Of the two Corbetts we believe the Nevada Corbett was much more in demand yesterday than the Washington Corbett. We also think the Nevada Corbett stands much better chances of success than he of the same name in Washington.

Mr. Tyeer and Mrs. John Williams of Brownsville arrived in this city last Sunday, having driven down in a buggy. They come in responce to a summons to the bedside of their sister, Mrs. J. N. Morris, who has been dangerously sick of pneumonia and lung fever.

Postmaster General Gary has made the definite announcement that the administration had decided to adhere to the four-year tenure of office policy for all postmasters, except in a few cases where removal for cause was required on account of delinquency, incompetency or unsatisfactory conduct or administration of office.

Mr. John Tway, proprietor of the Albany tannery, which was started about a year ago, says it is running at its fullest capacity, and that the tannery will be enlarged this season to meet the increasing demand for its output. The tannery is in the hands of experienced men. Its location in Albany proves to have been no mistake, as raw material is close at hand, and shipping facilities are in its favor. It promises to become an important industry.

Boys get your fishing tackle in order, trout will be ripe next month.

At the special schoolmeeting last Monday, R. E. Hibler was elected director vice T. J. Munkers resigned.

Scio is dull enough, from a busi- point of view; yet she has much more business in proportion than any other town in the county.

We learn that T. W Dilley who has recently gone into business in Corvallis is doing nicely with a prospect for plenty of business ahead.

Members of the K. O. T. M. and L. O. T. M., of this city are endeavoring to arrange an excursion to Albany on next Monday from this city.

Dr. E. O. Smith, who is the superintendent of the new company to operate the Albany Milling & Mining Co's property at Quartzville, went up the road Tuesday morning on his way into the mines to commence operations.

Ezera Durand, who skipped out from Portland five years ago leaving his frie ds to mourn his departure to the tune of $150,000, was captured recently at Caro, Mich., and has been landed safely in the county jail at Portland.

It is reported that Mrs. Lee, the niece who was at the bedside of Uncle Charlie Morrison when his death occured in this city, will soon, with her husband and family, move to this city, from their Eastern home, to reside.

Interesting Oregonian personal, March 15, 1897: Mr John H. Mitchell, ex-United States senator left on the noon train for Washington D. C. He says his trip east is of no political significance, as he intends only to gather up his belongings in Washington and then return to Portland and engage in the practice of law.

The snows and cold rains of last week caused serious trouble and in some localities heavy loss of stock in Benton county. In some instances as high as 150 head of sheep were reported and in one instant that of Junge Bryson 15 head of steers. The cold raw wind and the weak condition of stock may largly augment the losses already reported if it continues.

An Albany young man wrote to a Scio father asking the hand of his daughter in marriage and ended his letter by saying he was the huckleberry for her to marry. We did not read the old gentleman's reply but understand that it was in the negative, and closed by remarking that huckleberries must be pretty cheap in Albany. At a rate the wedding will not take place any ways soon.—Telescope. Wonder to which one of our girl the above refers; though from remarks by a father about "pail huckleberries" the fair one would not be difficult to locate.

Reception.

A farewell reception was given Prof. Fulkerson at the residence of Prof. Crawford, on Monday evening. The evening was spent in playing games, singing and social converse. At 11:30 P. M. a delicious lunch was served which had been prepared by the young ladies. A very pleasant evening is reported. Prof. Fulkerson retires from our public schools with the good will of all. He returned to his home at Monmouth, yesterday.

Those present at the reception were as follows: Misses Addie and Grace Gill, Maud Bilyeu, Mona Daniel, Lora Powell, Gertie and Grace Wylie, Sylvia and Winnie Munkers, Beulah Sutherland, May Curl, Stella Crawford, Mrs. Annie Calavan and Mrs. W. Flax Mill at Salem.

Through the efforts of Mrs. W. P. Lord, a stock company has been organized to establish a flax mill at Salem. Dr. Thornton, of West Ferndale, Wesh., has been engaged to superintend the work. Contracts are now being made with farmers in the vicinity of Salem, on a basis which seems to assure good returns to them if the length of straw and yield per acre come up to expectations. In establishing a new industry there are always many things to learn and it is to be hoped that all parties connected with the new enterprise will enter upon it with a determination to persevere even if the first season's results should not in all respects come up to anticipation.—Oregon Agriculturalist.

Mines Sold.

The Albany Mining & Milling Co. last evening completed the sale of its seven claims in the Santiam district, and its entire plant, consisting of a ten stamp mill, saw mill, etc, to a Portland company headed by W. Dangers of the Grip.

The greatest danger from La Grippe is of its resulting in pneumonia. If reasonable care is used however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for la grippe, we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that this remedy is a certain preventive of that dread disease. It will effect a permanent cure in less time than any other treatment. The 25 and 50 cent sizes for sale by

A Valuable Fruit Paper.

As fruit is fiplidly becoming the leading industry of the Northwest, and as this county can easily get to the front ranks if the farmers will only take hold and push things, we have made arrangements to do for more than our share toward pushing the county forward in this respect and will do more if the farmers will show the proper spirit of enterprise. There is now published at Portland not only the most valuable but the only fruit paper of America which admits no reading matter to its columns except that relating to fruits—their culture, care, marketing, etc, presented in such a form by the prominent fruit writers of the Northwest and America that none can read and study it without becoming proficient fruit growers. We will give this fine 32-page paper free for one year to all subscribers of the Press who will pay their back subscription and one year in advance, or to new subscribers who pay one year in advance before July.
