OREGON BREVITIES

PORTLAND — China pheasants and bob white quail will be much more plentiful in the Willamette valley this season than for many years, according to A. E. Burghduff, state game warden. The pheasants will be plentiful also in Union and Umatilla counties, according to reports which Mr. Burghduff has been receiving, which state that there are thousands of the birds in that locality.

HOOD RIVER.—A man, normal in all respects, except that he had forgotten his name, applied last night to City Marshall Hart for aid. The stranger was taken to the sick ward at the city hall, where after a few hours' rest he came to himself. He proved to be John Lester, who is employed with an O. W. R. & N. bridge crew at Mesner. The heat, it was thought caused the mental lapse.

LAPINE.—Rudolph J. Sestak, for 10 years a licensed pilot in the aviation service, has renouced flying and has taken up farming. He came here from Cicero flying field, Chicago and, after looking over the irrigated land in the Walker Basin, has purchased 160 acres, to which he will devote his time hereafter.

ALBANY—Benny Rozelle Jr., with a pitch fork, saved his father's life when the elder Rozelle was downed and gored by a bull at their farm Friday evening, according to word received in Albany. The Roselles live near Tangent.

LA GRANDE—Before the mill whistles had blown Saturday morning 25 or more Boy Scouts had left for the Scout camp established a few days agon on the Minam river. The trip was made in autos to Cove, where the few articles taken along were carried in by packhorse. From Cove the boys walked across the mountains to the Minam river.

LA GRANDE—An apple crop of $600,000 in Union county is the present estimate. Following a careful inspection of the apple orchards in the various apple belts of the valley, this estimate was made by men who know the orchard business.

ROSEBURG—The county court provided the sheriff's office with a Dodge car to be used in the future in the work of that office. The recent legislature passed a law, which requires the sheriff to turn all fees collected over to the county and requires the county court to pay the expenses of the sheriff in serving papers.

PORTLAND—Cigar stands hereafter will have to pay a yearly license fee of one dollar to the city of Portland, and they will come under police inspection and regulation the same as soft drink establishments, pool rooms and card rooms.

CONDON—The scare over a reported outbreak of infantile paralysis has subsided, as it developed upon investigation that but one case of the disease occurred here and in that case the child, a daughter of Mrs. Lelia Pryor, is said to be making satisfactory progress.

BEND—Two men, one of them acted suspiciously, drove through La Pine Friday afternoon. One, who was suspected of being Dr. R. M. Brumfield, held a handkerchief to his face whenever a car approached. A warning was sent to county officers at Bend to hold the pair.

They were caught. The man with a handhkerchief to his face was Dean John J. Lansbury of the University of Oregon; and he used the scrap of linen to protect a chronically tender nose. He used it most often when dust threatened, which was while passing another car. Hereafter, he says, he will just sneeze when he is in a country where murderers are being sought.

Make that idle dollar work! Put it in the bank.

The gas meter has more feet than any other inanimate thing.

Love that feeds on beauty alone is apt to die of starvation.

Silence is sometimes golden and sometimes it indicates guilt.

J. H. Carnahan, Commander.
Roy N. Fouch, Post Adjutant.

For relief of employment see or write the Chairman of The Relief and Employment Committee, Francis Olds, care Lakeside Lumber company.

Hot Water Each Morning Puts Roses in Your Cheeks

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Girls and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphated hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

Women who desire to enhance the beauty of their complexion should just try this for a week and notice results.
