LIFE AND ITS COUNTER CUR RENTS" THE TOPIC CHOSEN FOR HIS FIRST EFFORT.

"Life and Its Counter Currents," by Rev. G. W. Swope, Th. M., formerly an Oregon City boy, and son of the late T. W. Swope, formerly of Oregon City, has just been published, and many of the Bastern papers have commented on the book. The book was published at Nashville, Tenn., and will be handled in this city by his sister, Mrs. Charles M. Oglesby.

Rev. Mr. Swope was born in the State of Missouri, and came to Oregon with his father, the late T. W. Swope, sister, Mrs. Oglesby, and brother, B. F. Swope, who is now a resident of Independence, in the year of 1882. He took up his studies in the Oregon City schools, and after finishing his course here took up teaching, being very successful. He afterwards studied law with Latourette & Latourette

and practiced for five years. From this city he went to Louisville, Ky., to prepare for the ministry. He finished his college education at Louisville, and was offered a position as professor in the college from which he graduated, but wishing to enter the ministry for which he studied, he accepted a call at Nashville, Tenn., remaining there for five years. While in charge of this church he added 800 converts. From Nashville he was called to Norfolk, Virginia, to take charge of the Central Baptist church, and has been at that place for the past year, and is meeting with great uccess. This church has one of the argest memberships of any church in

Virginia, and one of the leading choirs. Rev. Swope has appeared on several of the Eastern Chautauqua platforms and is considered one of the best Bible students of the South. The manu-script of the book written by this pas-

tor was recently reviewed by three distinguished scholars of the South, Dr. J. M. Frost, who is at the head of the Baptist Sunday School Board of Southern Baptist Convention; Dr. Hyronn H. Dement, professor of S. S. Pedagogy and assistant professor of theology in the Southern Baptist Theological Seminary located at Louisville, Ky., and Dr. A. W. Lamar, at one time State secretary of missions for South Carolina, now known all over the

United States as a lecturer. The book comprises 226 pages of matter carefully and concisely written, and is bound in a substantial, cloth

binding. Rev. Swope will make a visit to his sister, Mrs. Charles M. Oglesby, dur-ing the coming summer, and will also visit with his brother at Independence

before returning to his home in the

CORRESPONDENCE

to Aurora Tuesday of this week. E. I. Sias, a property holder here and also a former resident, was called East on account of the lliness of his father, who died one day before he reached his destination.

Ralph May, clerk at the Big Six is among those who are down with the measles. People are talking about an early

race meet on the track at the Fair grounds. The track could not be better, nor the horses that are here could not be in better shape. Mrs. W. R. Porter has left to make

a visit with her daughter, Mrs. A. Smith, of Long Beach, California. Mrs. Smith's boy is sick with the measle and therefore she arranged for her mother's visit at this time. The city ordinance requiring that the sidewalks be kept free from obstructions of any kind has gone into effect and some marked improvements

may be seen on our sidewalks. W. H. Bair had his hand rather seriously smashed last week while he and A. L. Snell were trying to close a door of a car, which refused to close as it should have done at first but which did close when least expected.

STONE.

The residents of this section were greatly surprised on the morning of the 11th to find the ground covered with snow, while the cherry trees were in full bloom.

Many of the people of this section are afflicted with the measles and pneumonia. It seems as though the measules and pneumonia work in harmony to pull the patient down, and then comes the grip which stays as long as either of these ailments. With all of these diseases the Mumowers have control of getting out stone for culverts and Frank Jaggar has the control of building the culverts for Clackamas county, and when once built they will be a great benefit to the county. Another enterprise is being considered, this being the con-struction of a dam, and the water power used for manufacturing pur-

Grant Mumpower started the old saw through the logs at the sawmill this morning. Mr. Mumpower has a force of men cutting up the logs on Clackamas River. A party was operating an Armstrong

mower cutting grass to feed the milch cows. Green grass makes quite a difference in the quantity of milk. Evangelist D. W. Summers, of Sa lem, will hold services at the church

on 16th inst., at 11 o'clock. Everybody invited to attend. Bible reading at 10 o'clock. Seats are free.
