Leniency Knocked in Treating Criminals

Milwaukee — (U.P.) —Undue leniency in treatment of criminals in the nation's prisons may be unfair to society and to youth, a Wisconsin official believes.

State Assistant Atty. Gen. William A. Platz told a convention of correctional personnel here that present emphasis on reform of criminals and their speedy return to society must be tempered with "some consideration for society."

Platz said that if young people observed undue leniency in treatment of criminals, they would not be deterred from "similar crimes."

He urged that a system of criminal law be enacted to meet standards of corrective law to replace the present system which, he said, was "a hodgepodge, archaic and difficult to understand."

Old Fort Niagara Draws Scores of Sightseers

Youngstown, N. H.—(U.P.)—Old Ft. Niagara, many scores of years ago a guardian outpost at the mouth of the Niagara river and now a tourist attraction, is proving more popular than ever with sightseers.

During the past fiscal year some 238,826 persons visited the ancient landmark, the highest number on record. The old fortress was refurbished some years ago to preserve its original look, but plans now are being made to repair all the ramparts, including the sea wall along Lake Ontario.

UCLA Building 49-Inch Cyclotron to Fill Gap

Los Angeles, Calif. —(U.P.)— The Pacific Coast's cyclotron — a 49-inch, 50,000,000-electron-volt atom-smasher — is being built at the University of California in Los Angeles.

The new cyclotron will replace the 41-inch instrument built by Dr. Ernest O. Lawrence and which he used in pioneering modern atomic research.

Much information has been accumulated on what happens when particles at low and extremely high energy levels collide with an atomic nucleus, but little is known about what happens at the 50 MEV level. The new instrument is expected to help fill this gap in information.

Two Old-Time Physicians Rest in $20,000 Caskets

Wilmington, Mass. — (U.P.) — Two old-time Wilmington physicians, who were married to each other, rest in Wildwood Cemetery in two of the most expensive coffins ever built.

The caskets, specially constructed of rare woods for Dr. Henry Hiller and his wife, Dr. Frances B. Hiller, cost $20,000 each at a time when a dollar was worth a dollar.

The elaborate burial cases were the idea of Mrs. Hiller, who devoted many months to supervising their construction.
