PROFIT OF $9.80

UNIONTOWN, Pa. — Mahlon Saylor bought a chicken for 80 cents and, in addition to having a good chicken dinner, made a profit of $9.20 on the purchase. In dressing the fowl, he felt something harder than usual in its craw. Cutting it open he found a $10 gold piece.

MUST HAVE THE BEST

WATERBURK, Conn. — Allan Kapellowitz must have the best of everything—even when it comes to justice. A veterinary recently charged him $5 to shoot a horse. Kapellowitz thought the charge unfair, and instead of consulting a lawyer, he communicated directly with the U. S. supreme court. He was told to seek justice elsewhere.

THE DANGER ZONE

A city man out on a winter walk was crossing a large meadow.

"I say, Giles," he shouted to the farmer in an adjoining field, "is that bull over there quite safe?"

"Well," drawled the farmer, "I reckon he's a lot safer than you are just now."—Answers.

SILK FROM THE AIR

LONDON—It might be possible before long to take cellulose, the raw material from which paper, artificial silk, and other things are made, directly from the air. That's the prediction of Dr. Herbert Levinstein, president of the Society of Chemican Industry. Since sugar and cellulose come from the same chemical units, and since the former has been produced synthetically from the air, the doctor believes the latter can also.
