BIG CONCRETE SHIP IS MADE ON NEW PLAN

SAN FRANCISCO, June 15.—The new cement ship Palo Alto, recently launched at the Government Island Plant at Oakland differs materially both as to architecture and composition from the first concrete ship "Faith."

The system of steel reinforcing of the Faith was diagonal, that of the Palo Alto horizontal and vertical. The concrete aggregate used in the Faith was rock, sand and cement; that of the Palo Alto of sand, crushed terra cotta and cement, making for lighter construction. The San Francisco Shipbuilding company, of the Faith, directed the construction of the Palo Alto, the work being done under inspection of the Shipping Board.

The "shell" or walls of the Palo Alto are four inches thick with the exception of part of the bottom where it is five inches in order to provide additional strength to care for the foundations of the machinery. Decks, deckhouses, cabins,—in fact everything about the vessel, with the exception of a few fittings and necessary steel appurtenances, is of concrete.

About six weeks hence, when the Palo Alto is ready to go into service, another concrete vessel will be launched. It is growing in its forms located next to those that held the Palo Alto. It will be the first "puffed brick" ship ever built and will be named the "Twilight."

The time is getting shorter every day for you to do what should be done before the Elks get here on August 14, 15 and 16. What are you doing?

TELEGRAPHERS STRIKE IS FELT IN OREGON

PORTLAND, June 17.—The Telegraph business in Oregon felt the effect of the strike heavily today, when railroad telegraphers, refused to handle commercial telegrams. Messages had been mailed to points miles from nearest operating offices, and these are now lying in the various railroad office to which they were forwarded.

WANTED LIQUOR WHEN IT WAS TOO LATE.

CINCINNATI, Ohio, June 17.—"I am 54 years of age and I never took a drink of whiskey until West Virginia went dry."

This statement was made to the court by James W. Peters, real estate dealer of that state, who was indicted for carrying liquor into dry territory.

"When I couldn't get it I wanted it," Peters said.

GERMAN LAW PUTS PREMIUM ON LOAFING.

BERLIN, June 16.—The Imperial Workless committee has prepared a bill for the national assembly which, if enacted into law, might put a considerable premium on idleness. Ostensibly the bill is designed only to give a living to millions of Germans out of employment, but it goes so far that the man who works would be at a disadvantage.

In the first place a man would be considered without employment even though he declined an offer of work. Employment must come only thru his solicitation. When out of work each man would receive 19 marks a day, his wife four marks and children under 14 two marks.

The German newspapers are treating the proposal with varying degrees of sarcasm.

STRIK ELEADERS CLAIM PROGRESS

CHICAGO, June 17.—The leaders of the National strike of the Commercial telegraphers declared today that reports have been received showing heavy files of Western Union telegrams are piled up at relay points due to the refusal of the railroad telegraphers to handle commercial business.

Just Remember this. The dates for the Elks' Convention are August 14, 15 and 16. Get ready.
