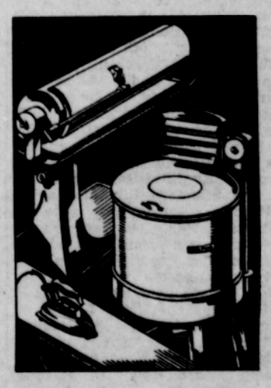
There is an easy way


to wash and iron . . DO IT ELECTRICALLY
HERE is a modern recipe for doing the family laundry work:
1. Have plenty of hot water available from an electric water heater.
2. Install an electric washing machine which actually takes all the dirt out of clothes, quickly.
3. Use an electric ironer for all the flat pieces and much of the finer work.
4. Finish the fancy, frilly things with an electric iron.
Cost: A few cents a day, because electric service is the cheapest thing you can buy today.
Result: Youth and beauty preserved, time and labor saved for the busy housewife.
These appliances may be seen at your dealer's store—if your home is wired with plenty of conviently placed outlets, you can buy them today and put them to work immediately.
