This week has witnessed the coming into our county of two complete threshing rigs and an engine. They were ordered by the O. T. Co. for H. Richelderfer, W. H. Peugh, and W. M. Reynolds. The former gets a 20-horse Advance engine and separator, Mr Peugh a 16-horse Advance engine and separator and Wash gets a 20 horse Case engine. This will show how little Sherman county crops have suffered from the hot winds.

On Tuesday of this week Marshal Vaughn served writs of arrest on Geo. Crosfield, of the Oregon Trading Co; C. A. Akers and John G. Potter, all three on charge of violating the provisions of Ordinance No. 22, or of keeping open their stores and transacting business on the Sabbath. The trial is to come off on Monday before Recorder Hinman, and will be awaited with much interest by all our citizens, as this is the first instance in which one of Wasco's laws is to be tested.

About one month ago my child, which is fifteen months old, had an attack of diarrhoea accompanied by vomiting. I gave it such remedies as are usually given in such cases, but as nothing gave relief, we sent for a physician and it was under his care for a week. At this time the child had been sick for about ten days and was having about twenty-five operations of the bowels every twelve hours, and we were convinced that unless it soon obtained relief it would not live. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended and I decided to try it. I soon noticed a change for the better; by its continued use a complete cure was brought and it is now perfectly healthy.—C. L. Boggs, Stumptown, Gilmer Co, W. Va. For sale by Marsh & Medler.

The range of human interest covered by the August Cosmopolitan is curiously wide. The reader is swept along—and his journey made fascinating by one hundred and forty-six pictures—from an article telling of the trolley road now building from Cairo to the Pyramids, with some remarkable pictures of those monuments of antiquity; through a comprehensive and richly illustrated review of New York Society; to the prize article on "Your True Relation to Society"; and thence to Ireland to listen to a "child of the turf" telling of the life of Erin's people and the part peat plays in it. Back to Omar's invasion of Egypt the reader goes, and then to take a peep at the art and methods of the late Augustin Daly and to see a magnificent portfolio of pictures of Daly productions, Daly actors and Daly himself. From Daly the reader goes to Cuba and thrills with interest at the well told adventures of a young man who carried mail and military documents to Gomez by the "Underground" route. And to add to all this there are four short stories, all excellent, and the longest is by that prince of tale-makers, Frank R. Stockton.

According to B. S. Pague's report, the showers of the 28th and 29th were of great benefit to all vegetation, and while it delayed harvesting fall-sown grain in some instances, the general good done will more than repay for the time lost. The grain crop in most sections continues in good condition. The reports of damage from shriveling, caused by the hot winds, seem to be confined to sections of Gilliam, Morrow, Wasco and Umatilla counties. The extent of the damage is not known at the present time, but appears to be limited to re-seeded wheat on summer fallow. Harvesting is well under way. Threshing has commenced in Wasco county, and the grain has turned out well, both as to quantity and quality. Oats are ripening rapidly, which the rain greatly benefited. Barley is about all cut; a good crop has been secured.

DIED—On Saturday, July 29 about noon, at the family residence near Bigelow, occurred the death of Mr. F. W. VanPatten after a protracted illness. Besides his wife and three little daughters, his father, Rev. VanPatten and his brother, Dr. VanPatten both of Dayton, Wash. were at his bed-side. His mother and two other brothers one an army surgeon just returned from Manila, arrived in time for the funeral which occurred on Sunday at Emigrant cemetery. During his long illness Mr. VanPatten received the sympathy of a large circle of friends who will remember him kindly and extend their deepest sympathy to his bereaved family.

The Best Remedy for Flux.

Mr. John Mathias, a well known stock dealer of Pulaski, Ky., says: "After suffering for over a week with flux, and my physician having failed to relieve me, I was advised to try Chamberlain's Colic, Cholera and Diarrhoea Remedy, and have the pleasure of stating that the half of one bottle cured me." For sale by Marsh & Medler, druggists.

A New Air Brake Attachment.

Mr. F. J. Super returned from Portland Monday evening, where he had been to demonstrate the value of his new invention—working automatic and straight air in combination—to several experts in air brakes. He is highly satisfied with the result of his visit, as he has clearly proven the success of his invention.

Mr. Super's idea was to hold any train on any grade for any length of time, and he has undoubtedly succeeded. Air brake experts have been working for years on various roads to secure the working of "straight" and "automatic" air in combination, but one and all have finally had to give up the project and submit to absolute failure. The reason for this was that the experiments of experts were confined to one train system, or one system of piping. It would be useless for us to describe the difference between "straight" and "automatic" air, as not one of our readers in a hundred would understand the terms used. Suffice it to say that if a train breaks in two on a grade, both sections immediately come to a stop if automatic air is used, and it is generally used nowadays. On the other hand, if straight air is used and the train parts it goes to destruction unless stopped by hand brakes. The Westinghouse automatic air brake is convertible at will into straight air or direct pressure but working both in combination, a result long sought for, has never been accomplished until now.

Mr. Super's invention consists of what he calls the "break-in-two" valve and exhaust valve, and will involve the construction of a separate train system. The two systems can be worked separately or together, either straight, automatic, or both at once, and presents quite a study to one interested in mechanics or more especially air brakes.

Contrary to the usual order of such matters, Mr. Super says he met with marked encouragement from the various air brake men in the metropolis, all of whom pronounced it a success in every way and wished him all kinds of prosperity. We cannot do otherwise ourselves, and if it once gets on the market we will naturally feel proud to think a little town like Wasco turned out an invention that will be the means of saving thousands of lives and millions of dollars worth of rolling stock every year. May good luck go with him.

What is Shiloh?

A grand old remedy for cough, colds and consumption; used through the world for half a century, has cured innumerable cases of incipient consumption and relieved many in advanced stages. If you are not satisfied with the results we will refund your money. Price 25, 50 and $1.00. Sold only by A. J. Barnett.

Oil in Umatilla County.

A farmer digging a well near Pendleton has found substantial evidences of coal oil. The odor in the well was so strong of oil that he had to retire from the hole when 15 ft deep. He brought a bottle of the water to Pendleton and the liquid is strongly impregnated with oil. If anyone having experience in oil well development will investigate this matter, there may be found fortunes awaiting any number of people, and Umatilla county might add another source of wealth to her already ample supply.—E. O.

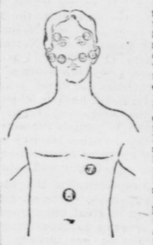
HEART WEAKNESS.

Is your heart weak? Do you have the symptoms of heart weakness? If you have, you should be careful. The heart is the most vital organ of the body. It is the engine that propels the muscles and sends sustenance to the nerves and brain and to all the organs of the body. A flaw in its mechanism is certain to give rise to serious results. Weakness denotes the presence of a flaw. It is a forerunner of something more serious that is to occur. See that it is strengthened and do not allow the weakness to continue. You are the engineer. Look to your engine. See that no accident occurs. HUDYAN is what you need. HUDYAN will strengthen the heart. HUDYAN will make the heart muscles strong and hard. Do not delay too long. Remember that danger is ahead and begin the use of HUDYAN now.



HERE ARE THE SYMPTOMS:

1-2. THROBBING IN THE TEMPLES WHEN LYING DOWN. HUDYAN will cause the throbbing to disappear.

3-6. RINGING IN THE EARS—due to an excessive amount of blood in the head and brain. HUDYAN stops the ringing and buzzing in a short time.

4-5. ALTERNATE PALENESS AND FLUSHING OF THE CHEEKS. HUDYAN will restore the circulation of the blood to its normal condition and keep a constant, healthy color in the cheeks.

7. PALPITATION OF THE HEART AND IRREGULAR BEATING. Owing to the weakness, there is often a fluttering and the miss of a beat occasionally. HUDYAN, by strengthening the heart muscles and the nerves that supply it, will stop the palpitation and fluttering and cause the heart to beat regularly.

8. THROBBING IN THE STOMACH REGION. This is due to the aorta, the large vessel which carries the blood from the heart, becoming distended. This throbbing and pulsating disappear shortly after the use of HUDYAN.

The remedy is at hand. It is the wonderful HUDYAN. Thousands have been cured of Heart Weakness by its use. You should be cured, too. You can be cured. HUDYAN will cure you. Procure HUDYAN from your druggist. It is sold in all drugstores for 50c per package, or 6 packages for $2.50. If your druggist does not keep it, send direct to the HUDYAN REMEDY COMPANY, San Francisco or Los Angeles, Cal. Consult the HUDYAN DOCTORS FREE. You may call and see them and have a free consultation. If you cannot call on the doctors, write to them for advice. It will be given free for the asking. Address
