MORE ARE INDICTED

JURY PROBES DEEPER IN LAND FRAUD CASES.

Dr. W. H. Davis, Mayor of Albany; S. B. Ormsby, and Clark E. Loomis, Among Those Indicted.

PORTLAND, Dec. 27.—Seven indictments were returned by the Federal Grand Jury today. The prominence of three of the number and the recurrence of the mysterious John Doe and Richard Roe, made the day one of the most sensational since the jury re-convened.

The most important indictment was that of Dr. Wm. H. Davis, mayor of Albany, Oregon. Hardly less important are the indictments of Salmon B. Ormsby and Clark E. Loomis, both former Government employes.

The two others are Henry A. Young and Geo. Sorenson, who are not so well known. John Doe and Richard Roe are two persons with whose true names the jury state they are as yet unacquainted.

The charge in the indictment today accuses the indicted men with having entered into a conspiracy on December 23, 1901, to defraud the Government of its public lands in township 11 South, Range seven East, and by the means of false and forged affidavits and proofs of homestead entry and settlement, the Government was induced to issue patents on the land.

In the indictment just returned Dr. Davis, mayor of Albany, and the chairman of the county central committee of Linn county is the central figure. The charge against him is his alleged conspiracy with Loomis and Ormsby in having proved up on claim "11-7," which he had abandoned after "11-7" had been included in the forest reserve, and secured a patent to the land.

Young's connection with the alleged conspiracy, as in Sorenson's is not made clear in the indictment.

It is thought, however, that the Government will attempt to prove entry on the land the Government believes itself defrauded of. Young is in the East and it is not likely that the Government will attempt to bring his case to trial as the offense is not extraditable.

Sorenson was a deputy sheriff of Multnomah county several years ago, and the latter was a real estate agent. He left Portland some weeks ago and his present whereabouts is unknown.

United States Senator J. H. Mitchell and Representative Hermann are in Portland appearing as witnesses before the Grand Jury in the investigations that are being made, having been subpoenaed from Washington.

GRAND SUBMARINE ILLUMINATION.

Unique Feature Planned for Lewis and Clark Centennial.

Portland, Dec. 29.—Elaborate submarine illumination of Guild's Lake will form a unique feature of the Lewis & Clark Centennial. Guild's Lake, which is the largest body of water enclosed within an exposition fence, separates the mainland and the Government peninsula, and is spanned by the Bridge of Nations and the Trail, which are aggregately over 2,000 feet long. Chief Engineer Thompson has planned to place rows of fifty candle power incandescent lamps on the bottom of the lake on each side of the Bridge of Nations. The lights will be enclosed in air and water tight marine receptacles, and when the illumination is accomplished it will be possible for spectators on the bridge to look down and see fish swimming in the lake.

In order to make the effect as attractive as possible, the lake will be filled with fresh water fish of various kinds, such as lake trout, catfish, bass, mullets and sun fish. Water plants will also be placed on both sides of the bridge. To complete the picture, the surface of the lake will be dotted with Indian canoes, propelled by representatives of the Indian tribes through whose country Lewis and Clark passed in their historic pilgrimage a century ago. Besides these there will be a myriad of other craft, ranging from row boats to racing launches of the latest pattern.

A GREAT INDUSTRY.

There is much demand throughout the country for good hop land, and especially in Benton and Polk counties. The past two or three years of successful hop growing has caused many farmers to turn their attention toward this great industry, and the result is that each year the acreage of hops is increased considerably. This trend toward hop growing has also been the cause of raising the valuation of land in hop growing sections, and especially land that is suitable to hop farming.

The latest estimate on the Oregon hop crop for 1904 is placed at 35,000 bales. While this year's crop falls short of the 1903 production, the revenue derived from it exceeds that of last year by more than \$1,000,000. The price received in very few instances went above 15 cents, while this year almost the entire crop of the state sold for prices ranging from 25 to 32 cents, even the small amount that was contracted brought from 15 to 18 cents per pound.

Oregon produces more than one-third of the entire hop yield of the United States. Putting the average price received for this year's crop at 25 cents per pound, the income on this one commodity will be close to \$5,000,000.

DIED.

Elizabeth Roberts, aged 72 years, died December 11, 1904, at Liberal, Clackamas county, Oregon. The funeral services which were largely attended by sympathizing friends, were conducted by Rev. Wilos, pastor of the Mulino M. E. church, the text being Isaiah 38:1—"Set thine house in order for thou shalt die and not live." Burial was had at Beaver Creek. Mrs. Roberts, or Mother Roberts, as she was best known, was born in New South Wales, in 1832 and was married to Mr. Roberts in 1859, emigrating to America in 1858.

A mother in Israel is gone.

MAMMOTH EXHIBITION PALACE.

Demands For Space Make Necessary New Exhibit Building.

Portland, Dec. 29.—In order to provide for the best of the overwhelming array of exhibitors who wish to participate in the Lewis & Clark Centennial, it has been necessary to make a readjustment of the exhibit buildings and to provide for 30,000 square feet of additional space. This space will be added to the new exhibit palace recently provided by the executive board, so that the building will contain 90,000 feet of floor space, and equal in size to the Agricultural Palace, the largest building at the Exposition.

With this additional space it will be possible to provide for all exhibitors. The new structure will be known as the Palace of Manufacturers, Liberal Arts, and Varied Industries. It will be located near the Plaza of States, due East of the Agricultural Palace. The cost will be about \$50,000, and bids for the construction work will be called for at an early date.

The readjustment made necessary by the overwhelming demand for exhibit space will result in the Foreign Exhibits building being given over exclusively to Oriental exhibitors, instead of being used to house the displays from all nations, as was originally the plan. In this building will be the exhibits from Siam, Corea, East Indies, Turkey, Algeria, Persia, Japan and China. The building formerly designed for Liberal Arts will be called the European Building, and will contain exhibits from Great Britain, Germany, France, Italy, Russia, Denmark, Sweden, Austria, Switzerland, Hungary and Belgium. The educational exhibit will be located in the new Palace of Manufacturers, Liberal Arts and Varied Industries.

LEWIS & CLARK FAIR, NOTES.

It is estimated that the attendance at the Lewis & Clark Centennial will be between 1,250,000 and 1,500,000.

The American Inn at the Lewis & Clark Centennial, which will be located on the Exposition grounds, will contain over 600 guest rooms.

The new building for the Lewis & Clark Centennial, made necessary by the demands for exhibit space, will contain 90,000 feet of floor space.

A Cuban exhibit from St. Louis is on its way to Portland, where the contents will be exhibited at the Lewis & Clark Centennial. The car is called Cuba on Wheels.

A Commercial Club has been organized at Albany, Oregon, to exploit Albany and Linn county. The club will have charge of Linn County's exhibit at the Lewis & Clark Fair.

The Topeka Commercial Club, of Topeka, Kansas, recently adopted resolutions congratulating the people of Portland on the Lewis & Clark Centennial, and favoring participation on a large scale by the people of Kansas.

The Great Falls, Montana, Commercial Club is planning a fete to last several days, including the Fourth of July next, to celebrate the Centennial of the Lewis & Clark Expedition. The Lewis & Clark party spent the fourth in 1805 near Great Falls.

The project of a camping ground to be located on the hills behind the Lewis & Clark Exposition is being agitated. Those favoring the project argue that farmers and ranchers will want to drive to Portland and camp out, and that Eastern people will enjoy the novelty of a few days of tent life.

Shively's Opera House, Tuesday, Jan. 3d.

"Good things come in small packages" so the saying goes, and perhaps that is the reason Marie Heath has proven such "a good thing" for her managers. Scarcely more than a child in appearance, this little woman is possessed of that latent force of power known as magnetism and kissed hills of laughter, down through dark vales of tears and back to the land of smiles, touching every cord of human emotions. One critic describes her thus: "A little will-o-the-wisp, all tears one moment, all smiles the next. A veritable dramatic cocktail that intoxicates with pleasure, and withal an artist to her finger tips." Miss Heath has a long list of successes to her credit but in the character of Jo. Pemberton, the boy in "For Mother's Sake" she has reached the crowning zenith of characterization.

HAS ANOTHER DREAM

INDEPENDENCE EDITOR HAS ANOTHER GUESS COMING.

Published a Report That Clackamas County Officials Are After Increased Salaries.

It is an old familiar saying that one must go away from home to find the news. The following clipping from the editorial column of the Independence West Side is added proof of the contention:

"The Clackamas County officials will ask their legislative delegation to introduce a bill for 25 per cent raise in salaries. With the exception of treasurer, Polk county officials will probably be able to scrimp along. The sum of \$750 a year is not commensurate with the bond required and responsibility placed on the treasurer."

Editor Lyon should come out of his pipe dream. Having made mention complimentary and otherwise of Clackamas county roads and commented on the respective merits of Polk county and Clackamas county in preparing county exhibits for the Lewis & Clark Fair, he now imagines that the present county officers are dissatisfied with their present salaries and will ask their legislative delegation to secure an advance of about 25 per cent.

The report is positively and emphatically denied by the present incumbents, who are satisfied with their present salaries. In fact they are too busy attending to the duties in their respective departments to give any time to the reported movement for an increase in their compensation. The present officers of Clackamas county are all Republicans and were elected on a platform pledge of an economical administration of county affairs.

Officers in this county now receive salaries as follows: Treasurer, \$1800; Sheriff, \$1500; Recorder, \$1200; School Superintendent, \$1000; Clerk, \$1100; Assessor, \$4.00 per diem.

Will Reside in California.

Mr. and Mrs. J. W. Noble have arrived in this city after an investigation of the southern portion of the State, and intend making Imperial Sonoma their future home. On their first visit here neither Mr. nor Mrs. Noble were greatly charmed at the sight of the City of Roses, and determined to go further South to locate. They toured the State as far South as Modesto, and found it grew worse as they got further, and then determined to return to this vicinity and make their home. Mr. and Mrs. Noble have resided for many years in Oregon, first at Oregon City, and later at Bend, Oregon. For six months they have been traveling for their health. Their daughter, Miss Jennie R. Noble, has been in the City of Roses for a number of months past, and is greatly pleased with her parents having decided to make this city their home.—Santa Rosa (California) Republican.
