THE OREGON POTASH COMPANY.

The Oregon Potash Company has issued a prospectus which sets forth facts concerning its property at Summer and Abert Lakes in this county, and the future intentions in regard to its property. The following is an extract from the prospectus:

"The Oregon Potash Company was incorporated September 7, last, under the laws of Nevada. July 23, 1902, the capital stock was increased to one hundred million dollars. This was on a basis of less than five dollars per ton of the potash and soda salts contained in the company's property. The Company owns Summer lake and Lake Abert in Lake county, Oregon, 45 miles from the California line. The area of these lakes is each about fifty thousand acres and they have an average depth of more than seven feet. They are held by 675 placer claims, 160 acres each, under the United States mining laws, a total of 108,160 acres. The locators deeded to the company. All papers are of record at the county seat, Lakeview, Oregon.

The value of these salts is given in the current mining journals. Potash is quoted by the Engineering and Mining Journal at $130 per ton; sulphate of potash at $43. The soda is reckoned at $26 per ton in San Francisco. The Mining and Scientific Press of San Francisco quoted the market price of soda ash at $38 per ton, June, 1902.

In addition to these values there are seventeen million tons of common salt that will find some use. About one third of the soda is in bicarbonate form and can be saved and is worth sixty dollars per ton.

The entire body of salts in these two lakes can be recovered at one time by solar evaporation at a cost of less than ten cents per ton. The freight to San Francisco will be about eight dollars per ton. The cost of making the soda ash will be less than two dollars per ton. Thus if the soda is marketed at even twenty dollars it will give a profit of ten dollars per ton. The sulphate of potash will yield more. The market for these salts is the entire world. Soda is one of the staples and is produced by expensive and artificial means, the Le Blanc and amonia processes. The Oregon Potash company can produce soda cheaper than any where else in the world. The United States alone consumes more than 400 thousand tons of soda annually.

The consumption of potash salts by the world is about three million tons annually.

Railway transportation is the one necessity. This is assured. The Oregon Potash company has an arrangement with the Nevada-California-Oregon railway company to build to develop the property for a 50% interest. The building of the road answers for the assessment work on the mining claims. The distance from the present terminus at Madeline plains is 125 miles to Lake Abert. The railroad company is making every arrangement to go ahead and will make the road a broad gauge from Reno.

The Columbia Southern road is also building down from Shaniko to Lakeview, and must pass Summer Lake at a distance of about 140 miles. Another road is projected from the west that will also run close by the lakes.

The altitude of Summer Lake is 4,200 feet. It has a fine climate and peaches and other fruits grow to perfection. The country is celebrated for its wild plums.

The great advantages of this property are the abundance of fuel right on the shore of the lake, the certainty of competing transportation lines, the high percentage of carbonate of soda in Summer Lake, the entire absence of sulphate of soda at Lake Abert, and the fact that the whole of the two lakes can be evaporated at one time and the sulphate of potash and bicarbonate saved.

The stock of this company is held by some fifty people. The principal stockholders are Chas. M. Sain, John F. Reid and the Nevada-California-Oregon Railway company.'

"El Comandante" Who is it—what is it? Lovers of a good smoke will never ask that question, for they know. "El Comandante" is the pure weed that has made Post & King's cigar department famous. Ask once for an "El Comandante" and you will call for it always. On sale only at Post & King's, Lakeview. 24 3m

Music Lessons.

Mrs. Bertrand Blair is now prepared to take a number of pupils to teach them instrumental music at her residence. Half hour lessons 25 cents; one hour lessons 50 cents. 16-1m

A Nightmare

does point to the fact that excessive or improper eating disturbs the digestion. Nightmare or night hag has it's day time correspondence in the undue fullness after eating, with the belchings and sour or bitter rising so often experienced after too hasty or too hearty eating.

Dr. Pierce's Golden Medical Discovery cures dyspepsia and other diseases of the stomach and its allied organs of digestion and nutrition. When these diseases are cured, the whole body shares in the increased strength derived from food properly digested and perfectly assimilated.

"Your 'Golden Medical Discovery' and Dr. Pierce's Catarrh Remedy have been of great benefit to me," writes Prof. Pleasant A. Oliver, of Viola, Fulton Co., Ark. "Before I used the above mentioned remedies my sleep was not sound; digestion bad; a continued feeling of misery. I now feel like a new man. Anyone in need of medical treatment for nasal catarrh could do no better than to take treatment of Dr. R. V. Pierce. I know his medicines are all right in this class of diseases."

Sometimes a dealer tempted by the little more profit paid on the sale of less meritorious medicines will offer the customer a substitute as being "just as good" as the "Discovery." It is better for him because it pays better, but it is not as good for you, if you want the medicine that has cured others, and which you believe will cure you.

Dr. Pierce's Pleasant Pellets cleanse the clogged system from accumulated impurities.

White Man Turned Yellow.

Great consternation was felt by the friends of M. A. Hogarty of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, and he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful Stomach and Liver remedy, and he writes: "After taking two bottles I was wholly cured." A trial proves its matchless merit for all Stomach, Liver and Kidney troubles. Only 50c. Sold by Lee Heal Druggist.

TIMBER LAND NOTICE.

United States Land Office, Lakeview, Oregon, May 26, 1902. Notice is hereby given that in compliance with the provisions of the act of Congress of June 3, 1878, entitled "An act for the sale of timber lands in the states of California, Oregon, Nevada and Washington Territory," as extended to all the Public Land States by act of August 4, 1892, Joel N. Pearcy, of Bly, county of Klamath, state of Oregon, has this day filed in this office his sworn statement No. 471, for the purchase of the W½ SE¼, SE¼ SE¼, sec. 29 and NE¼ NE¼ of section No. 32 in Township No. 36 S., Range No. 16 E., w. M., and will offer proof to show that the land sought is more valuable for its timber or stone than for agricultural purposes, and to establish his claim to said land before the Register and Receiver of this office at Lakeview, Oregon, on Friday, the 8th day of August, 1902. He names as witnesses: John J. Cusack of Toledo, Oregon, C. W. Embody of Portland, Oregon, F. H. Wehtje of Portland, Oregon, Mary E. Wehtje of Portland, Oregon. Any and all persons claiming adversely the above-described lands are requested to file their claims in this office on or before said 8th day of August, 1902. E M BRATTAIN, Register.
