

T. W. SULLIVAN'S SON SUES FOR \$40,000

J. E. Hedges, attorney for George E. Sullivan, son of T. W. Sullivan, Saturday filed suit in Portland for \$40,000 damages against the Portland Power & Transmission Company. The plaintiff, while working for the defendant company, fell from a plank crossing a buttress twelve feet to another plank and then thirty feet to the rocks below. It is alleged that he is permanently injured. His nerves are said to be shattered, his heart injured and his left side badly smashed. The complaint recites that the young man has trouble sleeping. The accident occurred at River Mill.

WOMAN USES GUN AFTER SHE IS SHOT

PARIS, Dec. 14.—Further complications have developed in the sensational shooting affair of Thursday night, in which Mrs. Barnes, an American woman, and Walter Mumm, the French sportsman, were the principals. Mrs. Barnes, it now develops was shot twice by Mumm before she shot him. She used her revolver only after she had been badly wounded.

Every effort has been made by the Mumm family to suppress information in connection with the scandal. Mrs. Barnes, it is said, had not left France as was at first stated, but is in a private hospital, where she is reported to be in a dangerous condition.

According to the version given in the newspapers today, Mumm and Mrs. Barnes went out together everywhere during the last year and Mrs. Barnes believed Mumm was about to marry her. Differences, however, arose and Mumm declared his intention of breaking off his acquaintance with her. This was on Thursday night and the tragic shooting scene followed immediately afterward.

Mumm, in spite of his wounds, was able to leave the house without assistance.

Walter Mumm, it appears from the police commissary's report, attacked the woman during a violent quarrel and kicked her in the face and neck. Whether he fired at her has not as yet been established, but she was so badly injured that four doctors were called by the servants in the house and they attended her for an hour after Mumm's departure.

Within a short time after the physicians had left a man called at the flat and with the cook who was the sole witness of the shooting, helped Mrs. Barnes down the servant's stairway into an automobile.

Mrs. Barnes, with her cook and the man then drove off and no trace of them has since been found by the police who believe she was driven to a sanitarium in Paris or its environs. They are searching all these establishments systematically.

The antecedents of Mrs. Barnes have not yet been definitely established by Police Commissary Landel, who was in charge of the investigation. She was not registered at the United States Consulate-General and she seemingly had no acquaintance in the American colony here. She described herself to tradespeople in the vicinity of Passy, where she lived, as an American, and Mumm's acquaintances who had met her were told that she was from the United States.

An Astonishing Price--An Astonishing Car

Buy the Car Value that Beats It--if you can find one.

The first thing that will strike most people in reading of the R-C-H will be the price. And this is natural. For a completely equipped car of this type has never been offered at anything approaching this figure. Judged on price alone—the R-C-H touring Car, Roadster or Coupe stands in a class of its own. But it's not on price—it's on what you get for the price, that we want you to judge the car.

What Makes the R-C-H Possible

Briefly, the most thorough systematization of factory and cost problems that the automobile industry has ever seen. Little leaks, small wastes, lack of co-operation between different departments—these have been features of motor-car manufacture. Such leakage, wastage and lack of system lost only a few dollars here and a few dollars there, but they made in the aggregate a wonderful difference in the price you paid for your car.

We made up our minds that with manufacturing, factory and purchasing problems simplified, a high-grade car could be produced at a price that would be revolutionary in the industry. And the R-C-H, turned out in the R-C-H plants, has proved our contention.

We know this is one of the most practical cars sold in Clackamas County and it is especially adapted to the hard wear a car will undergo on our hills. We have this car in stock and will give a demonstration at any time.

Our garage is equipped to handle all kinds of repair work on short notice. All R-C-H parts are always kept on hand, meaning extra quick service.

In the last two years Pendleton has been the most closely watched man on the Tiger eleven. A ten second man on the track, he is about the fleetest base in the country. His career in baseball is hardly less successful. He was shortstop on his freshman team and for the last two years has been one of the varsity's steadiest players.

FLYERS OVER SEA ARE LOST AT NIGHT

(Continued from page 1)

Beach and San Pedro, his engine seemed to be working normally. Apparently he flew low from choice. A few seconds after clearing Point Firmin the flyer plunged into the haze oversteering the ocean and disappeared. Kearney, at the speed he was flying, should have reached Ventura, where he was scheduled to stop for gasoline, at about 3 o'clock this afternoon. When he failed to appear opposite Point Dume, a few miles north of Santa Monica, the wireless was utilized in an effort to locate him. Radiographs were flashed to vessels all along the coast. Only one, the Steamer Bear, replied, and her commanding officer said nothing had been seen of the hydroaeroplane. After leaving the ground at Newport, Kearney circled in the air for five minutes before turning north. He flew low over the outer wharf at Long Beach, where officials of the Chamber of Commerce and municipal officers had gathered. Kearney was greeted with shouts as he passed over Venice, Ocean Park, and Santa Monica. By the time he had climbed to an altitude approximating 1000 feet. Kearney said he could do the distance to San Francisco in nine hours, but probably would not attempt it.
