LEBANON.—The C C Hackleman club of Lebanon and the Juveniles of Albany played the first game of a series of three games at this place last Saturday. Following is the result: Lebanon, 27; Albany, 26.

Work was begun on the new school house this week. The building will be 70x36, two stories high, with an eight foot brick basement. We are told that it will be the finest school building in the county.

Dr Barker, Ben Barker and some Eastern men went up the Santiam last Friday and returned Monday. We suspect they are on the heels of something rich.

J A Lamberson informs us that he bought and shipped thirty-four tons of chitem bark. This new industry has given employment to scores of people and scattered hundreds of dollars through the country. "Verily the hand of the diligent maketh rich."

Frank O'Neil, who has spent several months in the East inspecting and purchasing machinery for the paper mill, returned Saturday. Mr O'Neil has bought nothing but the best machinery, has employed the foremost architect of the country to draft the structure, and says there will not be a better straw paper mill, and but one as good, in the United States. Three car loads of machinery are on the road, and four car loads will arrive about the first of October. The main building will be 120x90 feet. Two other structures huge in their proportions will also be built. He will probably employ 50 men the coming week. It is expected that the mill will be in operation by December 1st.—Express.

Jas F Powell & Co.

WALL PAPER.—I have just received rom the east a large invoice of wall paper, borders, decorations, etc., including the plain ingrains which are becoming very popular. These goods are better styles and cheaper than ever before.
