VOL. IX. SCIO, LINN COUNTY, OREGON, FRIDAY, JULY 16, 1897 NO. 2.

Scio Press.

IS PUBLISHED EVERY THURSDAY, BY

T. L. DUGGER,

IN THE CITY OF

SCIO, LINN CO., OREGON.

TERMS:

Per annum, invariably in advance.....$1 50
Six months, " " " 1 00
Per annum if not paid in advance, 2 00

Advertising rates at fair, living rates, to be paid monthly.

Transient advertisements must be paid for when the order is given for their insertion.

A SATISFACTORY SHOWING.

On our local page, we publish a statement of the condition of the finances of Linn county as conducted by a populist administration. We do not undertake to say that populists are any better, or more honest, than republicans, but we do say that a more rigid economy is enforced under the administration of Judge Barton and Commissioners Curl and Waters, then was enforced under the administration of Judge Duncan Commissioners Waters and Pugh. The saving in the clerks office is small, but in the sheriffs office it is considerable. In the assessors office there is more than 25 per cent saved for which Assessor Stafford should receive due credit. Some of the expenditures coming under the control of the county court are increased this year over last, which we presume is unavoidable. The item of stationery, for one, looks large. But when it is known that a considerable portion of it is to pay for stationery, books, etc., ordered by the old court just before going out of office, which by right should be added to the stationery item in that column, the present account does not look so bad. Were this done there would be a saving under the present administration over that of the last.

But then Judge Duncan's administration was not an extravagant one, as compared with other county administrations throughout the state. Fortunately, perhaps, for this county, there has been a change in the politics of the county government nearly every four years, which has had a tendency to encourage economy and honesty on the part of various county administrations. The usually low tax levey in Linn county as compared with other counties, is evidence of this fact. It simply indicates that Linn county's officers, in the main, have been honest and attentive to their duties. Judge Duncan and his commissioners did well—exceedingly well if compared with the extravagant administrations of Marion and Multnomah counties. But if Judge Barton and his commissioners continue on during the rest of his term to do as well as he has this fiscal year, he will do much better. A saving of 25 per cent in the county's expenditures, especially in these hard times, certainly will not offend the tax payers. Nor has our public service been less efficient on account of this economy. Has the county not been equally as well assessed by our present assessor, as it was done last year? We certainly think so; nevertheless it has cost the the people nearly $1000.00 less.

But while the county is to be congratulated in having county officers who are economical and efficient, we wish to say to them, one and all, gentlemen you have but done your duty. You are simply managing the county's business as a prudent, economical business man manages his private business. This you ought to do. It is but doing what you promised during the campaign to do. Continue during your term of office in well doing. It will not only benefit the tax payers of Linn county, but will actually shame the boodle county governments of neighboring counties into doing better.

BRYAN AT LEBANON.

Without a doubt the largest assembly of people ever brought together in Linn county, were at Lebanon on Monday to greet Wm J. Bryan. The vast crowd was estimated all the way from ten to twenty-five thousand; we should say that 15000 is a conservative estimate. The city of Lebanon was profusely decorated in honor of the distinguished visitor.

At 8 A. M. the procession formed and moved to the academy grounds, the excursion from Albany arriving about the same time. Mr. Bryan was introduced by Hon M. A. Miller, and addressed the four or five acres of people for an hour on the money or financial question. To attempt to give a report of the speech would, do the best we could, do the eminent gentleman injustice, unless we could give a short hand report, which we cannot give. Suffice to say he is an orator of the first water and poseses the happy faculty of appealing or addressing himself to the minds of the masses of the people in a way that carries conviction of the truthfulness of his position, his honesty and desire to benefit the American people, in an eminent degree. Undoubtedly every one who was present, came through a desire to see and hear the man, who in many respects, is the peer of any other American citizen. Republicans were in evidence as well as democrats and populists. Some of them may have been there to hear the truth right from the fountain head, and no doubt, was profited by being there; but most of them were doubtless there but of mere curiosity and to see if the people were still in their desire to restore the free coinage of silver. Well, we presume that the republicans found out. They found the largest crowd of people ever brought together in Linn county, who came for the one and only purpose of seeing and hearing the most eminent of American citizens William J. Bryan.

There was one very satisfactory conculsion reaches with the committee meeting of last Friday evening. It is very reasonable to suppose that our republican brethern are and have been storing up all of these rumors cerges, accusations, etc., for future campaign purpuses; and candor compells us to say that with the usual extravagance of campaign orators, coupled with the usual campaign excitement, not a little benefit would have resulted to the republican side on this account. Now the whole business has been exploded. Like a soap bubble, when reduced to the real fact, there was absolutely nothing in it. For this we have to thank Bro. Finch. In this light, he has probably conferred benefit upon the populist party. Undoubtly, our republican friends would have raised these very same questions, nor could they have been blamed for doing so. Now they are completely disarmed as to these matters.

THE FIFTY-CENT DOLLAR HUMBUG.

Never, in the history of any campaign controversy, did there ever appear a more flimsy argument than that which pertained to what was called the fifty-cent dollar.

Even up to the present writing some of the papers in the gold combine use the phrase with an effronery that would tinge the cheek of Death! The boldness and confidence of their utterances are the only excuse for the phrase.

There is not one semblance of truth in the idea. Those who use the words must laugh at the utter stupidy of the men who would swallow the potion. It is merely a play on the supposed ignorance of those who are duped.

These very men clamor for an international agreement which would open up the mines and mints of America. Where would then be their fifty-cent dollars? Would not the law raise the price of silver to its proper place in values? If so, would not American silver rise if American mints were open to its coinage? Did not the closing of the mints lower the price of silver? Then would not the opening of the mints restore it? As there were no fifty-cent dollars before the mints were closed, so there can be no fifty-cent dollars when they are open again!

But upon what ground do these men argue that a newly minted American dollar is worth only fifty cents? The answer is, that the material out of which the dollars are made is, as bullion, worth only fifty cents. Therefore the dollar must fall to the level of the bullion price of silver. Let us apply this reasoning to another phase of the subject. How much is the material of a paper dollar worth? Not over one cent. Must we conclude, therefore, that it is a one-cent dollar? Here we are met with the remark that the government is back of the paper dollar, which insures its value. Is not the same government and the same Congress back of the silver dollar? Does not the Constitution say that Congress shall have power to coin money and to regulate the values thereof? Did not Congress by virture of this power make 371¼ grains of silver into a dollar? They placed all the sacred emblems of the nation upon it and proclaimed to the world this is one dollar! If the present Congress should pass the old law, restoring the silver dollar of 371¼ grains back to its former position, what right then would any loyal citizen have to say it is only a fifty-cent dollar? The idea is not only ridiculous but it repudiates the authority of the government and gives Congress the lie.

Such statements as fifty-cent dollars are mere claptrap, and deserve no other attention than the contempt and pity of intelligemt men. —Free Coinage Journal.

THREE MILES FOR A CENT.

In Australia, on government-owned railroads, you can ride a distance of 1000 miles for $6.50, while workingmen can ride six miles for two cents, twelve miles for four cent, thirty miles for ten cents, and railroad men receive from twenty-five to thirty per cent more wages for eight hours of labor than they are paid in this country for ten hours. In Victoria, where these rates prevail, the net income from the roads is sufficient to pay all federal taxes, which is another convincing proof of the possibility of government without taxation.

In Hungary where the roads are state-owned, you can ride six miles for one cent, and since the roads were bought by the government the men's wages were doubled.

Belgium tells the same story fares and freight rates cut down one-half and wages doubled. Yet the roads pay a yearly revenue to the government of $4,000,000.

In the United States, under private ownership, it is the other way. We have paid the railroads billions in land and money and are now paying them millions yearly for carrying the mail, and yet freight and passenger rates are so extortionate as to be almost prohibitive, while wages paid railroad employes are degrading and almost criminal in their smallness. Surely, America has a deal to learn from its various mother countries.

In Germany you can ride four miles for one cent on the government owned lines. Yet wages are over 125 per cent higher than when the corporations owned them, and during the past ten years the net profits have increased 11 per cent. Last year the roads paid the German goverment a net profit of $25,000,000.

If our government owned the rail roads we could go from Boston to San Francisco for $10. Here is the proof: The United States pays $275 for the postal car from Boston to San Francisco. A passenger car will carry 50 passengers, which at $10 each, would be $500, or a clean profit of $250 per car, and this too, after paying five and one-half per cent on watered stock, which is fully one hundred per cent on the cost of the road. These quoted figures are taken from a reliable source. —Uncle Sam.

You have never heard of there being a scarcity of postage stamps, have you?

You have never heard of postage stamps depreciating in value, have you?

You have never heard of postage stamps being at premium, have you?

You have never heard of postage stamps going to Europe, have you?

You have never heard of postage stamps being hoarded, have you?

You have never heard of the government having to issue bonds to buy postage stamps, have you?

You have never stopped to think why these things are not so have you? Well, do so right now for about five minutes.—Living Issues.

There was once a man named Cornelius Vanderbilt. He made some of his money honestly; but he watered the stock of a railroad system fifty-nine millions of dollars at a single dash, to evade the laws and cheat the people of the state of New York. One of his descendants, Geo. W. Vanderbilt, has a place called "Biltmore"—because, perhaps, it was built more of "unearned increments" than anything else. It was very kind, lately, in one of George W. Vandrbilt's English flunkies to let the President of the United States see "Biltmore."—Ex.

Two years ago one could read from Republican newspapers:" The populist party is composed of broken down office seekers, dishonest politicians, zealots and fools." It seems strange now to read from the same papers: "The populist party as originally organized was a party of just principles and its founders were true patriots ready to sacrifice self interests for its benefit of humanity. It is really too bad that such a party should be united with the dishonest Bryanites."—Anthon Press.

NOT AT END YET.

Although many people are living on a very low supply and filling up largely on hope, there is no general sign for better conditions. The indications are that of a tired downward tendency which may not stop until the people get a better understanding of causes and effects. We hear much about the intelligence of the free born American people and that they will not suffer oppression like those of other countries; but, if you will permit, we will give you a pointer, to the fact that our people are scarcely as free as those under the reign of monarchical forms except that they are more conceited and less able to see the horrid condition that they are coming to. It is the flattery of the various party politicians who are working the schemes of the money grabbers that causes the masses to stray from the true light and expect better things at every turn, while the truth is that every step is placing them nearer the gun of destruction. The revolution which so many are predicting is certain if the people continue on this line; but the result would be disastrous to every good intent, and land civilization several generations backward in the same old rut of legal or government money. As long as the people have not learned more of the true principles which are the main foundation upon which to build a correct industrial system, so long we must not cease to teach them. The idea that in the multitude of council there is wisdom, must be discarded and instead we must learn to adopt the truth which is presented by the expounders of wisdom, ere we can fully succeed in establishing justice. The masses are always wrong in this course of action.—Progressive Thought.

Mr. Holland of New York believes that he has perfected a submarine boat which, in the event of a war, would sink such a fleet as that which ten days ago made the unparelelied display off Spithead, as fast as a steamer could go from one to the other. And the fleet would have no possible defence except in flight. This really begins to look like the beginning of the end of war. If a dozen insignificent boats operating out of sight under the water, can be made sufficient to destroy England's fleet in a day, one such would be sufficient to protect any harbor, and there could be no more invasions from the sea, no more blockades. With such a means of destruction for the water, and with guns with range double that of the human eye for fighting on land, how much more can human resistance withstand?

Last year the goldbugs said the democrats had been swallowed up by the populists. This year they are telling the populists that they have been swallowed up by the democrats. Next year they will declare that both parties have been swallowed up by the silver republicans. However that may be one thing is certain. Nobody has been swallowed by that wave of prosperity that was to overwhelm the country.—Creston American.

WALTER L. MAIN'S MAGNIFICENT STREET PARADE.

We want to call your attention to the Street Parade of The Walter L. Main Enormous R. R. Shows, the show that consists of five great departments, and tell you without any "circus talk" of polysyllable adjectives, first: What is to be seen in it and what will be seen at Albany on Wednesday July 28. The five departments of these shows, the greatest of all shows, are a 3 Ring Circus, a five-Continent Menagerie, a Monster Double Real Roman Hippodrome, and an Extraordinary World Famous Trained Wild Beast Show, and these departments with several delights and novelties will be fully represented in the parade. The parade is one mile long no less, no more one mile of gold and glitter, chime, color and music; of open dens of of wild beasts, gorgeous golden chariots, silver dens, crystal vans, towering band wagons and silver cathedral chimes, halberdier, heralds, pages lords and ladies fair, pioneer patriarchs, praetors and jesters, wild animals, tame beasts, led animals and a thousand and one, free to all visions of glory. To be seen by all every entry morning at 10 o'clock upon the public streets.

You may hunt the world over and you will not find another medicine equal to Chamberlaine's Colic, Cholera and Diarrhoea Remedy for bowel complaints. It is pleasant, safe and reliable. For sale by EWING & PEERY.

COUNTY COURT.

HARNESS AND SADDLERY.

T. S. COFFEY, Scio's enterprising dealer in everything pertaining to his line of business, makes the following

ANNOUNCEMENT.

DURABILITY is a feature
That commends itself to all,
And in public estimation
Harness goods that lack it fall.

To insure this, stock and trimmings,
I select with greatest care,
So my goods of these constructed
I can guarantee to wear.

STYLE is also quite important
In facilitating trade,
Hence I give the best attention
To the way my goods are made.

FINISH likewise is a factor
When you have a thing to sell,
Knowing this, I do assure you,
All I make is finished well.

DURABILITY, STYLE and FINISH
Are the features I combine,
Hence my goods are rated foremost
In the Kodali Saddlery line.

☞ Repairing done in a satisfactory manner while you wait. Come and see me.

T. S. COFFEY.

5 DROPS — 49 YEARS OF SUFFERING FROM RHEUMATISM.

Read carefully this testimonial found below, also letters from those who have been cured of other diseases, and remember that "5 Drops" has and can never fail to quickly relieve and permanently cure. Sept. 9, 1896.

DEAR SIR:—Your bottle of "5 Drops" received. It was for an old friend, Mr. Wm. Edwards, of Martinstown, Wis. He has had Neuralgia in his chest, suffering a great deal of pain, so much so that it affected his heart and he could not sleep on account of a smothered feeling. He has been under the care of the most eminent physicians, but found no relief until I gave him a dose of "5 Drops." The very first night he rested well, and has ever since, and is gaining daily. I myself am 57 years old and began taking your medicine last April for Rheumatism, which I have had for 40 years, also for a weak heart. Since taking "5 Drops" the Rheumatism has all disappeared, the stiffness is gone from my joints, and my heart never misses a beat. I am to-day a well, strong woman, and I owe it to "5 Drops." I only wish I could sound my bugle of praise loud enough to be heard all over the world, and could convince every one that "5 Drops" is all you claim it to be and more.

MRS. D. T. CARVER, Winslow, Stevenson Co., Ill.

34 YEARS OF SUFFERING.

DEAR SIR:— JANUARY 2, 1897.

Over 34 years ago, I had Typhoid Fever, and barely escaped with my life. It left my system so shattered that I have had ever since, Rheumatism and Throat Trouble, which gave me a terrible Cough. I had been unable to find any relief for these diseases, until I learned of your "5 DROPS", which I commenced taking only two months ago, and my cure has been indeed wonderful. Already my cough has entirely disappeared, and the Rheumatism which for a few years past has threatened to make a cripple of me, is cured, and I am free from pain. This is the most wonderful and the cheapest remedy ever discovered. I am more thankful to you than words can tell and I want everybody to know what "5 DROPS" has done for me. Although I am over 70 years old, I am feeling better than I have in years.

I shall be glad to answer any questions regarding my case from anyone enclosing a two cent stamp. Gratefully yours,

MRS. SAMUEL BIBLET, Litchfield, Mich.

CATARRH AND HAY FEVER.

I find the bottle of "5 DROPS" to be very good and just what you claim. My wife has been suffering with Catarrh and Hay Fever over 10 years. She has tried everything and doctored much, but no cure until she tried "5 DROPS" which completely cured her.

Yours truly REV. L. VON WALD,
March 31, 1896. Milbank, S. D.

NEURALGIA AND SCIATICA.

For twenty long years my wife suffered untold tortures from Sciatica and Neuralgia, and I thank God for the day that your heavenly remedy fell into my hands, for it completely cured her. I am a minister of the Gospel, and when I find any who suffer, cannot help but recommend "5 DROPS", for I know it will do more than you claim for it.

REV. F. M. COOPER, Washington Center, Mo.

PARALYSIS AND RHEUMATISM

DEAR SIRS: NOVEMBER 9, 1896.

It is with pleasure I speak of your priceless remedy and of the good it has done me. For the last eight years I have been an incurable cripple from paralysis and rheumatism. Just think, for eight years a total cripple, not able to earn a penny nor able to walk or stand on the ground without the aid of a crutch to lean on. Heaven bless the man who discovered this remedy, for, thanks to him and to God, I am able to walk and able to work. I have only taken three bottles of a bottle, but have not had any pain in my back since I took the first dose, and after the second I walked across the floor, which I have not done in years. I have thrown away my cane and shall never need it again. To any one sending me a two-cent stamp I will send my affidavit. I have another bottle of "5 DROPS" and value it at $100 per drop.

Thankfully yours, EDWARD CASTLE,
1003 Wall Street. Sioux City, Iowa.

INFLAMMATORY RHEUMATISM

DEAR SIRS: SEPTEMBER 24, 1896.

I wish to tell you and suffering humanity how much good "5 DROPS" has done me. In the beginning of this year I took down bed-fast with Inflammatory Rheumatism, and I was doctored by as good physicians as this country has, but they could not cure me. On August 4, I began to take "5 DROPS." At that time every joint in my body and my limbs were stiff, so that I could not be moved. Even my tongue was getting so that I could hardly speak so any one could understand me, but to-day, only seven weeks from that time, I am absolutely cured, and thank you and God for my recovery.

Gratefully yours,
HORACE F. ANDERSON, McCracken, Kans.

If you have not sufficient confidence after reading these letters to send for a large bottle, send for a sample bottle, which contains sufficient medicine to convince you of its merit. This wonderful curative gives almost instant relief, and is a permanent cure for Rheumatism, Neuralgia, Sciatica, Catarrh, Asthma, Dyspepsia, Backache, Hay Fever, Sleeplessness, Nervousness, Nervous and Neuralgic Headaches, Heart Weakness, Toothache, Earache, Croup, "La Grippe," Malaria, Creeping Numbness, Bronchitis and kindred diseases.

"FIVE DROPS" is the name and does. Large bottles (300 doses), $1.00. Six bottles for $5.00. Sample bottle, prepaid by mail, 10c. Not sold by druggists, but only by us and our agents. Agents supplied in new territory.

SWANSON RHEUMATIC CURE CO., 167 Dearborn Street, CHICAGO, ILL. U. S. A.

THE WONDERS OF SCIENCE.

Lung Troubles and Consumption Can be Cured.

An Eminent New York Chemist and Scientist Makes a Free Offer to Our Readers.

The distinguished New York chemist, T. A. Slocum, demonstrating his discovery of a reliable and absolute cure for consumption (Pulmonary Tuberculosis) and all bronchial, throat, lung and chest diseases, stubborn coughs, pulmonary affections, general debility and weakness, loss of flesh, and all conditions of wasting away, will send THREE FREE BOTTLES (all different) of his New Discoveries to any afflicted reader of the SCIO PRESS writing for them.

His "New Scientific Treatment" has cured thousands permanently by its timely use, and he considers it a simple professional duty to suffering humanity to donate a trial of his infallible cure.

Science daily developes new Wonders, and this great chemist, patiently experimenting for years, has produced results as beneficial to humanity as can be claimed by any modern genius. His assertion that lung troubles and consumption are curable in any climate is proven by "heartfelt letters of gratitude," filed in his American and European laboratories in thousands from those cured in all parts of the world.

Medical experts concede that bronchial, chest and lung troubles lead to Consumption, which, uninterrupted, means speedy and certain death.

Simply write to T. A. Slocum, M. C., 98 Pine street, New York, giving post-office and express address, and the free medicine will be promptly sent. Sufferers should take instant advantage of his generous proposition.

Please tell the Doctor that you saw his offer in the SCIO PRESS.
