BOOM IN CORN FLATTENS OUT

CHICAGO, Aug. 20 (AP)—Flattening-out of the boom in corn prices became more pronounced today.

Weakness of the corn market grew acute at times, owing especially to a notable let-up in demand both for immediate and future use. Apparent likelihood of heavy imports of corn because of big domestic premiums over foreign corn attracted particular notice.

Corn closed shakey, 1½-2½ cents under yesterday's finish, Sept. 114⅛-⅛, Dec. 98⅞-⅞, wheat ½-1¾ down, Sept. 113⅞-⅝, Dec. 112⅝-¾, Oats ½-⅞ off, and provisions unchanged to 27 cents decline.

PORTLAND, Aug. 20 (AP)—The Portland wheat futures market reacted today to the sale of 3000 bushels of December wheat with a decline of one cent in that option, while September, without trading, was down 1½ cents. May, with a sale of 6000 bushels, was off one-half cent.

On the sample cash market, local wheat lost 1½c and Montana fluctuated downward 1 to 2½c.

Stock Market Quotations

NEW YORK, Aug. 20 (AP)—While a few specialties tipped the stock market scales today for modest gains, the list as a whole lost its balance under quiet profit-taking pressure.

Leading the downward drift for losses of fractions to a point or more were the steels, rails and coppers. The close was easy. Transfers were around 950,000 shares.

Brokerage analysts could find little in the business or industrial picture to promote selling.

Steady to higher were such shares as Douglas Aircraft, United Aircraft, Boeing, Curtiss Wright, Studebaker, General Motors, Safeway stores, Goodyear, Goodrich, Crown Cork, General Electric, National Dairy and General Realty.

20 PER CENT GAIN MADE IN QUARTER

CORVALLIS, Aug. 20 (AP)—The general level of Oregon farm prices increased 20 per cent in the past three months, L. R. Breithaupt, agricultural extension economist of Oregon State college, said today.

"The drought situation so far has registered favorably for Oregon producers of eggs, butterfat, wheat, oats, barley, potatoes and several other commodities," he said.

"Hop prices have advanced more than any other commodity, helping to boost the Oregon farm price index, owing to unfavorable growing conditions for hops in Oregon, Washington and California—not because of the drought."

Although the 1937 outlook for virtually all animal products is strengthening, Breithaupt said most supplies on the markets, especially unfinished stock, are likely to be increased through forced sales during the next few months.
