PAISLEY TO GET ANOTHER MILL

IMPORTANT TIMBER DEAL IS MADE AND PLANS ARE ANNOUNCED FOR A NEW INDUSTRY IN LAKE COUNTY

An important timber deal involving several hundred acres of timber land some five or six miles above Paisley on the Chewaucan River, was completed last week, says the Chewaucan Press.

The land was purchased by Messrs. Kubic and Loveland, who will immediately commence the installation of a sawmill on the property. The land is ideally located for the purpose for which it was sold, as there is an excellent site for a mill on the river, where there is plenty of water and power. A mill of 20,000 capacity will be in operation as soon as the necessary machinery can be installed, and the owners expect to be in a position to supply the trade this summer.

Paisley has long felt the need of another mill, as there has always been a shortage of lumber here, and with the increased demand which is certain to follow the present influx of new settlers, there will be no much business as both mills can handle.

BULGARIANS AND TURKS FIGHTING FIERCELY—ARABS JOIN WITH TURKS IN THREEFOLD ENGAGEMENT

United Press Service

LONDON, Feb. 5—Dispatches from Sofia say that the Bulgarians stopped the bombardment of Adrianople last night and offered the Turks 24 hours to consider surrender. When this was refused the bombardment was resumed without waiting for the expiration of the truce. The Bulgarians threaten to burn the city.

Messages from Constantinople deny that Scutari has fallen or that the Turkish commander is negotiating for capitulation. It is asserted that the Turks sorties and captured two Montenegrin battalions, who would not agree to parole.

VIENNA, Feb. 5.—A desperate battle between the Turks and the Bulgars occurred at Gallipoli at sunrise. The losses were heavy. More than 45,000 Turks and Arabs resisted fiercely.

IRRIGATION AND [illegible]

COST OF IRRIGATION WAS [illegible] AT FIRST BUT LOWER THAN 20 YEARS AGO, AND IS MUCH HIGHER THAN IN 1909

Oregon has a total project acreage of 2,527,268 acres, according to irrigation data compiled from the 1910 census report for the arid land states by the reclamation service. Of this acreage 830,536 were ready for irrigation in 1910.

Of this acreage, 59.0 per cent was developed by individual and partnership enterprises, and the other enterprises entering in this development and the percentage of work they accomplished, follows: United States reclamation service, 3.3 per cent; United States Indian service 0.1 per cent; Carey act, 3.6 per cent; irrigation districts, 0.8 per cent; co-operative enterprises, 21.9 per cent; commercial enterprises, 11.9 per cent.

The operation and maintenance cost of irrigation work in the state has varied greatly. In 1910 the cost per acre was 75 cents per acre; in 1909 it was 32 cents, and in 1908 34 cents.

The difference in cost is due to several factors. In the first place many of the earlier irrigation systems were inexpensive and relative cost of construction.

In the second place most of the old irrigation systems have made a growth from year to year upon which thousands of dollars worth of work has been done without pay, and without record of cost. The estimated cost of the work is invariably far too small, and generally the acreage irrigated is exaggerated. As a result, the computed cost per acre irrigated is exaggerated. As a result, the computed cost per acre irrigated is far too low.
