WASHINGTON NEWS.

The Political and Congressional Record of the Day.

THE PATHFINDER IN LUCK.

John C. Fremont Faints Over Glad and Unexpected Settlement of Accounts.

JOHN C FREMONT IN LUCK.

WASHINGTON, D. C., May 10.—When General John C. Fremont was lieutenant in '48 in California, his accounts with the government were left in such a state that he has always been regarded as an official debtor to the government to the amount of $19,000. The other day, Gen. Fremont called at the office of the second comptroller of the treasury and said his financial circumstances are such that if his salary as retired major general were retained to meet this alleged shortage he would be for some time in actual want. The comptroller investigated the accounts and discovered a mistake in the bookkeeping that showed that instead of Fremont being debtor to the government, it had actually owed him for over forty years twenty-one thousand dollars. When Fremont came again to ask whether some arrangement might be made to pay his supposed indebtedness by installment, he was so unprepared for the glad news awaiting him that he fainted. Yesterday a warrant for the amount due him was made out, duly approved and signed.

TARIFF DEBATE.

WASHINGTON, D. C., May 10.—This afternoon the House sat as a committee of the whole on the tariff bill. Lanham of Texas, in a speech generally critical of the measure, urged the importance of a treaty of reciprocity with Mexico. He especially antagonized that feature of the bill which places a duty on silver lead ore, declaring it would destroy the smelting industry of Texas and the neighbouring states. It would invite retaliatory legislation on the part of Mexico.

ARMY APPROPRIATION BILL PASSED.

WASHINGTON, D. C., May 10.—The senate has passed the army appropriation bill.

SILVER REPORTED CORNERED.

NEW YORK, N. Y., May 10.—A private special from Washington states that it is rumored there that a corner in silver has been consummated in New York. Uncertainty regarding silver legislation helped the manipulators greatly, and the government will now be compelled to bring silver from England. The amount of silver held by New Yorkers is estimated by some at $40,000,000 in bullion and certificates, but conservative accountants place the total bullion at $4,000,000. While these figures would cover bullion, it may be increased several millions by silver certificates.

Are all the lots in Englewood sold? is now the question asked of the Salem Land company, and forthwith another choice building site is checked off the list. Before the summer is over Englewood will be so thickly studded with modern cottage houses that it will no longer be of the suburbs but will be in the city proper. Three lots will be more than double their present price. Don't you want a lot on the rapid transit route. Salem Land Co., Postoffice block.

Moores & Gillespie, agents for the Travelers' Accident Insurance Co., of Hartford, yesterday paid Frank R. Rice $40 as indemnity for a sprained wrist, which he got by working too hard one day. He is very enthusiastic as to the manner in which he was treated by the company and its agents, and now talks for the Travelers' and Moores & Gillespie.

STEAMSHIP CRIPPLED.

NEW YORK, May 10.—This morning the American steamship Illinois arrived at this port from Antwerp and reports that yesterday she passed the steamer Aller, broken down and slowly proceeding to New York. The Illinois offered to take the Aller in tow, but her captain declined any assistance. The Aller has 147 cabin and 930 steerage passengers aboard, and they entered a vigorous protest against being left to battle against wind and tide in a crippled ship.

FAMILY POISONED.

AGUSTA, Ga., May 10.—This morning the wholesale poisoning of a colored family occurred near Bronwood. George Johnson's wife in preparing bread for breakfast for her husband and eight children used by mistake strychnine for soda. The whole family are stricken down. Four children have died. The doctors apprehend from the amount of poison consumed that it will kill the rest of the family, including mother.

GHASTLY CRIME AT KANSAS CITY.

KANSAS CITY, Mo., May 10.—The evidences of a ghastly crime were discovered at the Union railway station this morning. In a pine box, about two feet square was found the horribly mutilated body of a woman. Most of the flesh had been cut from the bones and the face was mutilated beyond recognition. The body was packed in charcoal. Life evidently could not have been extinct more than 24 hours. The box was checked through from St. Louis last night as baggage and arrived here this morning.

POWDER MILL EXPLOSION.

SCRANTON, Pa., May 10.—Entire plant of the Consumer's Powder Co., near Winton, was destroyed this morning by an explosion and resulting in fire. The force of explosion was terrific and plainly felt at this city. The accident happened in the corning mill and in rapid succession the glazing, mixing and packing departments caught and terrific explosions followed. Three workmen are reported instantly killed and several others badly injured. All buildings in the vicinity of the mills are partially destroyed. A number of families had a very narrow escape.

CRIPPLED STEAMSHIP SIGHTED.

NEW YORK, May 10.—The steamer Aller has been sighted off Fire Island this morning, proceeding at a slow speed.

AT THE STATE HOUSE.

There is a great lack of excitement at the state house. The barometer has been falling rapidly and the JOURNAL offers the consolation of probable rain. The governor's office is closed Saturdays, Mr. Mauly keeping his residence in Portland the same as the governor.

ON THE COAST.

An Increased Number of Failures Recorded.

WHEAT MARKET LIABLE TO ADVANCE.

Miscellaneous News of Local Interest on the Pacific Coast.--Other Matters.

THE FAILURE RECORD.

SAN FRANCISCO, Cal., May 10.—The Bradstreet Mercantile Agency reports nine failures in the Pacific coast states and territorities for the week ending yesterday, as compared with six for the previous week and eleven for the corresponding week of 1889.

THE WHEAT MARKET.

PORTLAND, May 10.—At present the price of wheat in California, Oregon and Washington is determined by the price in the Liverpool market. California and other West-coast wheat comes in competition with the wheat of the Mississippi valley and it is difficult to make much by growing it. It is estimated that the West coast produces on an average 1,000,000 tons of wheat annually available for the European market. If all the wheat should find a sale in the markets of Japan and other Asiatic countries it would make a great difference in the amount sent by this country to Europe. This subject acquires special interest just now from the fact that a steamer will sail in a few days from Portland for Japan, it being the first of a line of such steamers to be established between Portland and Japan. The business of the Portland line will consist largely of the transportation of flour and wheat to Asia, and it is thought that it is a trade which is susceptible of great development.

YOUTHFUL REPROBATES.

ALBANY, Or., May 10.—Three young men of this city while on a hilarious drunk yesterday got after James V. Talt, a quiet, unassuming boy, who is a book agent. They tried to force him to drink with them, but he refused. They then took his canvassing book away from him and destroyed it and made all sorts of threats. One of them had a dirk knife, and in brandishing it about one of them had his hand severely cut. They were arrested on a charge of disorderly conduct. One of them paid his fine of $5. The other two were incarcerated in the city jail. They subsequently paid their fines, however, and were released.

TERRIBLE CRIME AT THE DALLES.

THE DALLES, Or., May 10.—An old lady living in the suburbs of this city was brutally ravished Thursday night by an unknown man, supposed to be a tramp. The old lady is over seventy years of age and lived all alone. After committing the crime the villain stole two dollars from the house.
