before other streets would need the Singer creek main as an outlet for numerous branch sewers. The attention of the city council is called to this very important matter, and it is expected that they will take proper action.

THE GRAIN BELT.

Farmers' Alliance is Now Erecting Warehouses.

A grain man from Eastern Washington was in the city today and spoke in strong terms of the wheat prospects in that section. The farther south a person goes, generally the better crops are seen. In the northern part it has been a little too dry. A singular fact is also noted that often one part of a field will be dead ripe, while twenty rods away it will be decidedly green. Warehouses are being erected by the farmers' alliance, especially in Whitman county. Last year one was built by Senator McCrosky at Garfield. A dividend of 30 per cent on its cost was declared. This, of course, encouraged the farmers. Many of them have already sold their crops at 75 and 76 cents per bushel. Much dissatisfaction is felt with the grain rates, but it can hardly be helped this season.—Telegram.

A Pleasant Party.

A very pleasant surprise party was given at the residence of Mr. and Mrs. R. B. Walker, on Tuesday evening, in honor of Miss Lela McAtee, by her many friends she has gained during her stay in this city. At 8 o'clock the doors were thrown open and in a short time the parlors were crowded to their utmost capacity. The furniture was removed from the back parlor for the purpose of dancing.

Music and dancing were the chief enjoyment of the evening. Some excellent music was rendered by Misses McAtee, Clara Hall and Lizzie Walker, Messrs. Lankins, Bruce, Ward, and Pickett, with an occasional song by Messrs. C. Kinney, and F. D. Bruce. At 11 o'clock the guests adjourned to the dining room, where ice cream and cake were served by Misses Birdie Walker and Mary Duffy. Dancing was then continued until a late hour when they departed, having spent a most enjoyable evening. Those present were: Misses McAtee, Duffy, Walker, B. Walker, Mills, Lips, Hall, Steiner, Williams, Mosberger, Adams, Berry, Maud and Myrtle Weatherall, Duffy, Messrs. Morris, Duncan, Harper, Bruce, Carlson, Cunningham, Moor, Brannon, Spencer, Pickett, Kenny, Peas, Thorn, Moffet, Wilson, Lowe, Duffy, Brennan, Adams, Lankins, Ward and Erickson.

More Singing Birds. The society for the introduction of German singing birds has had prepared beautifully mounted specimens of each variety of birds imported by them, which are now on exhibition at the office of the secretary, C. P. Pfleger, on Second street, near Morrison. By examining them, persons will be able to tell the birds when they see them in the fields or woods. The case includes specimens of the male and female of the nightingale, bullfinch, goldfinch, greenfinch, chaffinch, singing quail, black thrush, song thrush, starting linnets, skylark, cardinal crossbill, etc. The society has ordered a lot more of birds to the value of \$500, principally song and black thrushes, European robins and bullfinches, which will arrive here about the middle of October. Mr. Frank Dekom, president of the society, is having a large aviary built on his grounds for their reception, where they will be kept during the winter, and when the spring is sufficiently advanced they will be turned loose. With these birds will also arrive a lot of skylarks, starlings, linnets, goldfinches, mocking birds, bullfinches and bobolinks, ordered by Mr. W. S. Ladd, to the value of \$200, and a lot of larks, thrushes, robing linnets, bullfinches, etc., for Mrs. J. H. Smith, of Mount Taber. Mr. Ladd and Mrs. Smith are having quarters prepared for these birds and will turn them loose in the spring. It is expected that the birds will be in better condition after being kept through the winter than if they had made the long journey in the spring and were then set at large. The result of the first importation of birds has been very satisfactory, many of the species having increased wonderfully and spread over a large extent of territory. If the new plan of importing proves a success the society will again import a lot of nightingales and endeavor to establish those beautiful singers here.—Oregonian.
