THE EXAMINER ..... AUGUST 27, 1890.

Gen. Vinay was elected commander of the G. A. R., at the grand Encampment at Boston on the 12th.

Col. Markham was nominated for candidate for governor of California by the republican convention last week.

The resignation of First Assistant Postmaster-General Clarkson has been sent to the president, to take effect September 1st.

Henry E. Middle and Miss Augusta Hilman were drowned at Tacoma on the 13th, by the capsizing of a boat while on a pleasure excursion.

Young Thurman, son of ex-Senator Thurman, is grey-haired and has lost one arm. He lost the other several years ago, by an accident.

Mr. Gladstone, in his last speech, refer[illegible] a single sentence, containing 214 words, and those require twenty-four lines of type in the London Times.

The Oregonian says the republican party has too many men, prominent in the presidential contest, for it to be out of the party, or to be indifferent as to its legislation.

The Lodge-Force bill, known as the Force bill, will be debated in the senate. A minority of republican senators have agreed to vote with the democrats for the indefinite postponement.

Senator Gorman is said to be the landed gentleman in the United States senate. He is a Presbyterian, and of the twelve members of the upper house who pay attention to the chaplain's prayer to be present when it is uttered. He has been named "Cardinal."

It is tiresome to read an item going the rounds that it is no longer considered good manners to lift the hat to ladies whom you chance to meet on the street. A peculiar wave of the hand, with military accent, as it were, is now the proper caper. The change, it is said, was brought about by the influence of cold-blooded men.

The republican senatorial caucus last Saturday discussed the Federal election bill. The discussion showed there was a large number of senators who (it was generally supposed) who for one reason or another, disapprovingness was forced.

Mr. Marshalltown (Iowa) *Gazette* has [illegible] the saying of Oregon's popular journal, the "*The Times*, published at Portland, Oregon, commends to the political consideration of the democracy of Oregon, without, perhaps, knowing it, the Farmers' alliance of Iowa. Only, and in Iowa, especially, Democrats do not generally seem to cast just critical [illegible] the costs of the common people."

When Senator Sherman called his colleague on the floor the S. S. Cox in the senate, last week, he was several times requested so to be compelled to stop until he could use a [illegible] on caution, and yet, when Mr. Cox was trying to call Senator Sherman were political enemies. It is a pity public men would say more good things of each other while living, and fewer of them, as one dead it would be a decided improvement upon the present method.

The pension office calls attention to a provision in the disability pension bill, just enacted, which is of great importance. It forces number of soldiers to school by the 11th. This provision is to the effect that instead of executing their application for pension before a clerk in a county, of record, as the law has heretofore required, they may verify them before a notary public, justice of the peace, or any officer authorized to administer oaths for general purposes and who has an official seal.

The railroad strike in New York has ended and the wheels will turn again. Passengers will resume their journey and freight will move as before the strike. The delay of freight trains caused by the strike caused the destruction of tons of [illegible] perishable freight, and the French strike, from it was avoid. The loss to the company will be great both in its earnings and of property injured, and the strikers have lost heavily also in the way of wages for the time and many of them their situation for the future.

Conductor Joseph T. Jenkins, on the 2d street motor line, Portland, fell from a trestle bridge a distance of seventy-five feet. The car from which he fell was going to Fulton Park. Jenkins, at the request of a lady to adjust a curtain, so that the rays would not annoy her, stepped on the outside foot-board of the car, and the curtain flapping in his face prevented him from seeing and he struck his head against one of the electric wire posts and was knocked headlong from the bridge, striking the ground 75 feet below and was rolled 20 feet further to the bottom of the ravine. He lived but a short time.

The contractors for the Denver and Rio Grande railroad, Colo., finding they could not finish a piece of road according to contract, put in a heavy blast containing over one ton of powder. After notifying all the people to leave town and seek safety up the mountains, the blast was touched off. When the smoke cleared away it was found that the whole village had almost been demolished, nothing being left of five houses, while thirty others were badly wrecked and rendered uninhabitable. The houses will be rebuilt at the expense of the contractors, but in the meantime fifteen families will be compelled to live in tents.

NEIGHBORING NOTES.

Oregon Review.

Two months ago it looked as if there would be scarcely anything raised in this county this year, but now the farmers are harvesting the largest crop they have raised for years.

West Shore.

Portland has boomed herself this week by entertaining the Oregon Press Association. The editors of Oregon when thus gathered together proved to be a body of very able and pleasant gentlemen. No doubt the pleasant intercourse will unite both city and country in closer bonds of friendship.

New Era.

Last Saturday we received a telegram from Sheriff Butler announcing that Walpole had been remanded to his custody and he would be home Tuesday sure enough; he arrived on time, making the round trip in eight days. Walpole's case will probably be settled by a Modoc jury.

A. H. Pratt informed us last Friday that the proposition of the narrow gauge very shipping rails to Lingo, which he left there the first of last week. This began to look like business, and we expect that they will build the road as soon as the weather will permit this fall. Next season we may begin to look for the iron horse.

Vale Journal.

The business houses and peopled eastern Oregon and Malheur county, get their freight from different points along the line of the railroad, the business transporting different roads to nearly every locality. The Alba, Big Valley, Sunset and Fall River Valley country gets goods via Sisson; Altamas from Redding; Cedarville, Lake City, Lakeview and Camp Bidwell from Lingo, the terminus of the narrow gauge railroad running north from Reno; Fall City, Bidder and vicinity from Anderson, and the Lakeville section from Agee and Montague. The bannisters from Lakeview formerly came to Montague, but prefer hauling longer distances than pulling over the steep Abert Bluffs in Baxter Creek valley. About 20 miles come of Lassen narrow gauge railroad will soon be commenced, and when finished all the eastern Oregon and Modoc county freight will be shipped from San Francisco via Reno.

Silver Lake Chestnut.

There is something wrong about our mail matter. Mail from Harney valley via Burns and Lakeview to Silver Lake is often from 15 to 28 days old, and last week we got papers printed in May and June from the Lakeview at Burns and the Harney Ave. Some postmaster on the road does not attend to his business and we have pretty nearly found out where the fault is. Mail matter all north of Paisley from Paisley to Harney valley should go by Prineville or anywhere in northwestern Oregon, and the connection from Lakeview with the Prineville stage at Silver Lake is lost, the Prineville mail gets here Tuesday evening and passengers for the stage have to lay over till Friday. I do not suppose it would do any good to write or pointer our postmaster, he seems to be too long trying to save souls and selling dry goods.

[illegible] to us over lake stage.

Mr. Ed. Dee is something going on in this part of the country that is not right. Some time ago I was out hunting south of Silver lake, shot two miles away, and I found in a very secluded place a camp that from appearance had been occupied early in the spring and the sons that they had cut wood and had all horses chopped. Perhaps this has something to do with the matter between that lakeview and Silver lake mail.

USEFUL INFORMATION.

Tilbury Fox, M. D., the eminent medical writer, in his work "Skin Diseases," thus accounts for the pimples so common to the face and neck. Eating too rich or too greasy food, or too hearty eating while the excretory organs are sluggish, causes in most people indigestion or a dyspeptic condition, which causes the blood to move sluggishly, and entombs the poors. The result is, that the sending secretions block in the pores, which inflames, each distinct inflammation being a pimple. Dr. Fox therefore does not prescribe "blood purifiers" as a cure, but a "dyspepsia cure" to be taken, to use his own words "*till the dyspeptic symptoms have disappeared.*" The old idea was, that face eruptions were caused by a "humor in the blood," for which they treated the blood, giving the mineral, potash. Joy's Vegetable Sarsaparilla follows the modern ideas of Dr. Fox, and aims with gentle vegetable alteratives at the stomach and digestive organs. The reason is apparent why it cures dyspepsia and indigestion, and the pimples and skin eruptions which result therefrom and why sarsaparillas that use minerals fail.
