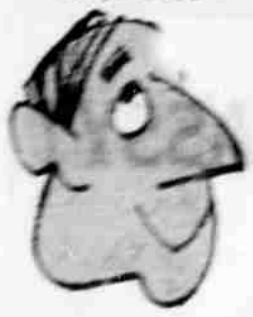
Modern tribes use money from PFI



NEED WAMPUM FOR FALL EXPENSES?

The American Indian spent months making headwork wampum to get things he couldn't make or hunt. Modern tribes use money and credit ... need extra amounts this time of year for heavy fall expenses.

How about you? If you need extra wampum for extra-heavy fall expenses, see PF right away.

Television Writer Looks At Westerns Affect On TV

By CHARLES MERRITT

NEW YORK (AP) — Let's put it on the horse of a question: Are Westerns improving or deteriorating?

Let all Westerns meet the test. Some Westerns, inevitably, will take a far less favorable view of Westerns than others. Some Westerns will be more critical than others. Some Westerns will be more critical than others. Some Westerns will be more critical than others.

Television specialist Jack Gould, the newspaper's film critic, is one critic who has seen all the Westerns. Gould, who has seen all the Westerns, says that the Western is a genre that has been in decline for some time. Gould says that the Western has been in decline since the mid-1950s, when the Western was at its peak of popularity. Gould says that the Western has been in decline since the mid-1950s, when the Western was at its peak of popularity. A DOCTOR SPEAKS TO YOU

(ON FLUORIDATION)

The following statements are from a letter "To the Editor" published in the Oregonian of April 11th, 1956, written by Dr. F. B. Exner, a medical doctor and laboratory chemical expert.

He writes:

"We are told that the important time to provide fluoride is from birth till about age 8. It is common knowledge that the permanent teeth do not erupt till about age 6. Obviously, the action is expected while the teeth are forming, before they erupt, and when their exposure to fluoride is through the blood stream, not directly from the water.

It follows that the important thing is how much fluoride is in the blood, not how much is in the water. And this, in turn will depend on two things: (a) How much is in the water, and (b) how much water is consumed. - - - - - - - - -

And that raises the unanswerable question which was responsible for the two-to-one defeat of fluoridation at the polls in Seattle. How do you arrange that two children who drink different amounts of water will both get the right amount of fluoride? Obviously, there is no answer, and it is equally obvious that you cannot hope to control the effect of a drug when there is no way to control the dose. - - - - - -

If your physician or dentist really believes fluoride would be good for your child, he could easily have prescribed it long before this; and if you want him to have it, it is already available. It seems that, on an experimental basis, the dose can be controlled as it CANNOT BE WHEN GIVEN THROUGH THE WATER SUPPLY. And if it is true that fluoride is safe and effective in the water, it surely will be SAFER AND MORE EFFECTIVE IN CONTROLLED DOSAGE. - - - - - - -

Frank "Pop" Hurd
Republican Candidate for County Judge
Compares
BIG BUSINESS and TAXES

Let's make a comparison of the $3,000,000 annual business of Klamath county to that of a corporation of the same size.

In the case of the corporation: It is made up of many STOCKHOLDERS that have invested their earnings in stock, and they look forward to DIVIDEND checks each year according to the size of their investment.

In the case of the COUNTY: The people are TAXED on their personal property and their INVESTMENTS in county REAL ESTATE each year. Their DIVIDENDS come from the GENERAL IMPROVEMENTS allowed by the County Court in each district in which the TAX PAYERS have their investment.

Now . . . I ASK you VOTERS of Klamath County –

WHAT IS WRONG with my stand in insisting that TAX DOLLARS collected in each district be spent on improvements in that district, that is as near as is humanly possible?

By so doing, each TAX PAYER of every district would receive their JUST SHARE of DIVIDENDS in INCREASED VALUE of their property and additional convenience and comfort.

This is my FIRM CONVICTION, and because of my life time SERVICE to others I feel I am QUALIFIED to administer IMPARTIALLY the duties of Judge of Klamath County.

REMEMBER - A Vote for Frank "Pop" Hurd Nov. 6th Is a Vote for YOU!
