A. G. MANOR

A bullet fired into his eye 20 years ago made A. G. Minor blind. But he's still one of the most valuable detectives on the Richmond (Va.) Police force because of his memory for voices and knowledge of crooks.

LANDED

Supply and Demand Regulate the Price of Lumber

Right now the demand is far in excess of the supply and is sure to be more noticeable next spring.

4,000,000 Homes are Needed in the United States

These will be built and this means a great demand for lumber and naturally the price will increase.

It is only reasonable to expect lumber prices to advance.

Decide to own a home. Place your contract while prices are at rock-bottom.
