CITY OFFICIAL PAPER.

GOOD EVENING

Read locals on 4th page.

LONG SOLD.—After another long legal fight before Judge Pipes, at Corvallis, Tuesday afternoon, the Oregon Pacific railroad was ordered sold on Dec 9, at Corvallis, to the highest bidder, and that receiver's certificates be issued to the employes for the respective amounts due them, so that they may be entered as preferred claims. The general opinion is that Col Hogg and his backers will secure the road, but it is probable it will require some live bidding against the Dutch bondholders. It looks now as if, though the proceeding, it is to be regretted, delays the payment of the men, will result in the reorganization of the road and its construction eastward. The road is one of national interest, as will be seen by the clippings from eastern papers, and the men interested are among the leading capitalists of the east. Thus, at least, the matter will not be finally solved without considerable general prominence being given to it. Whatever the present road is, but give us an eastern connection and we will have the best line crossing the continent, and that will never permit Coe station to remain the eastern terminus.

ARRESTED.—Mr G W Rogers was arrested last evening on complaint of C G Ritchie charging him with the crime of taking away a female under the age of sixteen years from her father without his consent for the purpose of marriage. Mr Rogers waived examination and gave $500 bonds to await the action of the grand jury. The facts, as we learn them, are that Mr Rogers, who is employed at common labor by J Bryant, has been paying attention to Leatha, daughter of Mr Stahl, for some time. Some days ago he asked permission of Mr Stahl to marry his daughter, and it was refused. Taking a witness he went to the county clerk and obtained a license to marry, the witness making affidavit that Leatha was over eighteen years of age. But it appears she is not. Both parties are said to be respectable people. Mr Rogers is said to be a very industrious, hard working young man. The general impression is that all parties would be gainers to drop the prosecution.

ASTORIA OCT.—The Oregonian says: There are several points in the Willamette valley hoping to be the starting place of a railroad, the other terminus of which shall be at Astoria. Salem and Albany are the principal rivals in this hope, and many arguments in favor of both places have been advanced. The railroad that would benefit Astoria the most would be a direct line from Portland, and that this has not been built long ago is because capitalists who have money to invest have seen plainly that such a line would be for a long time, at least, unprofitable." A great advantage in connecting at Albany over Portland or other points, would be the superior rates from this city to other points, as shown by the recent statement published by the Oregonian, and better still its connection with a road destined to be the best transcontinental line in existence.

A BENTON FRUIT ORCHARD.—The Belmontain Fruit Growers Association has bought trees of Brownell & Hyman, of Albany, and will set out 140 acres in fruit. The ground is nearly ready, and planting will be commenced in a short time. This company owns 560 acres of fine foot-hill land, and it is another of the many industries fostered by our own citizens. The enterprise and energy devoted to this company will be manifested in the fruit produced in the next few years.—Gazette.

THE TRIAL AT BROWNSVILLE.—"Bill" McKinnon, of Lower Soda, was to be tried this afternoon, at Brownsville, before the justice at that place, on complaint of Mr Atkinson, who charges McKinnon with having shot him, as narrated in the DEMOCRAT.

IN THE RIVER.—Last evening while the pile driver was being loaded on the scow at the Albany bridge site, one of the men took a tumble into the river, much to the amusement of the large crowd who were watching the proceedings. As the water was shallow it was not a serious affair.

NOTICE.—The next meeting of the Linn county alliance meets on Friday, before the second Saturday in Nov. at Scio, at 10 o'clock a m. All unions are requested to be represented as matters of importance are to be transacted. By order of the president. T M MUNKERS.

THAT SURVEY.—The surveyors around Breitenbush expect to reach the Santiam with the second tier of sections this week, says the Mill City Gazette. R C Case, Geo Mayborn and Mr Jones of this place is on the survey and Mr Perry and Pease of Coe also.

A SHEDD BURGLARY.—Tuesday night the store of Crume & Davis, at Shedd, was burglarized, a quantity of clothing, boots, cutlery, and other things being taken. It was laid to tramps.

DIED.

FRUM.—On Oct 22, 1891, at the residence of A Frum, six miles north of Brownsville, Mrs Elizabeth Frum, aged 68 years.

The deceased was one of Oregon's pioneer women, arriving in this state from Illinois in the year 1851. Mrs Frum, who was well and favorably known to a large circle of friends, was the mother of twelve children, and was one of those noble women who, braving the hardships of western immigration, struggled with the vicissitudes of pioneer life, and after having performed the duties of a christian wife and mother, has joined the great throng gone before.—Times.

Does it Contain Ammonia?

The charge is being made that the Royal Baking Powder contains ammonia. We would have supposed that the emphatic condemnation of ammonia baking powders by the most eminent physicians throughout the land, and the fact of the three leading chemists of Minnesota making their report to the Senate Committee recently showing that bread baked with the "Royal" contained ammonia and the hostility now being manifested by the public against all ammonia and alum baking powders would have driven them permanently from the market.

In view of the fact that Baking Powder has become an indispensable article in every kitchen, it is gratifying to know that there are brands in the market to which no suspicion of any kind has ever attached. Dr. Price's Cream Baking Powder is a pure cream of tartar powder free from every taint of ammonia, alum or other harmful substance.

Dr. Price's Cream Baking Powder is reported by all authorities as free from Ammonia, Alum, or any other adulterant. In fact, the purity of this ideal powder has never been questioned.
