ACCIDENTS.

DESTRUCTIVE STORMS IN SEVERAL EASTERN STATES LAST NIGHT.

PHILADELPHIA, July 18.—A storm with lightning, wind and rain passed over parts of Pennsylvania and Ohio last evening. The towns South Bethlehem, Chester, Allentown, Ashland, Bristol and Reading, Pa., Norwalk, O., Trenton and Camden, N. J., were all damaged. A special to the Public Ledger from Lonsdale, Pa., says: About 7:30 this evening a heavy thunder and hail storm passed over this borough, flooding the streets to an impassable condition. Lightning struck the barn of John Clemmer, and the flames entirely destroyed it. Several other fires are in sight in various directions. Passengers on the trains from Bethlehem say they observed four fires between that place and Lonsdale.

At Trenton, N. J., Michael Corcorane and Louis Sihlger were struck by lightning and killed. Four persons were stunned and felled to the ground at the baseball ground.

A cyclone swept over Hellertown, Pa. Hotels and residences were unroofed and church steeples blown down. The Hellertown agricultural works were totally demolished and seven workmen sustained injuries. John Freeman, aged 11, instantly killed. Two passenger trains on the Lehigh Valley road encountered the storm and both narrowly escaped being wrecked. The trains had to feel their way along, frequently stopping to allow telegraph poles and trees to be removed from the track.

FIRES.

WESTERN UNION TELEGRAPH OFFICE IN NEW YORK IN FIRE.

NEW YORK, N. Y., July 18.—This morning flames burst from the switch board of the Western Union Telegraph operating room on the seventh floor of the company's big building. So rapidly did they extend to the woodwork that all escape of the employees by the stairway was cut off and a number were lowered from windows by ropes to adjoining buildings. So far as known there has been no loss of life.

EXTENT OF LOSS.

NEW YORK.—The distributing room is situated on the fifth floor, and the operating room on floor above. The associated press rooms and restaurant are on the ninth floor. These are completely destroyed, seven lives were almost miraculously saved.

EXTENT OF DAMAGE.

It is supposed that the fire originated by two electric light wires, becoming crossed, first setting the floor on fire. Had the fire occurred an hour later the loss of life might have been enormous. Fully seven hundred girls and men are employed on these two floors of the building. It has been a ruin to the operating room and rendering every Western Union wire on Manhattan Island useless. The Associated Press has opened up headquarters in Jersey City and before the fire was under control the various circuits of the Associated Press were in active operation. No exact figures can yet be given in regard to the loss but it will be large. The building had been for many years one of the great and imposing landmarks of lower Broadway. The building is filled with offices on the five lower floors, which are occupied by some of the greatest railroad magnates in the world.

[A much longer report of this fire is telegraphed here from New York but the details are not deemed of sufficient importance to take the time of our readers.] TEL. ED. JOURNAL.

AN EIGHT THOUSAND DOLLAR LOSS AT PORTLAND.

PORTLAND, Or., July 18.—Fire broke out early this morning in a two story frame house on First street, between E and F streets occupied as a saloon and lodging house and completely destroyed it. The loss will reach about eight thousand dollars, partly insured. The fire caught from a defective flue.

The last named republic has several thousand men under arms on the Salvador frontier ready to repel any attempt at invasion. A conflict may be expected at any moment.

PROBABLE SHORTAGES IN GREAT BRITAINS' HOP CROP.

NEW YORK, July 18.—Cablegrams report an increase in mold and vermin in some of the English hop plantations. The weather was reported unfavorable for the crop. Estimates received here show a probable shortage of one-quarter to one-third in England, about one-third in Germany and one-half in the rest of the continent as compared with last year. Early in the week England was asking for offers of the 1890 crop in America, but the latest cabdegrams indicate a turn to 1889.

IMPORTANT RAILROAD COMBINE FROM OCEAN TO OCEAN.

CHICAGO, Ill., July 18.—The Daily Tribune says to-day that the Northern Pacific and Baltimore & Ohio railroad companies are to join hands at Chicago and form a continuous line from ocean to ocean. The purchase of 390 acres of land in the suburb of Cicero, marks the junction point and there will be erected the car shops of the Northern Pacific. The railroad company will expend $250,000 in erecting shops, employing 130 men and designed to turn out every class of freight and passenger cars.

SAN FRANCISCO FOLLOWS ST. PAUL WITH A PEOPLE'S CHURCH.

SAN FRANCISCO, Cal., July 18.—The undenominational people's church move inaugurated by S. G. Smith at St. Paul has taken form here. Rev. Richard Harcourt, pastor of the Howard-street Methodist church is the projector and says: "Metropolitan Hall has been leased for one year, with the privilege of renewal for ten, and on the third Sunday in September the People's Church of San Francisco will hold its first services there. This church is just what its name implies, by a people's church, and it will be manned by the progressive element of th Howard street church. Those who leave the old church want more room materially, intellectually and spiritually. It will be a home for young men, not Sundays only, but every day, for we will have a library and gymnasium, etc., Creed will amount to but little with us. Converts will be baptized in any manner that they may desire. The singing will be a feature of the services. My call to the church is at a salary of $5,000 for the first year.

Re-Opening a Thoroughfare.

In order to guard against results subversive of health, it is essential that the thoroughfares of the system, the bowels, should be re-opened when they become obstructed. If they are not, the bile is misdirected; the liver becomes torpid; billious matter produces indigestion, headaches ensue, and other symptoms which the enfeebling cause only tends to aggravate. The aperient properties of Hostetter's Stomach Bitters constitutes a useful agent in construction of the bowels, and promoting a regular habit. It is infinitely superior to the drastic cathartics frequently used for the purpose, since it does not act violently, but produces a natural effect, which does not impair the organs, the stomach and liver also, in need the entire system is regulated by it.
