LOCAL AND PERSONAL

J. M. Garrison of Salem, one of the leading poultrymen of the state and its pioneer enthusiast, while visiting in this city on business this week, could not resist the temptation to remain for the poultry show. He will not return home until after prizes are awarded on Thursday. He knows Judge Keeney personally and says we could not have done better in selecting a judge for our show. Mr. Garrison is much gratified over the fact that southern Oregon poultrerers have at last made a start in the organization of the industry. "It means big money for this ideal poultry district," he says.

A. L. Hill, president of the Wood Lumber company and executive officer also of the Medford Commercial club, who, accompanied by Mrs. Hill, has just returned from a three weeks' tour of the east and middle west, expresses a sense of relief in being back in the atmosphere of Rogue river valley. To one accustomed for awhile to the quiet routine of the coast interior conditions, things generally in the east appear to be in disorder. "The weather gauge has run the gauntlet during my itinerary, the most moderate temperatures being right here in this valley," said Mr. Hill. "The business gauge in the east is equally excited and unstable. Money appears to be a very ordinary consideration in New York. The greatest interest seems to be to find some new and exciting way to spend it. I have seen floods, blizzards and all the intermediate degrees of physical disorder since we left and it was pleasing to drop quietly back into this peaceful valley," concluded Mr. Hill.

Hill, C. M. Thomas and J. D. Bell. S. S. Bullis, president of the Southern Oregon Traction company, Attorney E. H. Hurd of Medford and Wichita, Kan., T. Henry Callaghan of the St. Albans mines in the Blue Ledge district, and probably others interested will go. A central body of business men will be selected from these several civic and commercial bodies, the business of which will be to concentrate their efforts on the establishment of a commercial highway between Rogue river valley and Humboldt bay, Cal., passing through one of the richest regions in natural resources on the continent.

Phil. Marshall has returned from a tour of the middle western states on a business mission; and he, too, is glad to get "back home." He declares that, notwithstanding his effort to avoid extremes in weather conditions en route, he appeared to develop a capacity for butting into all of the storms in the country when they were busiest. He found people hopeful everywhere, however, that the present and especially the coming year would mark an era of prosperity in this country never before so generally experienced. That we will get our share of the money now finding its way into new enterprises and into new channels of the established institutions, he says, there is no doubt.

DECLARES OBREGON MAN OF THE HOUR IN OLD MEXICO

NEW YORK, Feb. 8.—Four American mining engineers who arrived here today from Vera Cruz on the steamer Esperanza reported that the train on which they traveled from Mexico City to Vera Cruz had been under constant fire from bandits throughout the entire journey.

The engineers said they left Mexico City two weeks ago and traveled in an armored car which carried four three-inch guns. According to their story, the whole territory between the Mexican capital and the seacoast is infested with bandits.

The engineers asserted that Carranza's power was waning and that General Obregon was the man of the hour in Mexico City.

EL PASO, Tex., Feb. 8.—A declaration that he would force intervention by the United States within six weeks, attributed to Francisco Villa by a Mexican from Madera, was brought to the attention of American officials here and Mexican authorities at Juarez today. According to the Mexican informant, Villa declared he would cross the international border and hold up an El Paso & Southwestern railroad train, if intervention could be produced in no other way.

10,000 SURGEONS IS NEED OF U. S. ARMY

CHICAGO, Feb. 8.—The United States in a few years will have an army of one million men ready to take the field and to meet the requirements of this vast body of men at least 10,000 surgeons will be required, asserted Dr. W. C. Gorgas, surgeon-general of the United States army, before the annual congress on medical education here today.

Dr. Gorgas was urging the adoption of a proposal offered earlier in the day for a national conference of medical examiners, composed of representatives of state medical examining boards, which would prepare examination questions for state boards throughout the country. Candidates who passed this examination would be eligible for the United States medical reserve corps and would not have to pass any other examination for license to practice.

WILLIAMS AND HERMAN FIGHT TO HOT DRAW

NEW ORLEANS, La., Feb. 8.—Kid Williams of Baltimore, world's bantamweight champion, and Pete Herman of New Orleans fought twenty rounds to a draw last night. The decision was given by Referee William Rocap of Philadelphia.

Williams was the aggressor in the early rounds, but throughout Herman appeared to have the advantage in the boxing at long range. Williams' work in the clinches apparently overcame Herman's cleverness in distance fighting.

"THE MAN TRAIL" AT THE STAR TONIGHT

"The Man Trail," six-act photoplay adapted from the recently published novel by Henry Oyen, the author, is a red-blooded drama of life in the raw, featuring R. C. Travers at Star today. It deals with the rough and rugged characters of the logging camp.

When two strong men stand face to face, determined that one or the other must die; men battling with guns for leadership and the love of a woman—there is a scene that grips the hearts of all spectators and holds them with a breathless interest. The photoplay is full of such great climaxes and thrilling action.

COQUILLE RIVER ON A RAMPAGE

MARSHFIELD, Ore., Feb. 8.—The Coquille river at Coquille today had risen four feet over night and the entire countryside is flooded. Immense logs from the mountains are being carried in drifts over plowed fields. The rise here is partly due to the tides.

At Powers and Myrtle Point, above Coquille, the river has begun to fall after doing thousands of dollars' worth of damage. As a result of the washing out of the Southern Pacific track at Myrtle Point, train service will be interrupted for weeks and logs cannot be brought to the Marshfield mills. The Coos river was becoming lower today.

DOUBLE TRAGEDY IN LANGELL VALLEY

KLAMATH FALLS, Ore., Feb. 8.—Mrs. Anna Wilcox and Mrs. Myrtle Jones, mother and daughter, were reported today to have been shot and killed in a shooting affray at Langell valley. William Doyle was injured while acting as peacemaker.

Peace officers left here for the scene, but probably will not reach there until early tomorrow.

Doyle sent a message that he "shot in self-defense." He did not say whether his shots hit the women.

COOS BAY LINE OF S. P. WASHED OUT

MARSHFIELD, Ore., Feb. 8.—Ten miles of Southern Pacific railway track is under water between Beaver Hill Junction and Myrtle Point and passengers between Coos Bay and Coquille are being transferred by launch at Coaledo. The water in the Coquille river is still rising and is higher than any time since 1909. In several places tracks are twisted from the foundations and it is expected no traffic will be possible between Coquille and Myrtle Point for several days. Between Arago and Myrtle Point for several days. Between Arago and Myrtle Point the tracks are under seven feet of water.

THOUSAND MEN FIGHT FLAMES, TEXAS OIL WELL

LULL PREVAILS ON RUSSIAN FRONT

PETROGRAD, Feb. 8.—The lull which extends over the whole Russian front with the exception of a recrudescence of unimportant artillery, aeroplanes and mining warfare on the Dvinsk-Riga line, and information of the recent transfer of large bodies of German troops to the westward are taken by the Russian authorities as an indication that the Germans are content for the present with holding their own in Bukowina and the northern sector and are again preparing to apply the greater part of their strength on the western front.

PARIS, Feb. 8, via London.—The following statement was given out this afternoon at the war office:

"South of the Somme between Loye and Chaulnes our artillery cannonaded a train.

"In the Argonne we exploded a small mine at St. Hubert and three mines at Vauquois.

"Over the rest of the front the night was calm."

EXPECT WILSON TO ANNOUNCE CANDIDACY

WASHINGTON, Feb. 8.—President Wilson's closest advisers expect him to make the first formal announcement of his candidacy for re-nomination within the month. They believe Mr. Wilson will notify the secretary of state of Ohio that the voters of the state will have his consent to use his name in the primary.

Under the Ohio law a candidate is required to notify the secretary of state before February 25 of his willingness to have his name used in the primary. The president has been formally notified of the law's provisions. The president has made no definite announcement of whether he will be a candidate, even to his friends, so far as is known, but they all take it as settled that he will be.

DENOUNCING MEDICINE

Wholesale denunciation of proprietary medicines is no more justifiable than wholesale denunciation of the medical profession. It is no more true than there are reputable physicians who unselfishly devote their lives to an unending struggle with disease than that there are standard remedies which do as good a work; often where the work of the good physician cannot reach. A good example is Lydia E. Pinkham's Vegetable Compound, which has for forty years been alleviating the sufferings of women and curing the ills peculiar to their sex.—Adv.

WHITMAN SPEAKS FOR PREPAREDNESS

NEW YORK, Feb. 8.—Three thousand traveling salesmen attended a banquet of the Far Western Travelers' association here last night. Preparedness was the chief theme of the speaking.

Governor Whitman, after paying a tribute to the big business men of the country, said that of late pessimism has been the fashion here. "Other nations have influenced it while calling us a white rabbit country wedded to trade, afraid to fight, more or less stupid and an easy prey for whatever nation chooses to leap upon us," said the governor.

"In the light of events, I realize keenly that we must place much greater emphasis on naval and military affairs. I am heart and soul for preparedness, for passions have loosed that will threaten for years to come. Yet, admitting the great need for preparedness, I do not feel that our present lack of it calls for the hysteria that imagines a foe behind every tree."

MEDFORD DEFEATS ASHLAND IN HIGH SCHOOL DEBATE

By a verdict of 2 to 1 the Medford high school affirmative team defeated the Ashland high school negative team on the question: "Shall the U. S. adopt the essential features of the Swiss military training and service system." By doing this they have earned the right to meet Klamath Falls for the championship of southern Oregon.

The winning team was composed of Hugo Lundberg and Geo. Henselman. Cleo Kirk and Ernest Abbott represented Ashland.
