A large number of two wheel side hill machines, built by the Houser-Haines Mfg. Co., of Stockton, Cal., are now in operation in the California fields and are giving excellent satisfaction. Oregon and Washington farmers should make it a point to purchase this machine, as it is especially adapted for this territory. See sample machines at Walla Walla and other points.

Bad management keeps more people in poor circumstances than any other cause. To be successful one must look ahead and plan ahead so that when a favorable opportunity presents itself he is ready to take advantage of it. A little forethought will also save much expense and valuable time. A prudent and careful man will keep a bottle of Chamberlain,s Colic, Cholera and Diarrhoea Remedy in the house, the shiftless fellow will wait until necessity compels it and then ruin his best horse going for a doctor and have a big doctor bill to pay, besides; one pays out 25 cents, the other is out a hundred dollars and then wonders why his neighbor is getting richer while he is getting poorer. An Awful Death.

Last Saturday one of the employes of the O R & N met a frightful death at Deschutes He had filled himself unnecessarily full of liquor, and while under its influence staggered in front of a moving train. He was horribly mutilated and manicled, his head being mashed to a pulp, both his arms cut off at the shoulders, and one foot cut off. Josiah Marsh was deputized as coroner, and summoning a jury repaired to the scene. The following is their verdict:

We, the jury empanelled to hold an inquest upon a dead body at Deschutes, in Sherman county, Oregon, on this 1st day of July, 1899, having examined all persons in reach appearing to know or likely to know anything about the circumstances, and having examined the body of deceased and the place where found, find that deceased was one Frank Hall, whose address was and is unknown to the jury, a stranger, having no relatives or friends in this locality at all, and who had been and was at the time of his death in the employ of the Oregon Railroad & Navigation Company; that said Frank Hall had been prior to and was at the time of his death under the influence of liquor; that at about one o'clock a. m. of Saturday, July 1, 1899, at Deschutes, in the county of Sherman, State of Oregon, said Frank Hall carelessly and recklessly went upon the railroad track and was struck by an engine and run over, killed and mangled thereby. That no blame attaches to any person for the death of deceased.

Our baby has been continually troubled with colic and cholera infantum since his birth, and all that we could do for him did not seem to give more than temporary relief, until we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy Since giving that remedy he has not been troubled. We want to give you this testimonial as an evidence of our gratitude, not that you need it to advertise your meritorious remedy.—G. M. Law, Keokuk, Iowa For sale by Marsh & Medler.

Fall Sown Cabbage for Early Spring Use.

A very rich soil, plentifully manured, is essential for the production of tender, succulent cabbage. The soil should be plowed very deep. By so doing the lower portion is turned up to the action of the weather, and substances in the soil previously inert are thus subjected to fresh decomposing action, which makes them available for the nourishment of plants.

In order to have heads the first week in May, the seed should be sown the first week in August, on properly prepared beds, choosing a situation if possible where they will be shaded from the midday sun.

Never permit the soil to become over dry at any time, carefully watering every evening, giving a good soaking, but avoid giving in such quantities that the water will run on the surface, as this has the tendency to cause the surface of the soil to become caked, thus checking the growth of the plants.

The following varieties are excellent for fall sowing: Extra Early Express, Early Etampes and Early Winningstadt. These varieties may be sown at the same time, each variety coming to maturity in the order named. The plants should be set out the last of September or the beginning of October on well drained soil. They will not thrive where water stands on the surface of the ground.

Don't forget about that big bargain out at Rutledge.

State Normal School.

The State Normal school at Monmouth announces a new department, that of manual training, in addition to the departments of last year. It has also added to its training department an ungraded school, to give practice in the work of the country schools.

The training department is now perhaps the most complete in the United States. A new building offers increased facilities for work, and next year promises to be the best the school has known. The catalogue shows a marked gain in attendance for the present year. The advertisement appears elsewhere.

An Accident.

Sunday evening Charley Jones had a disastrous runaway. He had been out riding with Mrs. Jones, and came in about train time. His barn is close to the track, and he had just driven up to unhitch when the evening train came rushing up. The horses took sudden fright, and he not having hold of the lines could not control them. The rig was completely destroyed, the wheels being smashed, the top torn off and the bed demolished.

It was a handsome phaeton, the most valuable rig in the county, being made of the very best material and having a basket bed. It is doubtful if it can be successfully repaired, and represents a serious loss.

BRIGHT'S DISEASE

Or Chronic Inflammation of the Kidneys is a very common ailment. Numbers of our best citizens have succumbed to its effects, even though under the most skillful medical treatment. Like all chronic diseases, the symptoms come on insidiously. If proper treatment is obtained in its early stages, Bright's Disease may be cured. HUDYAN will cure it if it is taken in time. HUDYAN will relieve you of all the symptoms. Do not delay too long. Don't wait until your case becomes incurable. You will then throw your money away on doctors and medicines.

Begin the use of HUDYAN now, while you may be cured.

THE EARLY SYMPTOMS ARE:

1. CHRONIC SICK OR NAUSEOUS HEADACHE—HUDYAN taken as directed will relieve the headache instantly.

2-3. PUFFINESS OF THE SKIN UNDER THE EYES, due to a collection of fluid—in other words, DROPSY. HUDYAN will cause the extra amount of fluid to be taken up by the blood and be eliminated by the Kidneys.

4-5. PALE, DOUGHY COMPLEXION, due to the imperfect circulation of the blood. HUDYAN will restore the circulation to its normal condition and cause the cheeks to become red and rosy.

6. WEAKNESS OF THE HEART—One of the first symptoms and the one that eventually causes death. HUDYAN will strengthen the nerves and muscles of the heart and make it strong and regular in its beatings.

7-8. WEAKNESS AND PAIN IN THE REGION OF THE KIDNEYS—HUDYAN will cause the kidneys to perform their functions properly, thereby relieving the pain and weakness.

Get HUDYAN at once and take it regularly. Full and explicit directions go with each package. HUDYAN is sold by all druggists for 50c per package or 6 packages for $2.50 if your druggist does not keep it, send direct to the HUDYAN REMEDY COMPANY, San Francisco or Los Angeles, California. Remember that you can call and consult the HUDYAN DOCTORS FREE. Call and see them. If you cannot call, write to the doctors and tell them all about your case and they will advise you. The advice will be given free. Address
