Ye Smudge Pot

By Arthur Perry

News that the farmers of the land are balking at tilling their ground for various reasons, chiefly that one crop will not make them millionaires, shows that the former notion they held of being kin to a mule and brother to the ox has been knocked kicking. Not many years ago the general idea of a farmer was to work himself to death, and, he also had the impression that unless he started in at 3 a. m. the sun would never make it over the eastern horizon. Now he proposes to starve himself to death, the rest of the world along with him.

Once, before this col became astute in dodging heavy toil, economic determination forced it to pitch hay. The employer, having made a failure of wooing death by sweating, was tireless, and demanded that everybody else be the same. Right in the middle of the having came a rain storm of unusual severity, compelling a cessation of tasks with the pitchfork. The hands lounged around the barn playing pennuckle and debating various issues. To see anyone at ease so agitated him that in mid-afternoon he ordered all hands to lay to, and unscrew the nuts and burrs from a harrow, and then screw them back on again, just to keep busy.

"Clear Brush From All Places." (Headline Bend Times.)—This is the end of whiskers.

Investigators report that Russia has more wheat than needed for her own use, but is too busy raising hell to grind it into flour.

Wiz Ashpole had a yearling steer die on his hands Sunday. Wiz has not been very pert of late owing to the flu nipping him.

The politicians will probably pick the next president, but who is going to be the next constable of this borough. They are more bashful than presidential candidates, but there will be just as many of them at the finish.

Things are getting down to the point where he who painted, wrote, cook, sell insurance, or peddle automobiles, enlists in a jazz orchestra.

But for democratic hollheadedness Col. Mime would have doubed his $36 lid around hot day.

"Voices in Air Startle Keymen"—(Headline Portland Oregonian). Heretofore none but the first officer of the land heard voices in the air.

BROKEN BONES AND PROMISES
(Corvallis Gazette)

"Will the person who ran over Jarfy Wagy on Jan. 12 please come to 216 N. 12th street and make good his word. Jarfy Wagy.

To date neither John Barrett nor the Rev. Hamilton have succeeded in outwhistling the merry Espee freight trains.

The Hon. William Jennings Bryan says he will not accept the democratic presidential nomination, but democracy is too fury to offer it to him.

Del Gerdell has not a new spring hat as reported. He being a fiend for accuracy this correction is made.

Neither Pop Gates' new house or his 40 barn will be like anything his brother Bill ever saw in Peoria. Pop will have one of the finest places in the state to crawl into when it rains, by July 4th.

The attorney-general should maintain silence. Every Monday he declares the cost of breathing is decreasing, and every Tuesday the price of something goes up a nickel.

It now looks as if the democratic holder of the Portland postoffice plum will be dislodged only by the use of liquid fire.

TIM AND FAIRNESS.

WE are in receipt of an interesting note of which the following is an extract:

"You pose as a fair and independent paper and yet you are most unfair to the republican party, and praise the democrats all the time. Please stop heaping abuse upon the republican party. The country never needed the republican party as it does today."

This reminds us of Tim Golden, a pick and shovel artist who appeared regularly every Monday morning at the Jefferson Market police court in New York City about 15 years ago. Tim unburdened his soul to the reporters one morning as follows:

"That damned red pint of a jew, Levy, is the most prejudiced man iver bin me misfortune to make. Lay week meet I came here wid Maggie and she says I been raven dre-unk, and I say I only took wan little witcher and it cordin' to the doctor's orders and he decides agin me fiery intime. Now if he took my side half the talime or iven fift wanes, but to hold fer Levy and agin me all the talime. I tell you, Levy is anti legal!"

So with our correspondent. The fact that we praise the Democrats more often than the republicans isn't proof that we are unfair. In fact it is possible, that in the last six months or so, the republicans have been wrong more often than the democrats, even though they haven't been, as was Tim, drunk all the time.

All of which calls attention once more to what Will H. Hays, the republican chairman had to say the other day about the truth. When we announced sometime ago that this was to be an independent paper, the mouthpiece of no party, but a paper of free opinion, apparently some of our good friends assumed we didn't mean what we said.

But we did. We don't care a tinker's tarnation about politics, we care considerable about facts. We have very little use for either of the two political parties as parties, we have considerable use for several individuals in both of them.

On the treaty issue, which thus far has been the main issue we have not hesitated to criticise both sides. If we have criticised the Lodge republicans more than we have the moderate reservationists or the Wilsonites, it's for the very simple reason that we believe the Lodgites have been more frequently in the worng.

We are not interested in political buncombe on either side,—the partisan who paints Lodge as the only villain, as as absurd to our mind as the partisan who paints the president as the only villain.

Looking at the situation from a non-partisan standpoint it appears to us both parties have been in the wrong, but to anyone who believes in the treaty and League of Nations without radical alterations, the democrats thus far have had the best of it.

Probably our correspondent's idea of absolute fairness would be to decide in favor of one party on Monday and against it on Tuesday, but unfortunately we can't please him anymore than Magistrate Barney could please Tim.

CEMENT PLANT'S FURNACES GOLD HILL FIRED UP

"This week opened up a new era for the Beaver Portland Cement plant here—incidentally helping out Gold Hill's new era," says the Gold Hill News.

"For some time the new management of the company has been pouring thousands of dollars into the old plant here trying to get it into shape and has succeeded to such an extent that the plant is now ready for its regulation 1000 barrels per day. Twelve cars of oil have been tanked for use and orders for oil are scheduled to arrive every few days to insure steady operation for the twelve cars will last but seven days. Both quarries have been opened up and are in operation; the machinery has been overhauled and is running in excellent shape; the crushers are showing a very good appetite and have been eating away at the roll bankers for some time.

"This week the big furnace wherein the clinker is made from which the finished product is ground was heated up and started on its merry way thus dating the real opening of the cement plant here under the present owners.

"Some little time must elapse before any of the cement will be shipped as it must stand a time test in the laboratory before it can be guaranteed of proper power for use as Portland cement.

"This is the greatest step in the industrial advance of this community taken in many years and the measure of the methods used by the present operators looks very good to the future of the industry."

VICTIMS RESCUED

Kidney, liver, bladder and uric acid troubles are most dangerous because of their insidious attacks. Heed the first warning they give that they need attention by taking

GOLD MEDAL HAARLEM OIL CAPSULES

The world's standard remedy for these disorders, will often ward off these diseases and strengthen the body against further attacks. Three sizes, all druggists.

Look for the name Gold Medal on every box and accept no imitation.

Hair Trouble Successfully Treated

CALVACURA STOPS HAIR FALLING

THE CALVACURA METHOD is a scientific, natural method, involving absolutely anything inside

Mrs. John Malinski writes: "The weather has started a growth of new hair and no dandruff. I am sending for a fifth treatment."

Mr. Frank H. Wright writes: "I first purchased for myself two years ago, and my baldness is no longer in evidence."

If You Suffer from Dandruff, Itching Scalp, Unsightly Hair, Baldness or Worried Look, Dandruff is the beginning of baldness. Stop it now and prevent further hair troubles.

Simple Test. If hair falls to grow smooth when combed, it is a sure sign of dandruff. If the roots are sore, the hair breaking, gets warning from the trouble it will bring to your hair and takes it place.

Let Us Prove to you by sending you a Sample Treatment and our illustrated book, "The Dandruff Germ and How to Kill It," that the Calvacura Method of Hair Culture stops the falling of hair, clears away dandruff, promotes the growth and preserves the natural color of your hair.

We will send a liberal sample of Calvacura No. 1 and our illustrated book on the care of the hair and scalp, free, if you will write your name and address plainly on a piece of paper, mention this paper, enclose 10 cents (coin or stamps) to cover postage and packing of your good book, in an envelope addressed

DEVIL A FALLEN ANGEL; NOT BEING OF CLOVEN HOOF

"The devil is not a being with horns, hoofs and scales as some teach but is an angel fallen," said Pastor A. V. Rhoads at the Seventh Day Adventist church last evening. As a basis of his remarks Isa. 14:12-20 and Eziek. 28:12-19 were read showing that his name was Lucifer which means son of the morning. He was perfect in beauty and occupied different exalted positions in heaven. Pride and self exaltation entered his heart and he aspired to occupy a position above the stars of God which are the angels, even coveting a position which belongs only to God.

The speaker then read Rev. 12:7-12 which speaks of a war in heaven. This war, which was in reality a war of love against hatred resulted in the expulsion of Satan and the evil angels from heaven. For six thousand years the same war has been waged on earth which will continue until love will finally triumph over envy and hatred. Then Satan and his evil host will be committed to the burning flame and will be brought to ashes. (See Ezek. 28-18.)

The meeting announced for tonight will be "Satan's First Lie." Song service at 7:30 and preaching service at 7:45.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the Blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

Maxwell

Extra Fine in Metals
Extra Fine in Mileage

More miles per gallon
More miles in time

A Maxwell car weighs 2130 pounds. It is made of the finest materials that may be obtained.

You cannot find in any car a better crankshaft, better bearings, better axles or better gears.

Neither science nor money can produce them better.

Do you know why such fine materials are used in a car like Maxwell?

We had to.

Keeping its weight down and yet maintaining strength mean the use of only those extra fine steels and metals.

For a metal that is light in weight and yet strong, as any user of metals knows, is a high priced metal.

The use of these fine grades of steel has been the foundation of the business. Maxwell has grown in numbers and friends. The latter countless; the former well on the road to 400,000.
