HORNBROOK
Summer Vacation Begins

By MRS. H. H. CHAPMAN

Hornbrook — Much of the news from Hornbrook at this time centers around the grammar school and the activities which led up to the closing of the school term on May 29.

Graduation exercises were held Friday evening, May 27 at the Grange hall. The invocation was given by Fr. Daniel Cullenan of St. Joseph's Catholic church in Yreka and the guest speaker was Mr. Patton, manager of Copco at Yreka.

Members of the graduating class, each of whom took part in the program, were Nadine Rux, Penny Barnum, Linda Blankenship, Betty McCanna, Tim Kutzkey, Edward Lemos and Harvey Shinar.

School board members Lauran Paine and Ray Blankenship gave brief talks, as did Jack Cross, clerk of the board, who also presented the diplomas to the graduates. Clyde Peters, a seventh grade student, was presented a special award for art work, given by the Sacramento Bee. Clyde has done an outstanding job of art work for all school activities this year, particularly the life size manger scene which he did for the Christmas program.

Harvey Shinar, as captain of the ball team, was presented the trophy, and accepted it for the school for having won the league championship in baseball this year. This is the class 8 elementary school league which includes teams from Hilt, Hornbrook, Grenada, and Montague.

Each team plays two games with each of the other teams in a season, marked by good team play, the Hornbrook youngsters won the championship by defeating Grenada by a score of 10-2 in a game played at Grenada on May 29. Their first game with Grenada, played earlier in the season, was the only one Hornbrook lost. Names of the players inscribed on the trophy are Lauran Paine jr., Tim Kutzkey, Steve McMaster, Clifford Hays, Loren Howard Cummins, Harvey Shinar, Clyde Peters, Randy Peters, and Billy Jones. There were also ten substitutes. Baseballs signed by all the players were presented in L. L. Walsh who provided the uniforms, masks and baseballs for the boys, and to each member of the school board, Mrs. Lauran Paine, as president of the Parents club, then presented gifts to teachers Mrs. Loren Cummins, Mrs. L. Compton, Mrs. Eunice Autenrieth who substituted for Mrs. Ed Smith, Mrs. Smith in absentia, Al Gregory, principal, and Mrs. Gladys Jones custodian.

Mrs. L. C. Walsh was pianist for the ceremonies. A dance and refreshments followed the program. On May 27, the seventh and eighth grades surveyed the mountains, extended from by the Hilt seventh and eighth graders to join them in a play day at the Hilt playgrounds, and the pitch day the date of the annual picnic for all grades and for grandparents if accompanied by a parent.

Some 100 children and adults traveled to Ashland where they spent an hour or so at Lithia park, then went to Jacksonville Hot Springs for a swim, lunch, and back in for another swim. Supper was held on the 28th, just long enough for report cards to be handed out, then the cry of "schools out" filled the air.

On Memorial Day, Mr. and Mrs. Lauran Paine were hosts to the entire ball team of their ranch home on the Klamath river. The boys had a ball game, a hayride, a swim in the river, and a hamburger fry on the patio.

At a meeting of the Hornbrook Grange on May 19, John Shiner was elected master to fill out the term of Jack Cross, who because of his work conditions, was unable to complete his term.

Mrs. Ray Rattlewell was elected secretary to replace Mrs. Stella Cole, who resigned because of ill health. Mr. and Mrs. James Hodge attended the meeting briefly, and were presented a purse in appreciation of their many years work as members. Because of ill health, the Hodges sold their home here and left on May 27 to make their home at Exeter, Calif., where their son, Oliver, and his family live.

Mrs. Anna Coggin of San Francisco, accompanied by a friend, Mrs. Harriet Chessmore, from Galt, Calif., arrived May 17 for her annual summer visit. Hornbrook was Mrs. Coggin's home for a number of years prior to the death of her husband, Tom Coggin, several years ago.

Memorial Day brought countless visitors to the Hornbrook-Hornbrook cemetery, and the grounds never were more beautiful.

Many praised ground-keeper H. C. Reeves, and the board of directors of the cemetery district, O. G. Tyler, Gordon Jacobs and Charles Graves.

Mrs. Rice Clawson of Klamath Falls was a visitor on Memorial day at the home of her brother and sister-in-law, Mr. and Mrs. John Shiner. Their son, Glen, also was home over the week end from Chico State college.

Mrs. Ray Rattlewell returned Friday afternoon from a trip to Calistoga, Calif. En route down she stopped at Paradise, Calif., where she visited Mr. and Mrs. Fred Perry, and at Nevada City to visit with Mrs. E. R. Graves. The Perrys and Mrs. Graves were long-time residents of Hornbrook.

Farmers in the valley got unlucky with the first hay crop of the season last week. The first cutting came unusually heavy, and, what is really unusual, no hay has been rained on yet on any of the hay that is down.

Mr. and Mrs. L. C. Walsh and daughter, Sharon, drove to Bibbins, Ore., their summer home, on Memorial day, where they visited several friends.

Mrs. Wayne Cummins has received word from her son, A 2C Raymond Moffett, that he is now a member of the "Foreign Legion," of the 434th aircraft control and warning squadron. The airborne unit is attached to members of CRP-1 (better known as Billie) a control and reporting unit well known to pilots who fly over the mountainous regions of northern Italy.

A clipping from the May 31 (Europe) Air Force Times, which Ray sent his mother, states that the 22 men who man "Billie" are almost completely independent of their parent unit.

The unit must be self-contained because of the remote areas in which it must sometimes operate. In the 22 vehicles carrying the unit are located an air station, mess facilities, special services office and even a small snack bar.

Pierre Espie, Redlands and Medard Chouest, French aviators, were the first white men known to have set foot in the Alaska now known as Minnesota.

Tenmile Lake Study Announced by Holmes

Salem — (AP) — Gov. Robert D. Holmes said Friday a biological study would be made of the Tenmile lakes in northern Coos county to find out if large populations of catfish and yellow perch can be eliminated or controlled.

The study will be a joint effort of the fish and game commissions. Its aim is to destroy unwanted fish species while leaving salmon, steelhead and trout.

The lakes are noted one of the greatest producers of silver salmon of any Oregon coast area. Production could be increased if the catfish and perch could be eliminated, officials said.
