The incompetency of War Department that is in evidence at Montauk was in evidence at Santiago, it is in evidence at nearly all the camps. And that incompetency we must charge primarily to the head. But we have no desire to see General Alger made a scapegoat of and all the blame for the shortcomings of the War Department put upon his shoulders. We want to see each link exposed. To make General Alger the scapegoat and dismiss him from the service in disgrace would only serve to assuage our outraged feelings. What is needed is a general investigation, a general remodeling of the system that has broken down under stress, a sweeping aside of red tape and the cleansing of the War Department of its incompetents and political appointments from General Alger down.—Ex.

The Medford Mail, published in the leading city in Southern Oregon, says THE NEWS the following compliment:

"Ira Phelps' paper, the Scio NEWS, is a cracking good local paper. It is one like you don't see every day. Its "makeup" is first class and its columns are well filled with items of general and local news and the arrangement of its columns mechanical and very pleasing to the eye. Ira was with The Mail four years and we naturally take pride in calling attention to his success in his newspaper venture. If the people of Scio appreciate an up-to-date newsy newspaper they will see to it that Ira's columns are not wanting for patronage."

Mr Frazier, the Oregon gentlemen who is racing Chehalis in the East, has a phenomenal horse or else he is the most deceived man in the world. At Ft Erie when W. Perry Taylor offered to buy the black horse, the owner offered to show three heats in 2:01 or no sale. The price for a horse of such speed was satisfactory, but Mr. Taylor dropped negotiations when he learned that hopples were a necessity to his horse's speed.—American Sportsman.

Wilhelmina, has attained her majority and become queen of Netherlands. She is the daughter of the late King William III and Emma, daughter of Prince George, victor of Waldeck. Queen Emma was regent during her daughter's minority. King William, her father, died November 23, 1890. The family, known as the House of Orange, are decended from the Princes of Orange, the stadtholders of the Dutch republic.

The Monroe doctrine has nothing to do with the disposition of the Philippine islands. It does not require us to take the Philippine island nor forbid us to do so. We had the same right to strike Spain in Manila that we have to strike her in Madrid or Cadiz, and we are guilty of no undue reaching out for foreign territory when we take to ourselves a conquest that comes to us through justifiable war.

Porto Rico is naturally one of the richest countries on the globe. Its exports for the past year aggregated in value $15,600,000. Under favorable conditions these figures can be easily quadrupled. It is said that the finest Havana cigars are made from Porto Rico's tobacco, and that the coffee produced in the western part of the island is without equal.

In order to make the Chicago peace jubilee strictly non-partisan the managers propose to invite both President McKinley and Wm Bryan. This excites a curiosity to know what the managers would do if they desired to give the celebration a deep political hue.

JUDGE BURNETT has rendered his decision in the celebrated Boise-D'Arcy circuit judgeship election contest case, declaring Judge Boise elected. The total vote was found to be 6,639 for Boise and 6,600 for D'Arcy.

The friction between England and Russia in regard to China is so serious that England threatens to seize one large Chinese city and Russia another. What China gets out of this arrangement is not clear.

Uncle Sam is the possessor of 20,000 new first-class rifles. Ten thousands Mausers were captured at Santiago and the same number at Manila.

CAME DOWN WITH A CRASH.

The Scio Mill Co's Elevator Is a Mass Wreckage.

The Scio Mill Company's elevator went down at 8:30 o'clock Tuesday evening, with a crash that was plainly audible in all parts of the city.

From present apparances it would seem that the concrete piers which form the foundation for the building crumbled under the weight of the building and its contents, thus allowing it to fall, and in doing so the first story posts, which were set just over the concrete piers, gave way thus allowing the building to fall about 12 feet, completely smashing the first story and floor, and the bottoms of the bins now rest upon the wreckage and only a short distance from the ground.

The building contained in the bins about 25,000 bushels of wheat and 15,000 bushels of oats. Aside from this there were several thousand bushels of oats in sacks on the first floor. The building was built in 1892 and was thought to be one of the strongest in the county. It had nine well built bins, with a capacity of 60,000 bushels, and although it had never been filled to its capacity the company would not have hesitated a moment in placing this amount of grain in its bins. The grain in the bins had been destributed in all of them and none were entirely empty, and only two were full, and thy were located in the center of the building.

The walls of the building were badly twisted in the fall, and there were numerous leaks at which a large amount of grain poured out on the ground. The worst of these were stopped, however, and on Wednesday morning a gang of men were set to work cleaning away the wreckage and sacking the grain on the ground. Very little grain will be lost, although the building will be a total loss, and will have to be replaced with a new one.

Several men were at work in the building up to six o'clock Tuesday evening, and although the walls were heard to crack several times during the day no fear was felt for the safty of those in the building.

G. W. Phillips went to Jefferson early Wednesday morning, and from there to Portland, where he will make arrangements for storing the grain now in the wrecked elevator, and it will be sacked and shipped. A. J. Johnson, the other member of the firm, was at Albea on a pleasure trip, and was telegraphed for. Upon his arrival definite arrangements will be made for the handling of the grain yet to come in and also for replacing the elevator. The loss of the building will be in the neighborhood of $2500, to say nothing of the extra expense in caring for the grain, and removing the wreckage.

The eighteen new war-ships projected by the Navy Department will cost $32,000,000. If they are fast enough the country will take it for granted that they will be satisfactory in other respects.

The Manila cable was cut May 2 and restored August 21. Admiral Dewey managed to get along without a daily identical note from the concert of Europe.

The Klondike sufferer is much in evidence in the Northwestern states. His golden visions can now be measured by a railroad ticket to his old home.

Oregon Beats The World!

We will prove it to you at the State Fair September 22 to 30 1898, and you can see for yourself for the cheap rate of ONE FARE for round trip from all points of the Southern Pacific, lines in Oregon. Your should personally become interested in this worthy State institution.

OF GENER'L INTEREST

A writer in the Guard says two of the forests rangers in Lane county are making a business of selling deer. That will be about the size of the office.

The Jefferson News says that S. P. agent Johnson sold tickets to the amount of $286, during the month of August, as against $92 for the same month last year.

It is claimed that the American range-finder will soon be materially improved. Spain would be glad to borrow the old ones, along with some Yankee instructors in the art of using them.

The body of G. F. Wright, of Harrisburg, drowned at Waldport, south of the Absea two weeks ago, was found Wednesday somewhere near the place where he was supposed to have fallen in.

A carload of balm wood for the excelsior factory at Lebanon arrived Thursday evening from Coburg. This is the first shipment of 350 cords that the company bought at that place a few weeks ago.

A brace of peddlers were arrested last Monday and taken before Recorder Bell on charge of peddling without a license. The jury found them guilty and they were fined $36 apiece.—Prineville Review.

A recent census of Dawson shows a population of 16,000 people. There is ample food supply for the coming winter. Quite a number of Linn county people are there, but none of them are known to have struck anything overly rich.

A deed was filed in Coos County last week with the consideration placed at $50,000, and as a result the war fund was enriched just $50. The deed was from Jennie Roosenfelt Pool to the Oregon Coal and Navagation Company.

G. C. Milett, a well-known Lane county farmer, who lives near Junction City, completed threshing his crop Monday. He saved 14,000 bushels of wheat and 2,000 bushels of oats from 600 acres of land, an average of 26½ bushels per acre.

The following government rule for measuring hay may prove of value to farmers: Subtract width of stack from measurement over top of stack, divide this result by 2, multiply the answer by width of stack, divide this by 422, which will give the number of tons in the stack.

The largest banking institution in the United States at the present time is said to be the National City Bank in the city of New York. It now has deposits of over ninty millions, loans over sixty-one millions, and has a specie reserve of about thirty-two millions, nearly all of which is gold.

In recognition of his gallant service at Manila, Dewey was advanced two points in naval standing, while Sampson, who did not participate in the battle of July 3d, has been advanced eight points, and Schley, who led that charge, six points. Such is the fortune of war, when managed at national headquarters.

The Toledo Weekly Blade

Every intelligent family needs in addition to their local paper, a good national weekly. The greatest and most widely known general family newspaper is the Toledo Weekly Blade. For thirty years it has been a regular visitor in every part of the Union and is well known in almost every one of the 70,000 postoffices in the country. It is edited with reference to a national circulation. It is a Republican paper, but people of all politics take it, because of its honesty and fairness in the discussion of all public questions. It is the favorite family paper, with something for every member of the household. Serial stories, poetry, wit and humor; the Household department, (best in the world). Young Folks, Sunday School Lessons, Talmage's Sermons, the Farmstead, the Question Bureau (which answers questions for subscribers), the News of the Week in complete form, and other special features. Specimen copies gladly sent on application, and if you will send us a list of addresses, we will mail a copy to each. Only $1 a year. If you wish to raise a club, write for terms.

Address THE BLADE,
Toledo, Ohio.

NOTICE FOR PUBLICATION.

Land office at Oregon City, Oregon, July 30, 1898. Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the Register and Receiver at Oregon City, Oregon, on September 10, 1898, viz:

LOUIS FINDLEY,
H. E. No. 10623, for the S½ of NW¼, and Lots 3 and 4, of Sec. 4, Tp. 11 S, R 1 E.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz:

Thomas Larwood, of Larwood; Ernest Wend of Jordan; William McDonald, of Scio, and Jake Whidman, of Jordan, all in Linn county, Oregon.

35-40—p — CHAS. B. MOORES, Register.

32-calibre cartridges for a Marlin Model 1893, cost only $3.00 a thousand.
32-calibre cartridges for any other repeater made, cost $13.00 a thousand.

You can save the entire cost of your Marlin on the first two thousand cartridges. Why this is so is fully explained in the Marlin Hand Book for shooters. It also tells how to care for firearms and how to use them. How to load cartridges with the different kinds of black and smokeless powders. It gives trajectories, velocities, penetrations and 100 other points of interest to sportsmen. 90 pages. Free, if you will send stamps for postage to
