STIRKE THAT WILL AFFECT THE TABLE.

CHICAGO, Ill., Aug. 22.—All of the firemen and engineers employed by the Union Stock Yards Switching Association went on a strike this morning. A DESPERATE CONFLICT.

CLEVELAND, Aug. 22.—There was a desperate battle yesterday at Continental Crossing, Putman county, between employes of the Clover Leaf Railroad and the village authorities. Sheriff Wilson, in response to a call for assistance, went to the scene of the trouble with a posse of citizens and a company of militia. Guns, revolvers and clubs were freely used. About forty persons were injured, but none fatally. The rioters were finally repulsed and all is quiet to night, though more trouble is feared.

THE DALLES, Or, Aug 25.—Mrs. Bonney, mother of Mrs. Broyles, at Wamic, sixty-five miles southeast of this city, was burned to death last Friday alone in the house. It is supposed she caught fire from a pipe which she was smoking at the time. She came out of the house screaming, and her clothing blazing. Neighbors came as quickly as possible, but the woman was burned so badly that she died that evening. Mrs. Bonney was eighty years old and had been visiting her daughter only three weeks. Her home was in the Willamette valley.

PORTLAND'S DEPOTS.

PORTLAND, Or., Aug. 22.—The plans for the foundation of the union depot were received by Manager Johnson of the Terminal Company, and work will be begun on the piling for the sub-foundation. CITY OF GUATEMALA, Aug. 22.—Senor Cottu, the agent who arranged the $21,000,000 loan with the French bankers, arrived here last night, coming from San Jose by special train. The end of the contention cannot yet be foretold, since Barillas insists upon Ezeta's removal before he will sign the protocol, while Ezeta demands the same conditions as regards Barillas, making the trouble a personal one between the presidents of the two countries.

COUNTY NORMAL INSTITUTE.

Close of the Second Week, Which Has Been a Busy an Profitable One.

The exercises of the day commenced with written arithmetic, the class having for the subject of their lesson square and cube root. The majority of the teachers seeming not to understand the geometrical solution of these problems very thoroughly, Superintenent Yoder solved a problem in square and one in cube root, explaining his work very minutely, so that it could not help but be understood by all present. The same subject will be continued Monday.

In grammar infinitives were again treated. A few difficult sentences were presented by some of the teachers, which furnished material for discussion which made the recitation very interesting.

In geography a general lesson on Asia was recited, after which Prof. Peebles, in his usual graceful manner, closed the recitation with a few general remarks.

The mental arithmetic lesson treated of miscellaneous problems, which of course were satisfactorily disposed of.

Prof. Peebles conducted the history class through a very interesting recitation in review of Lincoln's administration.

The last recitation for the day was physiology, which reviewed the nervous system.

In addition to the hearing of lessons many suggestions on the conducting of classes, assigning of lessons, etc., are given from time to time.

The second week of the institute closes with very promising results. Great interest has been manifested by the teachers in this work.

A number of visitors have been present during the week and the enrollment still grows. The total enrollment is now 84. Those enrolled to-day were Miss Florella E. Phillips, Arthur Winches, Miss Alice Savage, Miss Ida Essen, S. T. Reeves and Mr. Engle.

A rest will be taken until Monday when work will be resumed. The institution will close Tuesday afternoon to permit all teachers who wish to attend the quarterly examination which will occur on Wednesday, Thursday and Friday of next week.

PAPER MILL WANTED.—The following item, taken from the Lebanon Express, should apply to this city but it doesn't just yet: "Farmers in this vicinity are marketing a new product by the ton. Our paper mill will use all the straw in this section of country and the farming community will be enriched by the sale of what has heretofore been a waste product." There is no place on the coast more suitable for a large paper mill than right here in Salem.

DON'T FORGET.—Tax-payers should not forget that their city tax is due and will be delinquent after Sept. 6th. after which time a penalty of 5 per cent. will be added.

E. J. SWAFFORD,
8—18—10t City Tax Collector.

A Query.

EDITOR JOURNAL:—Is there a city ordinance requiring that half of Commercial street and other public streets shall be blocked by trucks, drays, and such vehicles, left standing there when not in use, to the great inconvenience of the traveling public? I don't think, however, there is such an ordinance, or it would not be so zealously obeyed. The only way to have a thing done here seems to be to have an ordinance against it. CITIZEN.

LIGHT ON THE SUBJECT.—That is what Farrar & Co. propose to give, judging from the fine new style hand lamps they have just received.
