Regional Library Unit Aim of Committee

Establishment of some form of regional or district library unit, with recognized trade center as a hub, will be an objective of the library advisoroy committee of the Oregon state planning board, according to word received here from Miss Harriet Long, state librarian and chairman of the committee, following the initial meeting of the group recently.

Work of the committee is now well under way, and a final report will be made after a review of findings by Morris Issecks, research librarian, and study of suggestions made by members of the committee. A definite program for the state will be included, it was stated.

Recommendations already adopted by the committee urge a revision of laws to standardize libraries, adoption of a "measuring stick" on standards, state participation in the library program, forming of standards to insure an adequately trained personnel, and formation of a regional or district system.

Mr. Issecks is now studying three phases of the problem, "Expenditures of the Public Libraries in 1936," "Reference Facilities of Public Libraries," and "Analysis of the Population of Oregon Served by Public Libraries." Data from these reports will be used by the committee in formulating final recommendations.

Those present for the first meeting of the committee included Miss Nell Under, Mrs. C. W. Walls, and Miss Anne M. Mulheron, all of Portland; Alton F. Baker, J. E. Turnbull, both of Eugene; Mrs. Meredith Bailey, Sisters; Mrs. Francis V. Galloway, The Dalles; Miss Lucy Lewis, Corvallis; Mrs. A. C.
