RESINOL OINTMENT

On the Side—By E. V. Durling

(Distributed by King Features Syndicate, Inc.)

Women are like tricks
Of slight of hand
Which to admire
We should not understand.
—Congreve.

(It also has been observed "Women are meant to be loved, not understood." It is my belief that when men understand women they can love them better. Incidentally, if there is anything about women any of our male clients do not understand, we suggest they get in touch with our Horses & Women department experts and get the answer.)

Many film producers and stars still seem to have a marked preference for grim stories. Now Greer Garson is reported scheduled to play the part of a woman who takes to drink. I wish she wouldn't. I think it would be better if Greer, my favorite film star, appeared in a series of light comedies in which she wears wonderful clothes, lives in the kind of house all women dream about and is given a chance to exercise her great talent for comedy.

Advice

It was Joseph Pulitzer who offered the following advice on writing to editorial writers, columnists and reporters: "Put it before them briefly so they will read it, clearly so they will understand it, forcibly so they will appreciate it, picturesquey so they will remember it, and above all accurately so they will be guided by its light."

Horses & Women

Was your wife much interested in the resut of the Epsom Derby? Probably not, unless she had a sweepstakes ticket. Still there is an angle to the result of this classic event which will undoubtedy interest her. The owner of the winner, Galador, was Marcel Boussac, whose great wealth has been made in the French textile industry. It was Monsieur Boussac who furnished the financial backing for Christian Dior, the dress designed who originated the so-called "new look." The amount of material used in this style was, of course, very helpful in increasing the business of the French textile industry.

Sidelights

In response to a query wish to state barmaids are legal in New York city but can work only up to midnight. . . . Now the borough of Manhattan comes forth with something it challenges other places to top. New York Engine Company No. 3 claims Thomas McPartland of its organization is the only fireman in the United States to become the father of triplets. McPartland is 30 years old. His wife, Mildred, is 29.

Asking

Queries from clients: Q. The Dionne quintuplets were born on May 28 under the sign of Gemini. How do the stargazers explain the vast difference in the characters of these girls? A. Your query comes under the head of embarrassing questions for astrologers. The stargazers have an explanation for this situation, but it is usually given in such a complicated manner and with so many technical terms that only another stargazer can understand it.

Recordings

In 1928, Bandmaster Jack Hylton recorded a medley of Christmas songs. Over 1,000,000 copies of this recording were sold in one month. So, if you are a bandmaster, it might be a good idea for you to make a similar recording. Incidentally, J. Fred Coots, who wrote 'Santa Claus Is Coming to Town" many years ago, still collects much royalty money on this recording during the Christmas season.

Briefly

In Norway and Sweden, automobilists who can prove they are total abstainers from strong alcoholic drinks get a 10 per cent reduction on accident insurance policies. . . . Recently I wondered if I had a reader named Bridget. I have. She is Bridget Brady of San Francisco. A fine, old, Irish name, what? . . . The largest hospital in the world staffed entirely by women physicians and surgeons is the South London Hospital for Women, in England. It has 260 beds. No male doctor or surgeon has ever been permitted to operate or even prescribe in this hospital.

COURT MODERNIZED

Pittsfield, Mass. — (U.P.) — Superior Judge William C. Giles found a way to speed up progress through a crowded court docket. He ordered the court crier to abandon the formal "Hear ye, hear ye" proclamation, traditional in the commonwealth of Massachusetts. The new order was simply, "I declared this court now open."

Suffolk, Va. — (U.P.) — Frances Kitchen, a radio announcer, admitted surprise when Police Chief L. B. Butler told her that her stolen bicycle had been recovered. She didn't know it had been stolen, she said.

Super-flies Laugh At 'Deadly' Poison

Corvallis, Ore. (U.P.) — Science is raising a race of super-flies.

DDT, the insecticide designed to kill flies, is just making them tougher. Folks thought the house fly was on the run when scientists introduced the new bug-killer in 1943. But they didn't reckon with the adaptability of the fly.

Tougher flies began to develop a resistance to DDT after 14 generations. They became almost totally immune after 58 generations.

These flies have 150 to 250 times the resistance to DDT as the ordinary house fly. The super-race resists not only DDT but other insecticides.

Now A. W. Lindquist, an entomologist at Oregon State college, wants to see what makes the super-fly tick. He is treating flies with tiny droplets of radio-active DDT just to see what goes on inside their bodies.

After the fly is placed under a Geiger counter, the scientists can tell how much of the DDT has been absorbed.

When experimenters discover how the super-fly staves off the poison, it will be an important step toward finding a newer insecticide that will work.

Harvester Co., Union Agree on Work Pact

Chicago, June 5—(U.P.)—International Harvester company and union officials reached agreement today on an amended two-year contract covering 27,000 workers at 11 farm equipment plants.

The union involved is the United Farm Equipment Workers, which joined the left-wing United Electrical Workers upon expulsion from the CIO.

Company officials said the agreement includes liberalized health and welfare plans without added cost to employes.
