Hon. T. R. Coon during the week sold 50 acres of his home place, including all on the west side of Hood river, to L. Neff. This is one of the earliest strawberry ranches on Hood river. It is the early set strawberry plants that make a crop the next year. Plants set during the months of July and August attain a good growth before the freezing weather comes and are not so easily lifted out of the ground by frost. Mr. Axtel Rahm had 36,000 new plants set last August from which he picked 105 crates. The frost in April nipped probably enough blooms to shorten his crop by 75 crates

Mrs. Rhodie Noah of this place was taken in the night with cramping pains, and the next day diarrhoea set in. She took half a bottle of blackberry cordial but got no relief. She then sent to me to see if I had anything that would help her. I sent her a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and the first dose relieved her. Another of our neighbors had been sick for about a week and tried different remedies for diarrhoea but kept getting worse. I sent him this same remedy. Only four doses of it were required to cure him. He says he owes his recovery to this wonderful remedy.—Mrs. Mary Sibley, Sidney, Mich. For sale by Williams & Brosius, druggists.

Last summer one of our grand children was sick with a severe bowel trouble. Our doctor's remedies had failed, then we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave very speedy relief. We regard it as the best medicine ever put on the market for bowel complaints.—Mrs. E. G. Gregory, Frederickstown, Mo. This certainly is the best medicine ever put on the market for dysentery, summer complaint, colic and cholera infantum in children. It never fails to give prompt relief when used in reasonable time and the plain printed directions are followed. Many mothers have expressed their sincere gratitude for the cures it has effected. For sale by Williams & Brosius, druggists.

Mr. Aud Winans was in town Wednesday. In conversation with several of our citizens he stated that the Hood River Lumbering Co. had not bought the Wheeler place on Hood river nor its timber; that the company would not oppose the taking of 4,000 inches of water from the river for irrigating purposes, and that they were willing to give Day Bros their right to the use of the ditch water for power purposes in Hood River.

We have received from Earl M. Wilbur, secretary of the Mazamas, a neat folder devoted briefly to a description of Crater lake and the details of the proposed excursion to that wonderful spot, August 16th, under the auspices of the Mazamas. It is estimated 500 people will join the excursion. Send to the secretary for a folder if you wish to go to Crater lake.

Neighbors are kind up in Sherman county. Bro. Ireland of the Observer says: "We have sympathy for the poor man who has to work for low wages but we have just as much sympathy for the poor farmer whose blighted fields make it impossible for him to pay more. If the Observer force had to pay board this paper wouldn't be published."

Day Bros. of Cascade Locks have been figuring on building our ditch, but on their last visit here, last Tuesday, decided to discontinue negotiations. The affairs of the ditch company still remain in the shape they have been in for the past three months—that is, there is not enough stock subscribed to start the work.

Sad Accident at The Dalles.

Mr. Scott Boorman and David Wilkinson returned from a trip to Sherman county with a team Thursday. While going into camp at Chenowith creek, three miles west of The Dalles, they heard the noise of a runaway. Looking up in the direction of The Dalles, they saw a horse and cart dashing towards them. They stopped the horse and found a young girl that had been dragged all the way from town, and who died in Mr. Boorman's arms soon after he had picked her up. The girl proved to be the daughter of Mr. Paul Kreft, and was about 15 years of age. The horse shied just before crossing the Mill creek bridge, and the wheel struck a rock and threw out two younger sisters of the unfortunate girl. Her foot caught between one of the shafts and a brace to the shaft and she was dragged the whole distance of three miles in that position.

Miller Bros. were unfortunate, Wednesday, in the loss of their hay press, for awhile, at least. They had been baling hay for H. L. Crapper, and while coming towards Paradise farm where they had a big lot of hay to bale, one of the supports of the tongue to the baler gave way and one of the horses got his foot over the tongue. The team took fright and were soon unmanageable. They ran down the road and at the Christian church came in contact with a tree and the rear axletree was broken. Mr. F. G. Miller went to Portland to see if he could replace it, and it may be he will have to send East for a new one.

Scott Boorman went to Sherman county to work in the harvest fields. He found the country overrun with men looking for work and crops short.
