Surgery Said Too Popular

WASHINGTON (AP) — A shocking amount of unnecessary surgery is being performed in this country, says Dr. Paul R. Hawley, director of the American College of Surgeons.

He contended, in a copyrighted interview with the magazine U. S. News and World Report made public last night, that much of the blame can be attributed to fee splitting between surgeons and physicians who refer cases to them.

Dr. Hawley said he had no overall figures. But he mentioned appendix removals and Caesarian operations in childbirth as two types of operation performed more frequently than is necessary.

Overcharging for surgery is also prevalent, he added.
