Healthfulness and Water Supply

OF

MINTHORN.

In the selection of a residence location no element is so important as that of healthfulness, and no single element contributes so much to the healthfulness of a locality as water supply. In this respect Minthorn Springs is easily superior to any residence locality in the city of Portland. It is high, and drainage is complete. The water supply is from a spring capable of abundantly supplying 25,000 people with water. A distance from the river of one-half mile places it out of reach of malaria. A system of water works will at once be constructed, so that parties building will have an abundant supply of pure cool water direct from the spring.

Some Facts in Regard to Its Loction in Reference to the Business and Employment Centers.

PORTLAND is the great manufacturing center of the Northwest. Portland's source of power for manufacturing purposes is at the falls of the Willamette river at Oregon City. Already the manufacturing interests of Portland, mostly conducted at Oregon City, produce an income of $20,000,000 annually. They are constantly growing and increasing. This great manufacturing center is distant on one side 8½ miles from Minthorn Springs, while Portland, the great commercial metropolis and business center of the North Pacific coast, is 3½ miles distant in the opposite direction. It requires no stretch of imagination to see that the country intervening between Portland and Oregon City (its base of power supply) is the natural residence location of the business men, and busy workers and wage earners who keep in motion the various enterprises of the commercial and manufacturing interests of the North Pacific coast.

SECOND. The Woodstock Motor Line, already graded to a point within one and one-half miles, will eventually be extended to this property.

DAILY DEMOCRAT.

SCIO.—Mr Walter McGhee, proprietor of the city restaurant, Albany, was in our city Wednesday.

Lee Bilyeu went over to Albany Wednesday to get his horse and cart which Doty, the printer of dead-beat fame, left there.

County clerk Babcock, of Salem, was a passenger for Albany on the O P train last Saturday. He has been up in the mining region, on the Santiam, to recruit his health.

W R Graham, one of Albany's knights of the shears, and Thos Jones, of tonsorial fame, visited our city Tuesday, on business and pleasure. While here they gave the Press office a call.

The total number of acres of hops in this immediate vicinity is about seventy acres. The average yield per acre, it is thought, will be about 1500 pounds. $21,000 added to our circulating medium will not be bad.

Our electric light plant was set going last Saturday, to the great satisfaction of our citizens. We justly feel proud of this step forward in city improvement. We can safely boast that no other town of a like number of inhabitants has as good a system of electric lights as we.—Press.
