Will Nominate a Democratic Ticket.

The Evening Democrat of Albany makes thefollowing announcement:

Hon W. R. Bilyeu, chairman of the democratic central committee, informs the Democrat that he will issue a call soon fora county convention. That though favoring a union of forces in the June election he is not in favor of any move, such as he takes the recent one to be, that will in any way do away with the indentity of the democratic party in the union.

The common council at Corvallis asks Oregons delegation in congress to favor an $8,000 appropriation to continue revetment work along the Willamette a short distance above the town.

Postmaster Gill was called upon to look one of Uncle Sam's inspectors in the face the latter part of last week. However, he had just as well have remained away, for he found everything up in ship shape as far as Mr. Gill was concerned.

Prof Wm. Miller last week purchased one of those fine saddles at T. S. Coffey's harness and saddle emporium, and is well pleased with the investment. Mr. Coffey sells more good value for the money than any harness dealer in the valley.

Mr. and Mrs. F. I. Jones gave a very pleasant dinner to eighteen relatives and friends Sunday last. Jack killed the fatted turkey which he won at the shooting match at Crabtree last week, and says the bird just stands him an even $3, at the present writing.

A farewell party was given at the home of Mr. and Mrs. A. J. Johnson Wednesday evening, in honor of Mrs Alice Perkins, who left yesterday for eastern Oregon to join her husband. The evening was very pleasantly spent in playing whist and crokinole, and at near the hour ofmidnight a delicious lunch was served.

Louis Knauf, of Oliva, Minn., was in Scio last week, visiting with his old neighbor, A. Vanna, and incidentally looking over this section of the country with a view to making his home in these parts in the near future. He was well pleased with what he saw of the country, and will probably return here in a few months.

A. M. Young, of this city, and J. O. Carter, of Detroit, have leased the cabin and premises at the hot springs above Detroit, on the Santiam river, and will conduct a summer resort the coming season. The springs are among the most popular in this section, and doubtless these gentlemen will do well there during the summer.

The "boys" are having a good bit of sport out of F. J. Irvine, this week, all because of his absent-mindedness. On Monday he was asked to go to the planning mills and get a load of lumber and take it to the creamery, and with all due haste he started and drove out toward the flax mill, and when nearly there he chanced to meet Manager Larimore, who asked him where he was going, to which he replied that he was after lumber. Mr. L. informed him that the planning mill was on the other side of town, and it was then that Frank "woke up" and found that he was on the wrong track. He looked around to see if anybody was looking, and then slid back to the mill and got his lumber, but hewas not very noisy about it.

The Knights of Pythias lodge of this city indulged in a little "blow out" Tuesday evening, the occasion being the conferring of the ranks on three candidates. There was a good attendance present and all had their working harness on and were prepared for business, and as the candidates were residents of Aumsville and wished to get through as soon as possible all three ranks were conferred upon them. At midnight all repaired to the Scio hotel where a magnificient supper awaited them, the members of the lodge being accompanied by their wives or lady friends. The work was resumed after supper, and it was nigh onto morning before the mysteries of the order had been fully impressed upon the candidates.

In another column will be found a letter from the pen of E. E. Larimore, manager of the N. W. F. & F. Co. of this city, together with a few rules for the benefit of those farmers who contemplate growing flax the coming season. These rules are given by men who have made flax culture a study for a number of years, and while they are not hard to follow they will greatly assist in producing a much better crop of flax than the common way of sowing the crop on any kind of ground and then letting it take care of itself. There is undoubtedly money to be made in producing a good crop of flax, and it does not cost any more to do it than it does to raise a poor crop, and this fact is ample reason why the farmer should not do his best to follow closely the rules laid down in Mr. L's letter.

No less than half a dozen towns in the valley are encouraging the establishment of creameries the coming spring, and the move could not be a better one. Brownsville is to have a creamery, the milk from 250 cows being promised. Scio has a good creamery, and the company is just now preparing to put in a cheese making plant. The creamery at this place has no trouble in disposing of all the butter they can make, and at very good figures. With the addition of a cheese making plant the company will be able to handle all the milk that the farmers of this locality can furnish, and those who have not heretofore supplied milk for the creamery should arrange to do so the coming summer, as the more milk the company gets the better will be the price paid for milk, and in this way all can and will be benefitted.

With the approach of spring our people should begin talking "good roads" with an earnestness that will assure the construction of several miles of roads the coming summer in a substantial manner. At the June election there will be a supervisor to be elected in both North and South Scio precincts, and the residents of both precincts should look to it and see that a good man is elected to fill the position in both precincts, and after his election they should do all in their power to assist him in making good, substantial roads throughout the two districts. In the mean time the work of building and repairing the roads will be under the direction of the present supervisors, and they, too, should receive the hearty co-operation of every citizen in the districts in repairing the roads just as soon as the weather will permit of work being done on them.

SEEDS SEEDS SEEDS!

We haven't all the seeds in town. Nor have we the best seeds in town. But we have seeds from three different seed houses—Ferry, Bowen and Lamberson. You can have your choice. But one thing we have got, that is, positively new, fresh seeds. One brand of our seeds we buy outright—don't sell them on commission. These seeds are sold to us with a guarantee that they are fresh and new this year. And to prove this all the seeds we have left in the fall are destroyed by us instead of being shipped back to the firm as commonly done. So you see these seeds are bound to be fresh, and surely ought to grow.

I. E. Sabin, of Lebanon, was in Scio the first of the week. He is the proprietor of a bicycle repairing establishment in that city, and reports the prospect for the coming season very bright.

N. B. Washburn, Shelburns progressive merchant, was in Scio Saturday last, shaking hands with his many friends, and transacting a little business with some of our citizens at the same time.

Wenzel Zivney arrived in Scio last week from his late home in Manitowac, Wis., and will be a resident of Scio in the future. He was here about a year ago, and upon his return east his parents came to this city, where they have since resided, and the young man was left to look after matters at home, and after arranging business affairs he, too, came to Oregon and with his parents and will make his home in this locality.

TAILOR MADE SUITS

We have now got our spring samples—4 big books—containing over one thousand samples, and nary a two alike. Out of these you can surely get a choice, suit you both in price and material.

The great number of tailor made suits that we get every season is the surest advertisment as to how much better they are than COMMON READY MADE ones. Indeed you get 100 per cent more wear and 500 per cent more looks. There is no question about FIT our clothes have got to fit—and positively guaranteed to. With our 10 years of experience measuring for these suits, we know all about how to get neat fits, and have the clothes set properly etc. Don't be deluded with the notion, either, that "anybody" can measure and get good fits. That is impossible, and poor fits are little better than ready-me-downs. Once you wear a tailor made suit, you will have no other ever after. For they look so neat and new, and feel so good on a fellow. And you can never appear like a real 20th century man without you have on one of our tailor made suits.
