Mr Perry Knighten, of Tangent precinct, left at the DEMOCRAT office to-day several stalks of corn which show that Oregon can raise as fine corn as any state when she once tries. The corn was planted the last of May, and shows a fine growth.

We again warn our citizens that Halloween occurs next Monday night so that arrangements can be made to protect the front gates of the city. Should a raid be made in certain quarters there will be some bodies lying around looking as if they had passed through a sausage mill and been struck by a Kansas cyclone.

There are 5000 volt dynamos at the electric station which revolve 1350 times a minute and over which the electricity traveles the circuit of nearly 70 miles 12 times in each revolution, or 840 miles in each of the 1350 revolutions—1,114,000 miles a minute. No wonder a momentary contact with a "live" wire burns a hole in one's finger.—Or City Courier.

THE NEXT LEGISLATURE.—The next legislature should not be dominated by Portland ring influence, but the members should represent the people and their wishes. The mortgage tax law should be re-enacted, as well as a carefully guarded exemption for indebtedness clause; the militia appropriation cut down; state fair and copitol expenditures retrenched; extra allowances for the governor and other state officers cut off; the general appropriation bill pruned of its numerous steals and economy and retrenchment made the watchwords of the session.

In addition to this the railroad commission owned, operoted and controlled by the S P Co., should be abolished forever.

The asylum and penitentiary managements should be thoroughly investigated; the books and records of each state office carefully inspected, and the board of school land commissioners made to show how its clerk makes so much money on a comparatively small salary.

The fish and game commissioner shold be relegatee to private life instead of being paid a salary for making himself a public nuisance.—Roseburg Review.

CIRCUIT COURT:

Among the cases considered by the grand jury is that of the State against Dr Sponogle, for rape on Mrs Wyatt, of Brownsville, while under the influence of chloroform. Mrs Wyatt was in the city and testified before the grand jury. A bill was brought in. Dr Sponogle who skipped out is probably in California, where he has rich relatives. He resided at Coos Bay only a short time. The DEMOCRAT is informed by a man who knew him well in California, that he was in the penitentiary at one time in that state, for a short time.

Not a true bill was found against Mrs Wm Toole arrested for assault with a dangerous weapon.

The grand jury today brought in "not true bills" in the case of S D Sponogle charged with the crime of rape, Chas Millern, charged with —— John W Marks charged with larceny, and J F Sheffield charged with larceny.

MISFITS.

The war ship Oregon was successfully launched at San Francisco yesterday. The boat has been built at a cost of $4,000,000.

W R Anderson, of Salem, offered to discount city warrants at 60 per cent. Some one accused him of being reckless and he changed the figures to 85 cents. That is, he will give 15 cents for a $1.00 warrant. He is evidently getting funny.

Once in a while a newspaper writer's pen will drip a truth so manifest, so striking, so apropos, so admirably pat that the reader involuntarily pauses a moment to gaze at it in rapt admiration. For instance, an Eastern paper says this week: "Now is the very time to advertise."

Here is a good newspaper dun: "All persons knowing themselves indebted to this office are requested to call and settle. All persons indebted to this office and not knowing it are requested to call and find it out. All those knowing themselves indebted and not wishing to call are requested to stay in one place long enough for us to catch them. All those not indebted are requested to call and become indebted."

It is a cheerful task to chronicle the fact that the local banks are beginning to relax their conservative action in the matter of loans, says the Salem Independent. A representative of the Independent interviewed a leading banker on the subject, and the information imparted was of a cheering nature. The principal loaning at present is done to city merchants whose affairs are in such shape that speedy repayment is assured. That latter is a combination insisted upon by the banks when called on. Many requests for loans backed by gilt-edged security are declined because of the doubtfulness of speedy payment.

A Puyallup hop authority was asked why it was so much better prices in Oregon than in Washington. He said because the Oregon growers were not so bound down with chattel mortgages as are the growers on the Sound.

Another livest town has been found. The Grants Pass Courier says: "Liveliest town in the state" is the remark of most travelers as they alight from the trains in this city. Just so. Our city has put in more solid improvements this season than any town between Pendleton and Gold Beach.

When people talk about there being a better state than Oregon, every potatoe slyly winks its eye, every cabbage shakes its head, every beet gets red in the face, every onion feels stronger, every oat field is shocked, rye strokes its beard, corn sticks up its ears and every foot of land kicks. The horses even denounce the statement with a neigh and printers grab their shooting sticks.—Harrisburg Courier.

READ, PEACOCK & CO.

AT MEAL TIMES do you ever consider the quality of the food you are eating? It may be good. It might be better, purer, fresher and more wholesome. Is it not worth while to make sure that your tea, coffee, sugar, baked goods and innumerable other groceries are of the best quality? There is such a trifling difference in the prices of the best and the worst that it does not pay to buy the worst, even on the false grounds of supposed economy. The best is always the cheapest, because the most satisfactory and durable, and the very best of everything in the grocery line is kept at Parker Bros.

JEWELRY

is not bought for temporary use, but as a permanent and servicable ornament. There is often as much value in the make as in the material. Will & Stark of this city keep the largest and finest line in the valley, making a specialty of good goods. Their line of gold and silver watches is a superior one, and in silver ware they take the lead in the central Willamette Valley. If you would get the best in their line call on Will & Stark, the leading jewelers.
