Hood River Glacier.

HOOD RIVER, OR., NOV. 12, 1892.

THE ELECTION.

The election is over, and settled by such overwhelming majorities that no quibbles can arise. There has not been such a sweep since Grant's first election. The returns are not complete and exact majorities can not be given, but Cleveland will have 300 electoral votes without doubt. Illinois, Wisconsin, Ohio, Indiana, and California, have been taken from the republican column, while Connecticut and New Jersey, stand firm in the democratic fold. Words are faint to describe the situation; but "the deluge without an ark," might answer as well as anything else. The states carried for Cleveland, and their electoral votes are as follows: Alabama 11; Arkansas 8; California 9; Connecticut 6; Deleware 3; Florida 4; Georgia 13, Illinois 24; Indiana 15; Kentucky 13; Louisiana 8; Maryland 8; Michigan 6; Mississippi 9; Missouri 17; New Jersey 10; New York 36; North Carolina 11; Ohio 23; South Carolina 9; Tennessee 12; Texas 15; Virginia 12; West Virginia 6; Wisconsin 12; and Wyoming 3; a total of 303. The republicans carry; Iowa 13; Maine 6; Massachusetts 15; Michigan 8; Minnesota 9; Montana 3; New Hampshire 4; North Dakota 3; Oregon 4; Pennsylvania 32; Rhode Island 4; South Dakota 4; Vermont 4; Washington 4; total 113. The people's party carried: Florida; 1; Idaho 3; Kansas 10; Minnesota 4, Nebraska 8, Nevada 3; total 32. As to the cause of this, the greatest of political land-slides, we believe Secretary of State Foster, gives the correct answer. He says: "The party challenged the judgment of the country on the McKinley bill, and the verdict must be accepted as the will of the people that a different policy shall be adopted. Other questions entered somewhat into the contest, but not to such an extent as to materially affect the result. Nor would it have been different if other candidates had been selected, or other leaders managed the campaign. No administration ever went before the country with a clearer record. It is the policy, not the personnel, of the administration, that has been condemned."

Our northern neighbor, Washington, has gone republican both on nations' and state ticket. In this state the returns are yet incomplete, but it is probable all four republican electors, are elected. Pierce is far ahead of his ticket and there is a bare possibility of his election. The tidal wave also struck the territories. Utah and New Mexico going democratic and Oklahoma electing a demoratic legislature. Russell (democrat) has been re-elected governor of Massachusetts by a handsome majority. The democratic majority in Missouri, which has been claimed in this election as a doubtful state, will reach 45,000, and the majority in Texas 160,000. The majority in New York will probably be 45,000.

Yesterdays dispatches confirm previous indications, but while Nebraska is taken from Weaver, Weaver captures North Dakota. Without Ohio which is claimed to be doubtful, but which will cast its vote for Cleveland, he has 289 electoral votes with it, 312. Arizona went democratic, Cleveland's majority in Illinois will be 20,000; in Indiana 11,000, Hogg, is elected governor of Texas, where the fight was between two wings of the democracy. In California the result is close, but the democrats have the legislature in joint ballot. In Washington the vote between Carrol, (dem) and Doolittle (rep) is close with 50,000 votes counted, the latter having a majority of 223. It is probable this majority will reach 500. The balance of the ticket is safely republican.

It looks very much to us as though Nathan Pierce was going to crowd some one of the Harrison electors very closely. It depends largely on the action of the democrats in the counties not reported, Crook being one of them.

DO NOT FAIL TO ATTEND.

Do not fail to attend the water meeting this afternoon at 2 o'clock; or if anything should happen that you cannot attend, and you have not already signed your consent to the meeting, do so at once. This will probably be the last meeting required for some time, and as officers will be elected who will have charge of the work, its importance cannot be over-estimated. It is the experience of every company of this kind that after work is commenced, the individual stockholders will find fault, some with one thing some with another, and often plans are changed and much unnecessary work is done and money squandered. See to it that your directors are men who will carefully consider the preliminary details form a plan of action and *follow it out to the end.* Men who will let criticism run off like water from a duck's back, and who will put the ditch through as fast as funds can be raised. To do this it is necessary for you to be present, and if you are not, in the name of common decency don't growl afterwards.

Some democrats complain of others because they would not support Weaver. The only difference between them we can see is that the straight-outs had a double dose of fusion. Some fused and the others re-fused.

THE PROPER ROUTE.

Sunday, in company with E. H. Smith, C. L. Morse and James Langile, we drove out to Van Johnson's place, and made an examination of the two points where it is proposed to place the flume or pipes of the water company across Hood River. We also made a slight but entirely sufficient examination of the river bank above these points, being at once convinced that the report of Messrs. Rand and Morse, concerning the impracticability of that route was entirely correct. There is but one place to get water for the west side, ditch, and that is the Smith location. Of the two points of crossing a surveyor's estimate will soon make choice, but in our opinion the upper one is much more easily and cheaply made. The fall from the ditch above Diver's, to the Smith survey on the west side is not less than 200 feet, and the question arises how much of this can be saved by piping, without too great expense; this question the engineer's estimate will also quickly dispose of. We believe the only way to get the water across is in pipes, and we believe that the ditch on the west side, by piping across can be easily made 100 fect higher than the present survey. It will cost considerable more for pipe, but the amount will be saved in the expense of fluming along the hillside, the summit being reached that much sooner, and besides this it will supply water to more territory and this territory will furnish enough capital to more than pay the additional expense if any. Fifteed hundred feet of pipe, at the outside will put the water 100 feet above the Smith survey on the west side, and it will take at least a thousand feet to put it on the survey. Another thing that is immensely in favor of the Smith route is that from its head to the Diver's place the grade stakes are set, and work can be commenced on it at once. It is quite possible to have that portion of the ditch finished this winter, and the pipe can be on hand ready for putting in place by spring. It seems to us now that the whole matter is in good shape, and that early next summer the waters of Hood River will gladden the thirsty soil of the valley, and make the lawns of our growing town things of beauty forever.

Read This and Profit by It.

Olinger and Bone, proprietors of the Big Red Barn, in addition to their livery and stage business, are handling grain, chop-feed and hay. They are also agents for the Knapp Burrell & Co. machinery. Bain wagons, hacks, buggies, windmills and pumps, Oliver Chill and Steel plows; garden cultivators, plows and harrows; and will sell their Mt. Hood coaches, hacks and buggies, now in use, in order to open in the spring with an entire new outfit. Call and price their goods.

Luckey Birthday.

Friday evening last being the 31st anniversary of J. J. Luckey's birthday, Mr. and Mrs. W. J. Baker, Mr. and Mrs. C. L. Gilbert, Mr. and Mrs. J. H. Cradlebaugh, and W. A. Luckey, assembled at his residence in the evening to assist in celebrating it. Whist was the order of the evening, and this followed by an elegant supper, made the hours fly until before we were aware of it the day was gone, and two hours of "tomorrow" with it. Many returns of the day old friend.

Notice to Stockholders.

A meeting of the stockholders of the East Fork Irrigating Company will be held next Wednesday at 1 o'clock p. m. at usual place of meeting; for the purpose of completing sale of stock, fixing time for commencing work on the ditch, and prices to be paid for digging the same.

J. A. KNOX,
President.

Winans

THE NEW TOWN has been platted on the old camp ground, at the Forks and Falls of Hood river, with large sightly lots, broad streets and alleys, good soil, pure cold water and shade in profusion, perfect drainage, delightful mountain climate, the central attraction as a mountain summer resort and for all Oregon, being the nearest town to Mt. Hood. It is also unparalleled as a manufacturing center, being the natural center for 450 square miles of the best cedar and fir

TIMBER, possessing millions of horse power in its dashing stream and water falls easily harnessed. Where cheap motive power exists, there the manufacturies will center, surrounded by soil and climate that cannot be excelled anywhere for fruit and agriculture, and with transportation already assured you will find this the place to make a perfect home or a paying investment.
