Open Letter From Fehl to the Mayor

To the Editor:

As much as we hate publicity yet we are always endeavoring to correctly inform the property owners of the City of Medford regarding the status of special assessments, therefore we feel it our duty at this time to take exceptions to the open letter of our Hon. Mayor, C. E. Gates directed to Medford's property owners and published in the columns of your valued paper under date of Oct. 4th.

Mr. Gates is patriotic without doubt, but any boy can carry the drum on dress parade or retreat, but it takes real back bone to shoulder Medford's tax-burden.

Appeals to patriotism are useless, especially those we hear put forth by or Hon. Mayor, just after the recent decisions.

Hon. Judge Calkins in order to expedite matters, upheld the Hansen Plan, then the Mayor appealed to the home-loving patriots of Medford to pay.

Now the Supreme Court has decided (and very justly too) that the HANSEN PLAN IS ILLEGAL, and again The Mayor and City Treasure appeals to the patriots to pay. Can it be that Pop Gates has turned traitor to his country? or has he just been mis-led by well meaning altho seemingly ignorant legal lights?

Perhaps these same Brilliant Legal lights have advised our Mayor that the Bancroft act might be legal, when in fact all that worries these esteemed gentlemen is there liability in view of the recent decision, to indulge in "City Experts" and sell bonds thereby reaping fat profits.

The Mayor says "the Cities finances are low" and we presume he knows, but if the Hansen Plan had been up-held, we would soon had no City let alone funds. We are reliably informed that the Hanson night-mare cost Medford aproximately $10,000.00 so if the City is hard-up there perhaps is a reason, in spite of salary reductions, better curb such leaks as the Hanson Steal.

Now if Mr. Gates needs money to run Medford there is a legal way to get it and that is by taxation, but should He decide to test the addoption of the Bancroft plan in Medford your humble servant will go him a round and when "POP" and yours truly get through and retreat has been sounded Medford will pay the bill, HOW? By taxation.

In this case the Mayors three lovely bungalows recently erected on West Main St. as well as my humble shack will be spared the disgrace of being cast into the City Pound and advertised and sold by our Chief of Police at public Auction as provided for in our charter to pay for paved roads upon which to operate "peace ships" comonly known and more particularly described as "Flivers."

Now in all sincerity the writer wishes to ask our Honorable Mayor the following questions:

Can he or any of the City Officials on behalf of the City, give the individual property owner an absolute release for their property from any further taxation or assessments on said property due from the fact that Medford as a municipality owes for and has sold its bonds for approximately one and one half million for improvements, if said property owner should be foolish enough to pay what the City claims as a direct lien against his property?

The Supreme Court says the City can not. The City can not release one foot of property until the last bond is paid off and cancelled and specifically states that this applies to property both on and off the pavement.

But our City Dads say to themselves "What does the Supreme Court know about it? Let us call in another municipal expert, perhaps another Hansen Salad served al-la-carte would be in order.

Come across "POP" an Honest Confession is good for the Soul and while you on behalf of the City and "yours truly" are determining who WILL regarding Medford's ability sell and deliver "Homes" and Business Blocks to altho I almost forget them, to pay for municipal owned, public paved streets, the wise one will follow your example "POP" that is, "Invest in Flivers" for use on the pavement and in good residence lots on Main St. which can be had under our present glorious Hanson Attorney for the sum of $50.00 per lot.

We need real patriotism, not appeals to patriotism, to rid Medford of our Honzoleranz, and adopt a real democratic form of Government, which would not require the services of leaches, otherwise known as Municipal Experts to loot the Cities Till, neither would secret sessions behind closed doors be necessary, nor would the lien docket need to be consolidated to cover up illegal transfers of public funds, but a government of the people, by the people and for the people, which would recognize that Taxation without regard to property values is illegal, unjust and UN-AMERICAN.

SERIOUS FOREST FIRES MENACING ELK CREEK TIMBER

Three forest fires, one of them of serious dimensions, at the head of Elk creek, on the Umpqua divide, are engaging the attention of Forest Supervisor Erickson and his large force of fire-fighters.

Last Saturday night Supervisor Erickson sent out fifteen men with equipment from this city to help fight the fires. On Sunday he himself left for the scene with reinforcements, and this morning, after hearing from Mr. Erickson by telephone, ten more men—all that could be found idle in the city, were hurried out to the fires, and telephone calls were made by the local forestry office on nearby towns in hope of getting ten more fire-fighters to reinforce the band already at work.

In addition to these fires in the forest reserve, the Jackson County Fire Patrol association, thru District State Supervising Fire Warden W. T. Grieve, and his force of men is combatting several fires in the county, one of which, located on the ridge back of Jacksonville, could be seen burning from this city Sunday evening and seemed to be of big proportions. Other fires are reported on the Little Apologate, while several brush fires are raging along the foothills to the west and north of Gold Hill.
