SECOND CODLING COVER SPRAY IS ADVISABLE NOW

The second cover spray for second brood codling moth worms should be applied to apples and pears so that coverage will be completed by July 22nd, according to information given out by L. P. Wilcox, county agent and L. G. Gentner, Southern Oregon Experiment Station.

This application is important if control of worms is to be successful. The peak of the moth flight has arrived and by the above mentioned date the largest number of eggs will be hatching into young worms. Therefore, the renewal of arsenic coverage is necessary if maximum protection is to be obtained.

The recommended spray at this time is as follows:

Apples

Use three pounds of powdered arsenate of lead per one hundred gallons of water. In orchards having a bad worm problem it may be advisable to use an oil-lead combination spray such as, two pounds powdered arsenate of lead plus one gallon of a light grade summer oil emulsion plus one half pound spreader.

In making up the tank of oil-lead mixture, add the spreader to the water first, then the arsenate of lead, followed by the emulsion, just before the tank is filled.

Pears

Use two pounds of powdered arsenate of lead per hundred gallons of water. If spider mites are present the oil-lead combination spray should be used as follows: Two pounds of arsenate of lead, plus one and one quarter gallons of a medium grade summer oil emulsion plus one half pound of spreader.

Brisbane's Today

(Continued from Page One)

If a million, or ten millions, imitated Tabeek, that would attract attention. But an occasional individual, going to meet his Creator, makes little difference.

Did Tabeek, on the other side of the poison bottle, have an opportunity to tell anybody in authority how this world had treated him, or did he perhaps find that nobody cared, there or here?

Professor Yerkes, director of the Yerkes Observatory, finds indications that there exists a "mind" in the universe. He is not like the French scientist, who replied to Napoleon's question concerning God: "I have no need of that hypothesis."

If a cockroach in a skyscraper could talk, and say: "I believe there is somebody running this skyscraper," you would be amused. Somebody, somewhere in creation, is amused when one of the little germs on this earth grain of dust discovers indications of a guiding intelligence in the universe.

What are vitamins? We know that we can't live without them, that they cure rickets in children, what foodstuffs contain the various vitamins, and scientists have just discovered that two of them, vitamins A and B, give off some kind of strange radiation. Rates deprived of certain necessary vitamins have no children. Deprived of other vitamins they starve to death, although supplied with an abundance of food.

Three important things we possess without knowing what they are—electricity, vitamins, and the soul of man.

The United States refused to sell 250,000 bales of American cotton to Russia. American cotton growers will wonder why. We would sell cotton, as Lord Beaverbrook said, to cannibals. Why not sell to the Bolsheviks? At least, they don't EAT each other.

This week Russia is purchasing 50,000 bales of cotton in Egypt. Our British and Egyptian brothers have no objection to Bolshevik money. Are we not a little provincial, in "good old America," or do we think we were born to tell other nations how they must run their governments, and what they must believe about the sacredness of the dollar, as opposed to the comparative unimportance of the human being?

Somebody stole 28 canary birds, as they sat in their cages, singing sweetly, and, having stolen them, turned them loose in the park.

It was mistaken kindness. You might as well take 28 sons of very rich men from their yachts, automobiles or polo ponies, and turn them loose in the struggle for existence.

They wouldn't thank you.

Samuel Saibno, 15, sat at his news stand. A passing taxicab slowed down, two bullets from the cab entered the boy's chest, killed him, the cab went on.

Police say that for a boy of 15 to be "put on the spot" is unusual, but there is nothing puzzling about it. The boy's father had been told to do something, had refused, or failed, and the boy was killed as a warning to obey next time.

Our modern crime is thorough.

Richard Dix in Holly Picture

Richard Dix, star of Radio Pictures' thrill-drama, "Young Donovan's Kid," at the Holly theater, has long been known as "the most typical American actor."

He has every right to that title. Not only does he look the part, but he traces his ancestry to the boat which followed the Mayflower to America.

In "Young Dovona's Kid," a typically American role, Dix is supported by Jackie Cooper, star of "Skippy," and a notable cast.

This picture is from Rex Beach's greatest story, "Big Brother," and is another triumph for these two stars of "Cim" and "Skippy" fame. Showing with the feature picture is a news reel, a Vitaphone act entitled "Nine o'Clock Folks" and the sixth of the Bobby Jones reels, entitled "The Big Irons."

LOW GRADE BUTTER SHOWING WEAKNESS

PORTLAND, July 14.—(AP) Considered as a whole, the butter market here is in very good shape. The only element of wakness is found in the 90 and 91 score division where a slight recession may be forced unless conditions improve.

The egg market appeared very firm. Talking indicated an advance may be forced within a few days, perhaps within 24 hours. Large markets on either side of Portland have advanced in the past three days, some of them as much as 2 cents. Demand is cleaning the market in good shape here.

Markets

Livestock

PORTLAND, Ore., July 14.—(AP) CATTLE 85, calves 35; slow and weak. Cows common and medium $4.00-5.25, low cutter and cutter $1.50-4.00. Calves, 250-500 lbs. common and medium $3.75-6.25.

HOGS 270; quotably steady.

SHEEP and Lambs 800; quotably steady to strong.

Portland Produce

PORTLAND, Ore., July 14.—(AP) COUNTRY MEATS—Selling price to retailers: Country killed hogs best butchers under 100 lbs. 12-12¾c; vealers 80 to 120 lbs. 13-14c; yearling lambs 6-8c; spring lambs 10-11c; heavy ewes 4-5c; canner cows 4c; bulls 5-6c.

Butter, butterfat, eggs, milk, live poultry, onions, potatoes, wool and hay quotations unchanged.

Wall Street Report

NEW YORK, July 14.—(AP)—Financial markets merely drifted today, with little sense of direction, although final prices were irregularly lower.

Wall Street was generally inclined to confess inability to fathom the complex international financial situation arising from the German crisis and preferred to await a clearing of the atmosphere.

Trading was extremely sluggish, the turnover exceeding a million shares by a small margin.

Today's closing prices for 17 selected stocks follow:

Am. Can	105⅝
Am. Tel. & Tel.	175⅝
Anaconda	23⅞
Col. Gas	93
Curtiss Wright	3⅛
General Electric	41¼
General Motors	37
Kennicot Copper	17¾
Mont. Ward	19
Radio Corporation	16⅜
Trans. Am.	7⅜
Sears Roebuck	53¾
S. P.	84¼
United Aircraft	26¼
U. S. Steel	94½

TAX COMMITTEE MAY MAKE INVESTIGATION

The tax committee of the chamber of commerce is making a survey of Medford with the aim of investigating conditions, definite announcements regarding which will be made in the near future, W. H. Gore, chairman of the committee, stated this morning.

The committee met at the chamber of commerce yesterday afternoon, but no definite action was taken.

Communications

Bonds Will Give Employment.

To the Editor:

Instead of this report of the Owen-Oregon closing down being an argument against voting these sewage bonds, it has turned my vote, at least, from "no" to "yes."

What does this action mean? It means that this coming winter Medford will have more unemployed, more people in need of food and fuel than ever before, because these Owen-Oregon workers can't go elsewhere that is better, certainly most of them will stay here.

We can't see them starve. The passage of this sewer bond issue with the construction of the new courthouse will go far toward supplying our unemployed with work. I sympathize with those who don't want to vote any more bonds at this time. I am a taxpayer myself. But I figure this bond issue for a new sewer system will cost me about $10 a year. On a thousand dollar valuation, it will cost me only about $4 a year. We will have the new payroll at once and won't have to pay our share of it until the end of 15 or 20 years. I don't know how others feel about it, but I would rather pay $10 a year to give a man a job than to give it for charity. I believe many other people feel the same way.

This entirely apart from whether this sewer system is absolutely needed at this time or not. I honestly don't know. But I do know what the future looks like, and I am going to vote for these bonds, for I believe it will help Medford to tide over a tough period, and give us all a needed boost until good times return again.

R. A. ROTER.

Medford, July 14.

CHECKER TOURNEY SOON TO OPEN AT CITY PLAYGROUND

Checkers and jacks seem to be gaining in popularity with the older children at the city playground. There are two jacks tournaments under way this week, one for the boys and one for the girls. Emma Jane Brewer is matched against Mabel O'Neill; Dorothy O'Neill against Josephine Tucker; Ray Erickson against Jim Horner; Johnny McKee against Chester Holman. Joe McKee plays the winner of the Earl Cross-Reece O'Neill match, and Bobby Robinson plays the winner of the Bobby Gall-Bud Horner match.

The checker tournaments will probably start next Monday. There will be an elimination tournament for all children under 12 and one for all children 12 or over. All young Medfordites interested in checkers should enter their names on the chart in the Boy Scout room this week.

Upon request of several of the children, another hop-scotch tournament will be held in the near future. All desiring to play should enter their names this week.

Children coming to the playground can enjoy the wading pool, swings, slides, teeters, horseshoes, balls, jacks and checkers.

Free shampoo Mon., Tues., Wed. with $1 marcel or finger wave. Facials $1 Thur. and Fri. Bowman's. Tel. 57. 112

Am in my new office, 135 So. Central, just south of Montgomery Ward. E. D. Elwood, optometrist.

JACKSONVILLE GRANGE PLANNING PICNIC FOR BYBEE BRIDGE REGION

A good crowd attended Jacksonville Grange meeting Friday. The hall was comfortably cool and the business session not too long.

There have been rumors of a Grange picnic for some time so one finally materialized at the last meeting. It was decided to convert the next social Grange meeting into a picnic. In order to accomodate all concerned, the picnic is scheduled for Sunday, July 26th, instead of the fourth Friday of the month.

The picnic will be held near Bybee bridge, the exact time and meeting place to be announced later.

This picnic will be held in place of the regular Grange meeting, and all members and their friends are invited. Mrs. Elsie Hoover, Mrs. Lulu Fisk and Mrs. Anna Wendt were appointed to arrange the luncheon menu.

An enjoyable club meeting was held at Mrs. Dews' Wednesday afternoon. Roll-call was responded to with interesting facts of history and home life.

Each member is asked to be prepared with some current event or home hint for roll-call at each meeting.

As this is picnic time, the club planned to have a picnic and swimming party for the next meeting, July 22. Members and Grange ladies are invited to meet at the Jackson Hot Springs at 2 o'clock.

Luncheon will be served in the Ashland park before returning home. Those wishing transportation call Mabel Sims or Mrs. Anna Wendt. At the close of the meeting a refreshing luncheon was served by the hostess, assisted by her daughter, Mrs. Stephen Nye.

Old mirrors resilvered. Will call for and deliver. Medford Plate Glass Co. Phone 446.

Frederic permanent waves, spiral waves, $10; Croquignole, $7.50. Emma Cline Shop. Tel. 454.

CIRCLE TOURS INTEREST ALL!

CANADIAN PACIFIC CIRCLE TOUR CANADIAN

With the 1931 vacation season in full swing, hundreds of families from every part of the Northwest are planning to make the Canadian Pacific "Circle Tour," according to bookings now on hand.

The Circle Tour offers every type of vacation recreation. From Seattle to Victoria and Vancouver is a delightful voyage on a "Princess" liner. After visiting in these cities, the traveler boards a Canadian Pacific train in Vancouver and travels through the magnificent Canadian Rockies to Banff, Lake Louise, and the Bungalow Camps, where stopovers affords opportunity for every member of the family to enjoy their favorite recreations. The return trip is made via Calgary and Spokane.

Low Summer Excursion Fares make the Circle Tour extremely moderate in cost. Full details and information may be had from W. H. Deacon, General Agent Passenger Department, Canadian Pacific Railway, 148-A Broadway, American Bank Building, Portland, Oregon. BRoadway 0637.
