People of Estacada and vicinity were shocked Tuesday morning at the death of Burton Moore, at St. Vincent's hospital in Portland, where he had only been a few days. He had been ill for some time with what he thought was a bad cold, but when he went to Portland with his wife and baby last Friday a week ago, the specialist had him go to the hospital. Burton Taylor Moore was born March 23, 1892, in Smith Falls, Ontario, Canada, and died December 26, 1922 at 2 p. m. He was married to Lois Richmond of Portland, June 15, 1918. He came to Estacada in 1905 and has been employed by the P. R. L. & P. Co. at the power plants for several years. His mother passed on about three years ago. Besides his wife and two-year-old baby, he is survived by his father, W. J. Moore, of this place. Funeral services were held Thursday at Estacada, under the auspices of the Masons. He was buried in the I. O. O. F. cemetery at Estacada.

Miss Florence Kendall came home from Portland to spend the holidays and is a guest at the home of her sister, Mrs. W. J. Moore.

A large number of the men employed on the railroad extension for the P. R. L. & P. company, have returned to their camps up the river. Earl Kilgore was an Estacada visitor the first of the week.

Col. and Mrs. Kilgore of Gresham, married in Estacada for a short time Monday evening, on their return from a visit to their son and family who live at Springfield.

Estacada has a few cases of small pox, but a rigid quarantine is placed on all cases, so that the disease will soon be stamped out. Smiley Lovelace has been very ill with the disease. George Harkerkrider is under quarantine at the home of his parents, Mr. and Mrs. Frank Harkerkrider. He is not very sick, however.

Digest of Automobile News

By the U. S. Department of Commerce

British Motor Shares Heavy
British motor shares reflect no material improvement outlook for the automotive industry as a result of the motor show recently held in Olympia, says Commercial Attache Walter S. Tower in a report of the Automotive Division of the Department of Commerce. Out of nine active and representative motor and cycle shares quoted on the Birmingham exchange, five showed no change during the show period. Two showed a slight increase, two showed a decline of 3 shares as the Austin, S. T. D., Humber, Napier, Rolls Royce, Harper Bean, and Standard could not be taken as representative of the outlook. Evidently the effect of the past year's poor business and the recent price cuts which were necessary to meet competition and encourage buyers has been too great to allow the orders taken at the show to be reflected in the quotations.

Motor Boat Market Good
Naples might prove a very fair market for American-built, small boats if it is properly developed. There are at present many row boats and sail boats for pleasure and a fairly large number of speed boats are owned by wealthy residents. Owing to the fact that many row boats are used for fishing purposes, there is a good market for outboard motors. At present, such motors are quite popular, and their use is increasing, according to a report from Consul Homer M. Byington, Naples.

Automotive Exports Increase
Automotive exports from Canada during October reached the total value of 2,761,359—an increase of 35 per cent over exports during the previous month. Passenger car exports were the largest for any month this year, totaling 3,667 cars, an increase of 24 per cent in number over shipments in September while the value of shipments increased 37 per cent. Australia was the largest market, (1,159 cars) and the United Kingdom next (926). Truck exports showed a decrease of 16 per cent during October which might have been expected as the increase in September was over 100 per cent. The value of truck shipments decreased 19 per cent. The parts exported totaled \$288,427, or an increase of 153 per cent over shipments in September.

New Taxicab Companies
The results of the initial efforts of the Yellow Cab Company in Mexico City have proved so successful that there are now five distinct companies operating in this territory. Besides the Yellow Cab, there are at present the Blue, Gray and Black, White and Black, and Checkered cabs, says Acting Trade Commissioner John P. Bushnell, Mexico City, in a report to the Department of Commerce.

Registration of Vehicles
Consul C. S. Winans, Prague, reports that there at present in service in Greater Prague, 1,171 passenger cars, 240 taxicabs, 26 autobuses, 433 trucks, 362 motorcycles, and 23 bicycles with motor attached, according to figures obtained from the Central Police Office at the city of Prague giving the number of motor-driven vehicles belonging to private individuals that have been registered in the police district of Greater Prague. This number is exclusive of those in the service of the government. There are also 286 passenger cars and 115 motorcycles held in stock by manufacturers and dealers.

10,000 Cars in Belfast
The 10,000 cars in the city of Belfast show that there are more cars in this city than in any other in the United Kingdom of the same size and of commercial importance. Within the past nine months, 1,246 motor vehicles have been registered. The wholesale price of petrol is, however, higher than some parts of the United Kingdom, Vice Consul George H. Barringer reports to the Department of Commerce.

16,000 Vehicles in New Brunswick
There are approximately 16,000 motor vehicles registered in the Province of New Brunswick, says Vice Consul F. C. Johnson, which returns are quite satisfactory, and are indicative of general prosperity. The statistics show an increase of about 2,000 over the year 1921, notwithstanding that prices for crops had fallen and in certain districts many farmers discontinued the operation of their cars. This registration shows that about one out of every 10 families owns a car, and this fact promises a good market for automotive trade. Motor trucks are also increasing in use, there being registered about 950 for the year 1922; the same holds true for motorcycles, 99 being registered up to date.

French Foreign Trade
Imports of foreign motorcycles for the first nine months of 1922 were valued at 2,338,000 francs as compared to 2,047,000 francs for the same period in 1921, according to "La Journée Industrielle" for December 28. Exports of the same during the first eight months of 1922, amounted to 3,019,000 francs as against 2,370,000 francs for the same period last year. The comparative figures for weights in this class were 116.1 tons for this year as against 279.7 for 1921. The exports of aeroplanes and hydroplanes for the same period show a serious diminution from the corresponding period of 1921. Of the first class 493.7 tons valued at 13,157,000 francs were exported as compared to 1,115.6 tons valued at 28,615,000 francs during the previous year. Exports of hydroplanes were 15.6 tons valued at 459,000 francs and 25.3 tons valued at 775,000 francs during the first eight months of 1922 and 1921, respectively.

SUSIE MINDS HER PA
"That fellow Phipps comes here too much,"

Said Susan's father grim,
"We'll have to put a stop to that,
You must sit down on him."

So, when young Phipps came, round
last night,
She sat on him for hours.
