STORES ROBBED BY PETTY THIEVES

Petty shoplifting thieves Wednesday night entered the Golden Rule Store and the California-Oregon Power company office, securing 40 cents in pennies and a suit of clothes valued at $25 for their nefarious efforts. An attempt was also made to enter the Jackson County Supply company on Grape street by taking the front door off the hinges, but the job was left unfinished.

An invitation was extended to the burglar to enter the Golden Rule store. The back window has been broken for some time, and all that was necessary was to stick a hand through the hole and spring the latch, and life the window. To date a suit of clothes and a pair of rubber boots are among the missing.

The entrance to the California-Oregon Power company was also made by the back-door route. The cash register was jimmied with a screw driver and 40 cents secured. The robber left no clues and the police think it was the work of boys or tramps.

BAKER PLEADS PARTY'S CAUSE

(Continued from page one.)

comes to be written, the great anthem of the American people and of the world will appear to have been that our destinies were in the hands of a man patient, wise and just, who was past all the some annoyances and through all the cross currents of feeling, who resisted every impulse toward impatience, judgment and thereby achieved three great things: First, that he saved the lives of countless Americans, who by any other course would have been devoted to death in battles second, that he preserved the civilization of the 20th century against the last great assault which would have been made had our country, too, been swept into the general catastrophe; third, that he vindicated and preserved unimpaired the rights of neutrals and restrained the zeal of belligerents from sacrificing international law to the supposed necessities of their military plans; and, fourth, that he saved up the moral energies of a great and free people to place them at the disposal of mankind when they recled from their work of destruction and began to reconsider the possibilities of national life.

"He has been the one sane and serene counsel which reckons this age and when the election comes it will be found that the people of America, whatever their sympathies in the European struggle, realize the one indispensable fact, and that the ideals of America in the remaking of the old in the old world, need the finest type produced in this age by the new order in the new world—Woodrow Wilson." •

Maternity! The Word of Words

It is written into life's expectations that motherhood is the one sublime accomplishment. And if there is anything, no matter how simple, how apparently trivial it may seem, if it can aid, help, assist or in any way comfort the expectant mother, it is a blessing. And such is a remedy called "Mother's Friend." You apply it over the stomach muscles. It is gently rubbed on the surface, and makes the muscles pliant; this relieves the strain on ligaments, natural expansion takes place without undue effect upon the nerves. And as the time approaches, the mind has gone through a period of repose, of gentle expectancy, and this has an unquestioned influence upon the future child. That this is true is evidenced by the fact that three generations of mothers have used and recommended "Mother's Friend." Ask your nearest druggist for a bottle of this splendid remedy. He will get it for you. And then write to Bradfield Regulator Co., 407 Lamar Bldg., Atlanta, Ga., for a most interesting book of information to prospective mothers. It is mailed free. Write today. It is a book you will enjoy.
