HIGHWAY SIGNS AND CROSS WALKS ASKED BY PEOPLE OF CANBY

CANBY, Jan. 27.—What is needed in Canby is a cross walk in the northern part of the city beyond the railroad track, leading into one of the most desirable sections of the city, and a road sign directing the motorists to Salem and other sections south of this place, say local people on all sides.

STARTS OUT TO FIND THE "MISSING LINK"

NEW YORK, Jan. 26.—An expedition of Americans will leave New York next month to call on the missing link Garden of Eden, Ray Chapman Andrews, noted explorer, declared.

Andrews, leader of the third Asiatic expedition of the American Museum of Natural History, said he expected to find the Garden of Eden—the cradle of the human race—in the depths of Mongolia or perhaps in India or in Siberia. He will spend five years searching, operating from a base at Peking, China.

There is little chance that the monkey will be found alive, but the explorers have hopes of discovering his fossilized remains. The expedition consists of Andrews, his wife, who is official photographer, and eight other scientists.

"Not only was Central Asia presumably the cradle of the human race, but it also was the center of distribution for many of the animals found today in Europe, America and other parts of the world," Andrews said.

"China and Central Asia, being the most ancient center of human dispersal, we expect to discover the origin and evolution of the human race. We will try to discover the oldest man."

The hunt will cost \$50,000 a year, it is estimated. The expedition starts for Peking February 23.

JENNINGS LODGE P. O. CASE AGAIN BEFORE COURT

The Jennings Lodge postoffice case came to light again Tuesday afternoon, at Portland, when Assistant United States Attorney Ausin Flegel filed a suit for the government for \$2250.62 against C. P. Morse administrator of the estate of S. H. Dill, deceased. The complaint alleges that Dill was short that amount in his accounts to the government.

"So far as the government is concerned, Dill was postmaster at Jennings Lodge when the theft occurred and the building was burned down," said Flegel. "I understand that Dill became ill and appointed Charles A. Elwell as assistant postmaster. This, of course, makes Dill responsible for the acts of Elwell. The government can collect its claim from the Dill estate, but cannot collect it from Elwell."

At the time Elwell was sentenced to one year in the county jail by Judge Wolverton, a promise was made to the court that Elwell would return the missing amount to the postal funds. It is anticipated that Elwell will pay the estate and that the money will be turned over to the government by the estate.

LAW EXHIBITS NEW VARIETY OF WONDER POTATO GROWN HERE

John H. Law, residing about two and one-half miles from Oregon City on what is known as the Old Tann mill place, on the Abernethy, was in Oregon City Wednesday and brought in a sample of some potatoes of his own propagation grown on his farm. Those who have seen the product have been greatly interested in the variety, which have been named "John Law."

Before leaving for his home Mr. Law sold seed to several of the prominent residents (two pounds), at \$1 per pound, were Attorney D. C. Latourrette, Attorney George C. Brownell, and I. D. Taylor of the tax department of the sheriff's office. These men will try their luck this year to see what they can do in the potato line.

Mr. Law was a resident of Oregon City thirty years ago, and says he well remembers mud knee deep on Main street in Oregon City at that time. Later, he left for California, where he remained until three years ago when he returned to this city. Before returning here he visited the Luther Burbank experiment farm in California, where he was given valuable information regarding potato growing.

After returning to Clackamas county Mr. Law decided to try his luck at potato growing according to the advice given by Mr. Burbank, setting out one day seeds from a Burbank vine, carefully planting them which resulted in one of the finest varieties of potatoes grown here.

On the first year after the seeds were planted, Mr. Law harvested thirteen potatoes that weighed (in bulk) one pound. On the second year he averaged seven pounds of potatoes and the third year harvested 830 pounds.

From one hill alone he secured thirty pounds of potatoes, coming from one of the largest seed potatoes which was less than an inch in length, and to prove this Mr. Law has the old hull of the potato planted on display in the office of the county agent opposite the court house.

The largest potato this year measured about 5 1/2 inches in length, while many averaged five inches. The "John Law" potato has an unusually smooth skin and is excellent for baking.

Mr. Law believes that the information he received from Luther Burbank has been the means of his being able to propagate successfully the new variety of potato. All the seeds except one planted by Mr. Law failed.

A. L. Beattie, of this city, is handling in the spare seeds.

STUDENTS BUY MOVIE MACHINE FOR SCHOOL

Gladstone school No. 116 has purchased a new moving picture machine, and the first entertainment was given last Saturday evening, which was largely attended by pupils of the school and patrons of the district.

It is planned to give these entertainments every Saturday evening, and a charge of 10, 15 and 20 cents will be the admission. The money with which the moving picture machine was purchased was secured by soliciting for the Country Gentlemen, Saturday Evening Post and Ladies' Home Journal, each subscription to these magazines netting the students 50 cents and \$90 was raised. The remainder, \$35, was the amount raised when a pie and candy social was given and a hallowe'en social at another time.

The machine is operated by J. W. Lenhardt, principal of the school. The students feel well repaid for their untiring efforts in working to secure funds for which to make the purchase and are looking forward with pleasure to entertainments planned for each Saturday evening.

Yo All Am Mistaken I Done Got Ma Suit In Vancouver, U. S. A.

A colored man was arrested yesterday afternoon on Main street by Chief Hadley, after the officer had received a telephone message from Canemah in effect that a suit of clothes had been taken from a residence there. Chief Hadley found the negro in the pool hall on lower Main street and upon investigation of a package carried by the man, it was found to contain a suit of clothes.

The negro claimed that he stole the suit in Vancouver, Wash., several days ago, and that he knew nothing of a suit missing in Canemah. The coincident was somewhat amusing to the local force, and now Chief Hadley is busy trying to trace the lost suit from Canemah. In the meantime, the negro is securely locked up in the city bastille. Tuesday night the chief locked up two colored men in the city jail for safe keeping and early Wednesday morning they were sent on their way. It is thought probable that the two colored men may have taken the suit at Canemah.

ST. HELENS, Or., Jan. 25.—Fire which originated apparently in a hot box in the upper story of the St. Helens Flour mill, Tuesday entirely destroyed the building and contents, including about 500 bushels of wheat and considerable flour.

COUNTY IN DEBT OVER \$359,000 FOR ROAD WORK

Clackamas county is in debt for roads up to January 1, 1921, the sum of \$359,636.62 as shown by the semi-annual report of County Clerk Miller issued yesterday afternoon. The report shows that out of \$363,311.12 in outstanding warrants for the general and district road funds, only \$3,674.50 is on hand to meet the obligation. While the balance of the departments of the county are in good financial shape, and in many instances show a surplus fund, the general and district road funds are the reverse.

Inasmuch as the law forbids money to be taken out of another fund and applied to the general and district road funds, the county now faces an indebtedness as stated above.

An unauthentic report a few days ago gave out the information that Clackamas county was almost entirely out of debt and that only a few thousands remained to be settled up. The clerk's report printed below shows the exact financial condition of Clackamas up to January 1, 1921.
