For a year past there has been lying in a box at the college in this city one of the best telescopes on the coast, outside of the big ones in California. It was built at a cost of $1000 by Queen & Co., of Philadelphia. During the month there has been several interesting sights in the heavens above which would have been revealed to a person looking through this instrument. The conjunction of Venus and Jupiter which occurred last week, while visible to the eye, would have been a pleasant sight through the glass. At this time the astronomical world is excited over the appearance of a burning star. A star heretofore invisible is now readily seen with the naked eye. It is caused by the combustion of its atmosphere, caused by a collision with another large body. The combustion of our sun would be a pigmy compared with the wonder which is withheld from our eyes because of the lack of facilities. An event of this kind is extraordinary and interesting. The question is, what is to be done with the telescope? It will cost in the neighborhood of $500 to build a suitable building for its erection. It would be a pleasure to our citizens and a help to the students. We propose that the citizens of the city, by means of a subscription, help erect this building and enjoy in the future what is now out of their power. Any subscriptions for this worthy object will be received by this office, receipted for and turned over at the proper time to the college authorities, who may have this matter placed in their hands. Who will be the first.

Died.

COWLS.—Lucretia Martin Cowls, wife of J. W. Cowls in this city, on Thursday, February 4, 1892, of lagrippe; aged 64 years.

The funeral was held in the Christian church on Sunday, Feb. 7, and was attended by a large number of people; hundreds turned away because of lack of room. The service was conducted by Elder Jenkins, of The Dalles, assisted by Harry Watkins.

Mrs. Cowls was born in Montgomery county, Ky., on Sept. 23, 1827. At the age of 15 years she was baptized in the Christian faith and has been a conscientious and true member of the faith since. On April 4, 1844 Miss Gordon was married to Mr. F. B. Martin, with whom she immigrated to Yamhill county in 1846. Having been left a widow she was joined in marriage to J. W. Cowls in 1861, with whom she has lived happily since.

Her deeds of kindness are too well known for comment. She was universally loved by all who came in contact with her. Her kindness to the poor and needy can be stated in a few words but they mean considerable. She has, during her life, taken and raised 19 orphans.

The death of Mrs. Cowls has caused a vacancy in this community that cannot be filled, but we console ourselves with the thought that she has gone

"Out of the shadow of sadness,
Into the sunlight of gladness,
Into the home of the blest."

ABBETT.—Mina, daughter of Rev. J. T. Abbett, on Friday, Feb. 5, 1892, aged 4 years. Death caused by croup. Funeral held Saturday from the M. E. church.

Congress at Last takes Action.

A bill has been introduced at Washington requiring all baking powders containing alum and ammonia to be so labeled. This is a step in the right direction, and has been long foreshadowed by the action of state legislatures, boards of health, food commissioners, etc., in this matter. The bill affords needed protection to the public, for the evidence as to the injurious effects of alum and ammonia is very heavy; but it will nevertheless be fought bitterly by the manufacturers whom it effects who are accustomed to sell their goods as "pure Cream of Tartar," "absolutely pure," etc.

The bill is something needed. If a maker uses a drug in his powder, the name of which he does not want to have printed on his label, it is prima facie evidence that there is something wrong. We hope the subject will be vigorously prosecuted all over the country, not only as regards baking powder but also all other food adulterations.

This bill may incidentally benefit the makers of pure articles, but if it should, this is only an additional point in its favor.

A Mammoth Prune Orchard.

The enterprising firm of Dues & Co., of Portland, have set to prunes 150 acres, across the river from Independence, on what is known as the "Coffee place." These 15,000 trees will be bearing in a few years, together with thousands of other smaller farms now being planted in prunes and other fruits, which will make the country surrounding Independence one vast orchard of various kinds of fruits. This large farm consists mostly of French prunes. We repeat our former assertions, that in all these United States there is no stretch of country that equals the section of described between Portland and Corvallis, and between the Willamette river and the Coast range, consisting of about 2500 square miles, or 1,600,000 acres of the best land that can be found. When looking over this vast area of fertile land, stop off at Independence, and see if this is not close to the "hub."—*West Side.*

Linn County Got It.

Some time ago, W. T. Radir wrote to the board of trade of a number of towns regarding the proposition of the California Hosiery and Woolen Mill company. The company guaranteed that it would put $72,000 worth of machinery in a mill and asked a bonus from the town in which it would locate. On account of the indifference of men and means, there was danger that this mill would be lost to the Willamette valley, but through the efforts of Hon. J. K. Weatherford, of Albany, Thos. Kay, of Salem, and Messrs. Radir and Dave Rutherford of Portland, the establishment was planted at the village of Waterloo, 15 miles from Albany, and situated at the falls of the Santiam. Waterloo gives 100 acres of land and free water power, and has taken $20,000 worth of capital stock.

Tax Rolls Being Increased.

G. W. Jones is engaged in raising the county assessment rolls to the figure made by the state board of equalization. This is a job that would tax the brain of an average man in figures, but Mr. Jones writes page after page of figures without making a sum on paper. He is probably the most expert man in figures in the county. When tax collecting time comes around there will be a howl sure, as in the instances where the indebtedness equalled the taxable property, the increase by the state board of equalization shows that these persons will have to pay taxes on an amount equal to the said raise. Next year they will have to rustle up more indebtedness.

Love and Marriage in Japan.

Sir Edwin Arnold, who has been enjoying an interesting trip through the United States, has made a careful study of the conditions which govern the family in Japan, and embodies his ideas in a paper called "Love and Marriage in Japan" in the February number of the *Cosmopolitan*. The article is illustrated by the quaintest possible Japanese sketches running down the sides and across the bottom of each page. An excellent photograph of W. D. Howells serves as a frontispiece, and his work as a writer of fiction is reviewed in the same number by H. H. Boyesen. The president of John Hopkin's university gives a most practical paper for parents on "Boys and Boy's Schools," illustrated by cartoons of the famous Attwood. Murat Halstead turns back lovingly to his early farm days, and tells of the "Pets and Sports of a Farmer Boy." The petroleum industry fully illustrated; An Afghan story by Archibald Forbes; The story of the Brazilian republic by Adams, late minister to that country and the leading amateurs of the United States in photography, are other leading articles of the month.

A Mute Recovers Speech.

Alphonce Hemphlig, of Summitt township, Butler Co., Penn., made an affidavit that his twelve-year-old son, who had had St. Vitus dance for 12 years, lost his speech, was completely cured after using three bottles of Dr. Miles' Restorative Nervine and also recovered his speech. Thousands testify to wonderful cures from using it for nervous diseases, dyspepsia, nervous debility, dullness, confusion of mind, headache, etc. Four doses of this Nervine cured Mrs. W. E. Burns, South Bend, Ind., who had been suffering with constant headache for three months. Trial bottle and elegant book free at Rogers Bros.

Arrested for Horse Stealing.

Willard Wood, a well known citizen of this county, who has been in the county jail several times, was arrested by Sheriff Croisan of Marion county at Nehalem Gap on Friday night last, on a charge of horse stealing. The theft of which Wood is accused was committed in Salem on the night of Jan. 14th, a horse belonging to Mrs. W. J. Herren being stolen. As anticipated the stolen property was found in his possession when the warrant was served. Wood is an ex-convict, having been out of prison only about a month before the theft. He is only about 19 years of age and was at the home of his parents in this county when arrested. He is once more well on his way to the penitentiary for having walked away with a halter to which another person's horse was attached.

Sleep on Left Side.

Many persons are unable to sleep on their left side. The cause has long been a puzzle to physicians. Metropolitan papers speak with great interest of Dr. Franklin Miles, the eminent Indiana specialist in nervous and heart diseases, who has proven that this habit arises from a diseased heart. He has examined and kept on record thousands of cases. His New Heart Cure, a wonderful remedy, is sold at Rogers Bros. Thousands testify to its value as a cure for heart diseases. Mrs. Chas. Benoy, Loveland, Colo., says its effects on her were marvelous. Elegant book on heart disease free. 4

A Warning---Don't Use Big Words.

In promulgating esoteric cogitations or articulating superficial sentimentalities and philosophical or psychological observations, beware of platitudinous ponderosity. Let your statements possess a clarified conciseness, compacted comprehensibleness, coalescent consistency and a concentrated cogency. Eschew all conglomerations of flatulent garrulity, jejune babblement and asinine affectations. In trying to impress upon others the superiority of the Wisconsin Central lines, and why you and so many others use the thoroughfare from St. Paul and Minneapolis and Duluth and Ashland to Milwaukee, Chicago and points east and south, it is not necessary to use jawbreakers. Let your extemporaneous descantings and unpremeditated expatiations have intelligibility and veracious vivacity without rhodomontade or thrasonical bombast. Sedulously avoid all polysyllabic profundity, palliaceous vacuity, ventriloqual verbosity and vandiloquent vapidity, shun double entendres, prurient jocosity and pestiferous profanity, obscurent or apparent. In other words talk plainly, naturally, sensibly and truthfully say the Wisconsin Central Lines is THE route, and that ends it.

A foreign fruit dealer recently came to this country to sell prunes, but failed to make sales. Upon inquiry he learned that the quality of the California prunes was superior to, and the price lower, than the goods he offered. Instead of selling prunes, he bought of one dealer in Philadelphia five car loads of the California fruit and shipped them to London. We mention this incident to show the drift of things, and the possibilities of fruit growing and selling in the United States.—*Farm (Pa.) Journal.*

In just 24 hours J. V. S. relieves constipation and sick headaches. After it gets the system under control an occasional dose prevents return. We refer by permission to W. H. Marshall, Brunswick House, S. F.; Geo. A. Werner, 531 California St., S. F.; Mrs. C. Melvin, 136 Kearny St., S. F., and many others who have found relief from constipation and sick headaches. G.W. Vincent, of 6 Terrence Court, S. F. writes: "I am 60 years of age and have been troubled with constipation for 25 years. I was recently induced to try Joy's Vegetable Sarsaparilla. I recognized in it at once an herb that the Mexicans used to give us in the early 50's for bowel troubles. (I came to California in 1839,) and I knew it would help me and it has. For the first time in years I can sleep well and my system is regular and in splendid condition. The old Mexican herb in this remedy are a certain cure in constipation and bowel troubles." Ask for
