ILL-TIMED SPEECH.

cially representing the administration of wage earners are deprived of their means the United States in England can safely be of livelihood. The first real wave of depresallowed to tell English manufacturers that sion has just struck Oregon City and idle it is the intention of the American congress and president to admit their goods last wave will strike, and what damage may free of duty and to cause a stoppage of result before its force is spent time alone American industries. What this country can tell. now needs, says the Inter Ocean, is a restoration of that confidence in the stability of felt prior to the elections of November last. solely to lack of confidence. Restore that him, publicly proclaims the advent of free trade.

United States in the English town of Shef- ployment and the casting out on the world field, said in an after-dinner speech on July of thousands of unemployed who are vainly 4, is thus reported in the Sheffield and Roth. | seeking the me ins of support for themselves erham Independent of the ensuing day:

"England's greatest customer has been the United States, and in spite of tariffs that have been raised against foreign countries there is, and must continue to be, a great America. [Hear. Hear.] You have passed the worst period; you have crossed the the United States and England in the way of trade obstruction. [Applause.] I will since 1860 the democratic party, which has cle Sam seems in no haste to take. been the party of free trade, is in power; not only in the executive, but in both its legislative branches."

Since "the democratic party, which," as Mr. Folsom says, "is the party of free trade," came into power, not only in the executive. the country. During the four years of Mr. ness enterprises were set on foot. Since avail. "the party of free trade" came into power, which is about six months ago, the number of business failures has increased 200 per cent. above that of the first six months of at half the present price, then we will have the year 1862, which was the first year of the full operation of the McKinley law.

What the country now needs is pacification of spirit, assurance that industries will but fair to conclude that if commodities be protected, that wages will not be depressed by competition of American labor- have to come in for its share of low prices. ers with the lower paid artisans of Europe, and that a sound system of finance will be perfected and maintained.

THEN AND NOW.

The iron-workers of Pittsburgh, who have prepared a wage scale similar to that which has been in operation during the past year. and have presented it as expressing their notion of the fitness of things, may be much statement that the number of unemployed disappointed. The manufacturers have a men in the capital city is unlimited. very decided notion that wages this year should be much less than wages last year, and their view is likely to prevail. The free trade says: "The trouble at present is

Oregon City Enterprise. learn a lesson from experience, which we rost a more possibility of tariff revision that learn a lesson from experience, which we | The New York Post proclaims that, it is and conferred benefit solely upon the man- row ufacturers. At that time the country was in great prosperity, and the highest wages in the world were paid here. The democratic party won in the contest in November, and it is now in full control of the government. The result is that the nation has entered upon such a period of depression as it has not experiencey since 1857, when the same party was in power, and industry of every kind is in a condition of extreme prostration. The price of everything but labor is down, and now wages will have to come down or the mills will be compelled to stop operations. It will be low wages or no Particularly is this true of Iron manufacture, which has suffered more than other industries because the McKinley tariff reduced the duties upon many of its products. American workmen must fully grasp the fact that we have had a political revolution away from the polley and the theories under which the highest of wages have prevailed, and that we are now entering upon a period in which European ideas are to be dominant in the United States with the inevitable result that the man who toils must surrender a part of his earnings. They may now clearly perceive what the assurances of the democratic journals and orators, made last fall, are worth.-The Manufac

According to The Advance the wild speech of the governor of Colorado has had the effect of bringing out some strong facts against the absurdity of sacrificing the interests of the country for the silver business. It has been shown that the whole country last year produced 50,000,000 ounces of silver, worth at present \$42,000,000. The entire product came from seven states and territories with an aggregate population of a little over 1,000,000. That is to say, the business of 62,000,000 has been turned topsy turvey in the interest of 1,000,000. The foreign commerce of the country is two thousand millions, the silver product is but one fiftieth of this sum, and foreign commerce has to be conducted with gold. The silver product is but one sixteenth of the cern product and only a fraction even of the one is assiduously circulating the report poultry product. The country makes more money out of its hens than it does out of its much uneasiness. The times are bad enough much or make half so much fuss as the silwithout the meddling of evil disposed or ver-state governors and senators. Instead
