ADVERTISING

Rates reasonable. Our representative will call.

Official paper of the Town of Gresham. Official paper of the Town of Fairview.

Entered as second-class matter March 3, 1911, at the Postoffice at Gresham, Oregon, under the Act of March 3, 1879.

State Ownership Declines.

High taxes are largely due to the state undertaking socialistic enterprises of state ownership and too many state operations.

It is significant that Oregon and South Dakota, after full discussion in their legislatures, turned down state hydro-electric plants.

In South Dakota an extensive investigation was made by a state hydro-electric commission that recommended an extensive state power program.

South Dakota is learning, from proximity to Non-Partisan North Dakota, that state ownership and operation means doubling taxpayer's bills.

That is what Seattle has learned with municipal ownership of the streetcar lines, light and power plants, municipal docks, etc.

Save National Forests.

Senator McNary of Oregon, has voiced a plea for the preservation of the great forests of the country by fire protection. He says:

"Over 50 per cent of the standing timber today is found in the three Pacific coast states and 61 per cent is found in that great western country lying west of the Mississippi river. With the increasing distance which lumber must be hauled from the sawmill to the consumer, much of it now across the width of the continent, there is a growing scarcity of forest products, which in no great length of time will become critical. Markets may fluctuate one way or another owing to financial and other temporary conditions, but behind it lies a steady decrease in the supply of timber, which has a very vital bearing upon our national housing situation, our national paper situation, and many industries which use lumber in manufactures; and I might say that the statistics show that one in 20 persons in this country finds his livelihood in occupations directly connected with lumbering or in industries that are associated therewith.

"The greatest cause of this situation is forest fires. We have enough land unfit for agriculture to grow all the timber which this country requires."

Reports generally indicate a decline in the hog industry. In the state the number of brood sows on April, as compared with a year ago appears to be only 90.0 per cent, and [illegible] less than 80 per cent. For the United States, the comparison with a year ago is 97.0 per cent, and as compared with the usual, only 78.6 per cent.

It costs 1½ cents a pound to lay Oregon prunes down in the markets of Holland, shipping by way of the Panama Canal. Shipping to Liverpool by rail through New York the cost is 2¾ cents a pound. On account of the excessive heat and humidity, it has been found rather hazardous to ship the large sizes through the canal.

BOYS AND GIRLS CLUB WORK

Enrollments for 1921.

Project	No. Clubs	Enrollment
Sewing	17	154
Cooking	14	131
Canning	0	0
Home Making	1	10
Sheep	1	6
Calf	1	6
Poultry	4	28
Hog	4	29
Garden	6	44
Rabbit	1	5
Corn	1	5
Potatoes	2	28
	52	446
Individuals enrolled		24
Total enrollment		470

All clubs were carefully organized and none have been lost. The Springdale Cooking and Sewing clubs have already completed their work and many clubs are to finish up their records by May in these two projects. Local exhibits will be held at which time demonstrations will be given and the Gold Seal added to the charter.

Long Tour in Overland Costs Two Persons $4.00 a Day.

In these days of high living and traveling costs, Mr. and Mrs. Geo. C. Griffith of Philadelphia, believe they handed old Mr. H. C. of L. a real wallop for three months during their trip across the continent to San Francisco in the last three months.

Mr. and Mrs. Griffith estimate their total expense at less than $4 per day for the two people including not only food and other living costs but operation of the little Overland touring car in which they made the trip.

The Griffiths have taken their time and have traveled here, there and everywhere throughout the country, with nothing but the dictates of their own fancy to direct their course. Starting from Philadelphia, where Griffith is connected with the Times Square Auto Supply company, they proceeded west through Pennsylvania and Ohio.

From start to finish the Griffiths have made it a point to visit the automobile camps and parks provided by the various municipalities for the use of motor tourists, and their experiences with these would fill a book, they declare.

On the whole, the cities and towns of the nation are taking great pride in keeping their auto camps in good condition, the Overland tourists report. Denver, for instance, has three municipal parks devoted to motorists. In one, Overland Park, more than 500 cars were counted. Cafeterias, baths, laundries, and everything else for the motorists' comfort were provided right at the park.

Griffith averaged 25 miles to the gallon the entire trip, and repairs cost him nothing—there were none to be made. All expenses came to less than $4 for himself and wife. By a unique arrangement, the upholstered backs of the seats slid down, and together with the seats, formed the mattress for a bed. The Griffiths did their cooking in the open, or when weather conditions made it necessary, in the shelter tent they had with them.

Farmers Mutual Fire Relief Association Has Prosperous Year.

The statement of the Farmers Mutual Fire Relief association shows $4,296,715 insurance written in 1920, and $9,520,150 at risk December 31st. The association doubled its business in the last two years, gaining 2500 new members. H. W. Snashall was re-elected president and Andrew Brugger was elected vice president. The Assn. saves lots of money to farmers by giving insurance at lowest cost. When ready to insure notify H. W. Snashall, Gresham. Phone 1465.—Adv.

ELECTRICAL HOUSEKEEPING

Eight hours is insufficient time for human hands to perform all the household tasks. However, it is possible to establish the eight hour day in the home by making use of the electrical hands that are offered to you in the form of the electric dishwasher, washing machine, ironing machine, vacuum sweeper and the many other labor-saving devices.

These untiring "household assistants" will do your work quickly and efficiently. Your home can be run systematically with these electrical hands for they never disappoint you or grow tired. Your time and energy can be devoted to the better things in life, when you keep house electrically.

Glad to show you any time.
