There should be no "faction" in any city. The property of one individual and every improvement made enhances the value of all property in the corporation. Our city is simply one big family. When there is discord there is but little progress. When there is a united pull for anything, its accomplishment is made easy.

In attempting to put each other "in the hole," looks like the legislature and the governor came very near to putting Sherman county there. With two local men each having the promise of Governor West that they would be the new county attorney that he would appoint and a state referendum threatened on the bill, because the appointees would hold over beyond the next election, it looks as though Sherman county will have to tie to District Attorney J.K. Starr, elected by the people.

The Grain Growers Conveniences

Are not alone confined to Rural Free Delivery of mail and the Telephone. There is another convenience which all farmers should have — and many do have — a checking account with a good bank. The possessor of such an account avoids the risk of having his money on his person or about his home where it is in danger of fire and thieves.

His bills paid by check are not only a valid receipt, but also a convenience in his home transactions where very often the necessary change for concluding settlement is not at hand Don't stop to think this over, but start an account now with
