U. OF O. WANTS FAMOUS DOBIE FOR COACH

EUGENE, Jan. 25.—Gilmore Dobie, for nine years coach of football at the University of Washington and at present occupying a similar position at Cornell, has been offered \$8500 by the athletic council of the University of Oregon to coach football here. Under the contract offered Dobie, he would coach football only, the agreement to run for a period of five years.

The fact that a big eastern coach was being considered has been known on the Oregon campus for some time. This idea of procuring an outsider seemed to be fostered by certain alumni who are represented on the council. It is understood that Dobie informed inquirers who wanted to know for what amount he would consider coming to Oregon, that the lowest figure he would consider would be \$10,000 a year, for football only, and a five-year contract.

The members of the athletic council, which has within its power, in conjunction with the executive council of the student body, to select the coach of the varsity athletic teams, met last Saturday and considered the price Dobie had placed upon his services. After considering the matter at some length it was decided to offer the ex-Washington coach \$8500 for a period of five years.

Income of 68 Well Over Million Mark

WASHINGTON, Jan. 25.—One person in the United States had a net income of more than \$5,000,000 in the calendar year 1918.

Sixty-seven others made more than \$1,000,000 and 178 had their wealth swelled by more than \$500,000.

Two of the "more than a million" class gathered in between \$4,000,000 and \$5,000,000; four cleared between \$3,000,000 and \$4,000,000; 11 rounded up from \$2,000,000 to \$3,000,000; 18 tucked away in their jeans from \$1,500,000 to \$2,000,000, and 33 registered between \$1,000,000 and \$1,500,000.

Of the 178 who had net incomes between \$500,000 and \$1,000,000, 46 made from \$750,000 to \$1,000,000 and 132 corralled between \$500,000 and \$750,000.

These figures were made public today in an official report of the commissioner of internal revenue. The names of the persons making these sums are not revealed. The law requires that income tax returns be held confidential.

COMING YEARS TO SEE AUTO INDUSTRY LARGEST IN U. S.

"Although the year has been, on the whole, one of immense expansion in the automobile trade of the United States, there is reason to believe that next year will greatly exceed this season's record," says Wallace Cauffield of the Pacific Highway company, truck and Ford dealers. "With every family aspiring to own at least one automobile and with nobody giving up a car, once acquired, unless to buy another, the day is fast approaching when no family can afford not to own an automobile, for the car will be regarded as much a part of the household equipment as the reading lamp, the beds and the kitchen sink. Indeed, the recent census of South Dakota showed the automobile to be more numerous in that state than bath tubs, which at least affords a basis of valuation of the popular demand for bathing, as compared with transportation."

Early Spring Comes Out Macksburg Way

MACKSBURG, Jan. 26.—At last the rainy days are alternated by those of sunshine and in these we see the incipient renewal of the vegetable world.

Already some of us are planting seed in boxes for the sunny windows, determined, if possible to have tomatoes and cabbage early, the former in time to ripen well before the sun shall be hidden with clouds that its power must remain unfulfilled.

Those constant friends the strawberries are promising well. Like the meadow lark in the feathered creation this charming part of the vegetable kingdom ceases not to give us of its cheer the whole winter long. However biting the cold, however sombre the clouds or drenching the rain it lovingly foliage of crimson and green shines through all with the gladdening promises of what it is preparing for us before the summer is fairly here.

The early flowers, too, are planted in boxes and set in the sunny exposures.

The Mothers' Club is to meet in the present week at the home of Mrs. John Heinz. Plans for taking up the work in European Relief will be discussed and, it is hoped, brought to definite conclusion. The day has gone by when people can be satisfied by reading of famine and uttering a few exemplary sighs over it. Famine is no more thing but, strenuous measures for its relief such as are at work today are comparatively new. Such outpouring of money and of work in our day is not to be read of in any of the world's chronicles. Woh would be left out of a work so grand.

Clackamas Girl Is Hit by Fast Auto

CLACKAMAS, Jan. 26.—Miss Mildred Paulsen was hit by an automobile Sunday evening about 5 P. M. on the highway near Mr. Maitland's house. She was on her way home after spending the week end with friends in Portland when two automobiles met, both going at a high rate of speed. Miss Paulsen stepped to the side of the road when the machine swerved to the right knocking her down. Fortunately she was far enough away so she was only slightly injured. It is a wonder that more people are not killed on this stretch of highway as the machines speed up to 45 and 50 miles per hour. A speed cop could get some good picking if he should happen to stray away from home long enough to patrol this stretch of highway was any fair and warm Sunday.

Tuesday evening, January 18th, friends and neighbors of Mr. and Mrs. George B. Frank held a surprise party at their home it being the occasion of Mrs. Frank's birthday. As Miss Mildred Paulsen's birthday came on the same day they made it a joint celebration. Luncheon was served and then they all joined in an old fashioned dance.

Pruning and spraying trees is the order of the day in and about Clackamas. All signs are for a big crop of fruit of all kinds here if we have no late frost.
