A Steel Windmill Tower and Frame for 25 cents. Those who have read the story of the Aermotor, the ever-going Steel Windmill, know that one goes with every Tower and we "Take the Risk." Thousands, we may say the 20,049 Aermotors sold in 1891, worked 2 weeks to 18 months, vastly increased our business, prompting us to place the Aermotor before the public in a more substantial form. Are you curious? Address Aermotor Co., Chicago. Experience, cause to make many winding makers copy, came to originate the Steel Fixed Tilting Tower! 1st. We succeeded in making a windmill which there has been a demand for for years, there seemed to be no end to this, and now we can supply the demand except in Jersey. 2d. Before the Aermotor was invented there were no mechanical windmills over 3,000 lights were sold by actual count, but forgetting the uniform and dependability of the Aermotor, it has been done.

3d. To the liberal policy of the Aermotor Co. we owe its great satisfactory or pays Delight in the enormous output of its factory which with the best article at less than the poorest. We furnish the most perfect Steel Windmill, and have made so great a division of the Aermotor and Steel Tower. If you want a strong, stiff, Steel Fixed Tower and the Wheel that runs when all others stand still, that spins you less than wood, and lasts longer (The Steel Aermotor) or if you want a Feed Cutter, grind, cut feed, pump water, saw wood, that does the work of 4 horses, for $100, write for explicit illustrated catalogue showing every conceivable phase of wind power and work, to
