NAVY RECRUIT-DRAFT SITUATION CLEARED

The local navy recruiting station has been informed by the national headquarters, Selective Service, Washington, D. C., of details regarding enlistment of men in the naval forces who have registered for the draft.

One of the main points is that after the registrant has been commissioned or enlisted in the navy or naval reserve and notice of his entry in the service has been received by the local draft board, no other registrant is to be ordered to take his place and he shall be counted in the filling of the call upon the local board.

The navy recruiting service is not to request deferment or postponement of induction by reason of a man having made application for enlistment or commission.

The instructions clarify the situation in induction and volunteer enlistment in the navy. As to the navy recruiting situation, F. R. Duncan, chief gunner's mate in charge of the local station, stated that men will be accepted for enlistment up to the day of actual induction through the selective service.

KAISER CALLS FOR 10,000 WELDERS

"We need 10,000 welders immediately," Tom Murphy of the Henry J. Kaiser shipyards said here today. "And we need women particularly."

Murphy, here on a tour of the state to recruit welders and interest non-essential workers in learning welding, said that Kaiser had the answer to the second front on the ways in Vancouver and Portland shipyards but that "we need somebody to stitch 'em together."

He said Kaiser was not interested in and didn't want key men in the lumber and other vital war industries and said that from Klamath county the need was particularly great for women welders.

Murphy said that housing facilities for single men or women are available in new dormitories on the shipyard grounds but that it would be three to six weeks before sufficient homes would be built to accommodate workers' families.

Flat welders are being hired at journeyman's pay, he said, on the condition that they attend the Kaiser school and master overhead and vertical welding. Otherwise they are hired as welders' helpers and paid 95 cents per hour.

COLE BROS. CIRCUS SET FOR SEPT. 12

The menagerie is headed by a herd of 30 elephants, and it will be a full circus in every way, he said. The show has just completed a tour of the east and will stop here en route to California.

STOCKS PUSH AHEAD; RAILS LEAD PARADE

By VICTOR EUBANK

NEW YORK, Aug. 18 (AP)—Stocks generally continued to push ahead in today's market with leadership still vested mainly in rails.

The picture was brightened by rising volume, transfers of around 550,000 shares being the largest in five weeks. Sizable blocks of low-quoted issues aided the turnover.

While there were scattered losers, gains of fractions to around 2 points dominated the proceedings in the final hour.

Santa Fe went into new high ground since 1938 and peaks for the year were touched by Union Pacific, Atlantic Coast Lines, Erie Certificates, United Air Lines, Transcontinental & Western Air, Northwestern Air Lines, Consolidated Oil, National Distillers, Greyhound Corp., Paramount Pictures, U. S. Rubber and U. S. Leather "A."

Favored most of the day were U. S. Steel, Bethlehem, American Telephone, General Motors, J. I. Case, Douglas Aircraft, Union Carbide, Monsanto Chemical, Anaconda and Allied Chemical.

Kennecott moved up when directors voted a special dividend of 50 cents in addition to a payment of 25 cents on the common. Similar disbursements were made in September last year. In June the company paid 25 cents and a 25-cent special.

Rails were buoyed by preliminary figures putting operating revenues for 89 Class 1 roads in July at 35½ per cent above the corresponding month a year ago.

Carrier loans again held the play in the bond department.

WHEAT

CHICAGO, Aug. 18 (AP)—All corn futures dropped to new lows for the season today, unsettled other sections of the grain market, as prices cracked under persistent liquidation in the September maize contract.

Offerings of corn were attributed to fine prospects for the crop and some fears that the government's sale of wheat for livestock purposes might have a tendency to reduce consumption of corn on farms. The government has 125,000,000 bushels of wheat to sell for live stock feeding.

Although comparatively firm early, wheat later declined in sympathy with corn. Some hedging pressure from the northwest was noted and traders said there was no mill buying of significance.

Wheat closed ⅛-1¼ lower, September $1.17¾, December $1.20-1.19⅞, and corn was off ⅞-1 cent, September 82¾. Oats finished down ¼-1, rye off 1¼-1⅞ and soybeans unchanged.
