THE CLOTURE RESOLUTION LAID AWAY.

WASHINGTON, Jan. 26.—The usual skirmish in the house took place to-day as to the reading and approval of the journal.

The Journal was finally approved by yeas and nays. It was then ordered, on motion, that the house go into committee of the whole, on the navy appropriation bill, but the call of the roll was interrupted by information given by Rodgers, of Arkansas, that the force bill was defeated in the senate. Then the democrats gave cheer after cheer.

The senate met at noon in continuation of the legislative day of Thursday last, the pending question being the resolution to amend the rules by providing a method of closing debate, Morgan resumed the floor and continued his argument, begun on Saturday, in opposition to the proposed rule and the elections bill, both of which measures he claimed, on the authority of the New York Times to be for the advancement of Harrison's project for re-election. At 1:20 o'clock Morgan yielded to a motion from Wolcott to proceed to the consideration of the apportionment bill. Dolph moved to lay the motion on the table, but it was rejected amid much applause. Yeas 34; nays 35. Senators Cameron, Jones (Nevada) Stewart, Teller, Washburn and Wolcott voted with the democrats, and Ingalls was paired with Sanders. A vote was then taken on Wolcott's motion to take up the apportionment bill, and it was carried by a similar vote; yeas 35, nays 34.

THE RAUM INVESTIGATION.

WASHINGTON, Jan. 26.—J. T. Ferguson, national bank examiner, was called to the stand by the Raum investigating committee, but aside from securing information, already made public, with regard to the Raum note endorsed by Lemon, and held by the national bank of the Republic, no facts were elicited.

FOREIGN.

INVITED TO STEP DOWN.

LONDON, Jan. 26.—A special cable to the Press News from Buenos Ayres says: "President Balmacada, of Chili, has been given until Monday noon to resign, by the insurgents, and if he fails to do so, bombardment of the capital will instantly follow. At Valparaiso the stock of provisions is giving out and necessaries of life are beyond the reach of the poor."

INVITED TO TRADE.

BRUSSELS, Jan. 26,—A special declaration to the Government at Washington, formulated by the Congo State authorities, was signed yesterday. It gives assurance that American imports will meet with the most favored nations treatment on entering the Congo State.

THAW WITH DESTRUCTIVE FLOODS.

BRUSSELS, Jan. 26.—A thaw has set in here and floods have resulted. The low lying suburbs around Brussels are flooded to the depth of five feet. Inundations are reported from various places, all attended with immense damage to property. No lives are lost but people are forced to flee from their homes.

MISCELLANY.

A STRANGE CONSTRUCTION.

BOSTON, Jan. 26.—A letter has been received by Collector Beard, from Assistant Secretary of the Treasury Spaulding, to the effect that the department concludes that sago flour is dutiable at 2 cents per pound. The decision is regarded as remarkable, because the new tariff law distinctly states that sago flour is free. The assistant secretary in his communication informs the collector that sago flour is not sago flour, but is starch, and as such is dutiable.

SUIT DISMISSED.

CHICAGO, Jan. 26.—Judge Horton to-day dismissed the bill of Mrs. Hetty Green and her son against Geo. M. Bogue and others. This was a second attempt to redeem a section of the town of Cicero, bought by the Grant Locomotive Works, of Paterson, N. J., at a mortgage sale. In this suit Mrs. Green claimed the right to redeem on tendering to Mr. Bogue $602,000, as the sum received from the defendants.

CRIMINAL.

AN INHUMAN FATHER.

NEW YORK, Jan. 26.—An act of fiendish cruelty was perpetrated by John M. Elser, an Ocean county farmer, living near New Egypt, N. J., upon his son, who is not yet 4 years of age. The child was in the house at the time and committed some slight offense, when the father flew into a rage, and, seizing the child, placed him upon a hot stove, burning his flesh in a horrible manner. The child is in a critical condition.

ARRESTED AT THE ALTAR.

SALT LAKE, Utah, Jan. 26.—While W. F. H. Wagner and Mary Jane Feering were being married, to-day, a deputy United States marshal appeared to arrest the groom just as the judge of probate pronounced the final words. Wagner is charged with stealing $2,000 that was buried by a miser in an Evanston, Wyoming, cellar, and coming with his plunder to Salt Lake. Considerable money and a ring belonging to the miser were found on Wagner.

WILL COME TO AMERICA.

LONDON, Jan. 26.—It was cabled from Boulogne, Saturday that Parnell and Wm. O'Brien, after due consideration, have decided to soon sail for America to collect money for the relief of tenants in Ireland, who are threatened with eviction for non-payment of rent.

HANGING NONE TOO GOOD.

SANTA BARBARA, Cal. Jan 26.—Ramon Lopez, was hanged this morning for the murder of Mary Desirello on Oct. 20th. 1890. Lopez acknowledged his crime and that his punishment was just. The crime was a particularly atrocious one. He had forced his attentions on Mary Desirello, a young and highly respected girl, and for months had persecuted her with advances which she repelled. She was engaged to be married to a young man in San Francisco, and on October 20th., after learning of her engagement, Lopez called her out of a neighbor's house and after demanding an explanation from her, shot her through the body. As she lay dying on the ground, he stepped over her and with fiendish malignity fired shot after shot into her body. He was convicted, after a trial lasting a week, the jury only being out ten minutes. His crime, trial and execution all occurred in less than one hundred days.

PARAGRAPHS.

Harris D. Smiler, the New York wife murderer, was this morning sentenced to death by electrocution.

During a fit of temporary insanity last night B. B. Hopkins, a prominent Wall street broker, cut his throat in a horrible manner. He is still alive but cannot secover.

The joint session of the Illinois legislature to-day took a number of ballots for United States senator, but they showed no change from previous ones.

It is announced that McKinley will visit Bismarck the coming summer to express personally his admiration of that statesman and of his protection policy.

Ex-Minister to Central America Mizner, has arrived at San Francisco from Panama. He was recalled by Secretary Blaine for his action in the Barrundia affair, and he complains he has not been treated fairly.

The American hog is again to be admitted into Germany. The matter is under discussion in the Reichstag, and only 27 votes can be mustered in opposition. We may now look for our native grunter to swell with importance.

Through a collision on a branch line of the Northern Pacific, a few miles from Butte, Mon., yesterday, W. H. Lord, register of the land office ot Devil's lake, Dak., was killed and half a dozen others more more or less injured. The accident was caused by a freight train running into a detached sleeper.

The lumber combine of the Pacific Coast has been broken, through the opposition of a Minnesota firm recently started in Oakland, Cal., and prices are now being badly cut.

The democrats are worried over the condition of Representative Adams, of Illinois, who has been ill for some time. Mr. Adams' physician says he must have one eye taken out if his life is to be spared.

The radicals and socialists of Belgium are profiting by the weakening of the royal line to push their agitation for a republican form of government, or at least the immediate introduction of universal suffrage. They are circulating appeals to their sympathizers to hold themselves in readiness for action at a moment's notice whenever the leaders shall deem the proper time to have arrived to seize the control of affairs.

Senator McConnell intends to introduce at an early day a bill to establish an Indian school in Idaho, The site to be fixed by the secretary of the interior. Democratic Strategy Again Successful.

SEVERE STORMS IN THE EAST.

New York Cut off From Outside Communication.

THE FIGHT ON INGALLS.

TOPEKA, Kans., Jan. 26.—The alliance forces will hold a caucus tonight for the purpose of naming some one from their number who can harmonize the discordant elements of their party. The Ingalls men are relying on the old soldier element in the alliance as being on the side of Inglalls. Some of the knowing ones assure you that no caucus action on earth can prevent this. One of these prophets says "To-morrow petitions will be read from every grand army post in Kansas, asking for the re-election of Ingalls.', Ingalls' organization is in the hands of five of the shrewdest men that ever went into a contest. The alliance is preserving the strictest secrecy, holding their meetings in dark rooms. From appearances it would seem that Willets is the most promising one among their members for the senatorship, but they will not talk about him. Harris, of Leavenworth, is doubtless the ablest man in the alliance, and represents every principal combination; but he is an ex-confederate and it is doubtful if the large soldier contingent would support him. For that reason, Congressman Simpson was ruled out from the contest by an alliance resolution that no member elect to congress shall be eligible to the United States Senate.

THE WORST STORM OF THE SEASON.

CHICAGO, Jan. 25.—The most terrific snow and wind storm of the season is prevailing in New York, Maryland, West Virginia, Pennsylvania and the New England states. Western Union wires have been practically useless since 11 o'clock last night till late this (Sunday) morning. At 1:15 a. m. the Press News lost all communication with New York, making it impossible to receive news of any kind from the main office. The Western Union report that they have lost all their wires east of Buffalo and north of Washington. Poles are laid low promiscuously throughout the East.

NEW YORK, Jan. 26,—This city is still isolated this morning, telegraphic communication being only partly restored. Large forces of men are at work clearing the streets of fallen poles and broken wires, while the police force and fire department are doing patrol duty to guard against fires, as all the fire alarm wires within the city are still down. The streets are rendered almost impassable by fallen poles and tangled wires. It is believed the large force of men engaged will have communication nearly restored by evening. The weather is clear and cool this morning.

PHILADELPHIA, Jan. 26th. The snow was heavy this morning, and a small number of freight wrecks reported. The damage done to property by the storm is large. Throughout New Jersey trains were obliged to feel their way as the telegraph poles and wires were all down. It will take days to repear the damage. The mails are from one to ten hours late, but the greatest delay and damage are near the coast.

COMMUNICATION BEING RESTORED.

NEW YORK, Jan. 26.—At one o'clock this afternoon Associated Press dispatches from the west began to arrive, and were the first news dispatches from the outside world since last night. The ticker service in this city is still suspended and business at most of the exchanges is almost at a stand still The damage to the electrical companies in the city is estimated at half a million dollars. All the wires between this city and Philadelphia are still down.

There is Catarrh in all sections of the country, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, but constantly failed to cure with local treatment. This has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. For circulars and testimonials. Address, F. J CHENEY &Co., Toledo, O.

STATE NOTES.

Albany Democrat: A new scheme to strengthen the raid on the state treasury, made by the wagon road bills, is the introduction of a number of bills appropriating large sums to build bridges on various streams throughout the state. The friends of these bridge bills will be willing to support the wagon road bills in order to secure support for their own, and thus a combination is formed that at once threatens grievous burdens to the tax payers of this state. Will they arouse to a sense of their danger, or, will they wait until it is to late?

French Prairie Gazette: Hurrah for Harry Miller! His bill regulating freights and fares is just the thing. Let's help it along.

The WEEKLY JOURNAL contains the complete legislative proceedings with synopsis of remarks made by members. 25 cts will send it to any address for the entire session.

The proprietor of the Jacksonville Times has come to grief through allowing his foreman to edit his paper. An advertisment of the Louisiana lottery appearing in his columns he was indicted, and fined $25, and costs. He testified that the advertisement was dead matter, and the foreman had used it to fill up a vacant space.

Tacoma News: Senator Farwell, of Illinois, on hearing of his defeat for re-election, said that he was beaten because the people supposed him to be a millionaire. Senator Squire, on the other hand, was re-elected because he proved to the legislature too conclusively that he was a millionaire.

The Warren Hussey "Morning Mine," part of the assets of the Spokane National bank, which closed its doors recently, has just been sold to an English syndicate for $900,000. Last fall the same property was offered for half a million. This will relieve the bank from embarrassment and enable it to resume business.

A. K. Gones, editor and part proprietor of the United News, has sold his interest in that paper to his partner, Mr. Chauncey, and will go to California. Mr. Gones is a good newspaper man, and deserves success wherever he locates.

Columbian: The collector of customs at Seattle states that during his term of office no opium was entered for duty. The papers mention it as an "astounding statement." This does not seem strange when one can always see twenty-dollar-a-month waiters on the Victoria-Seattle boats wearing diamonds, owning city property and spending more in a day than their salaay for a month. It would be an astounding statement if we were told that any duty had been paid on opium.

Harney Valley Items: Two or three feet of snow would not do any great damage to this country now. It could not lay on very long, and would go far toward our water supply for the coming summer.

Pendleton has lately had an influx of that undesirable class of citizens known as "hoboes." Petty thieving is frequently reported and the railroad men have no end of trouble on the trains. The road from Pocatello to Pendleton is lined with tramps.

The building boom has reached Hillsboro, and many brick buildings will be erected this year. Rumor has it that a $20,000 hotel is one of the structures proposed.

Dalles Chronicle: The land office is doing a rushing business, which will evidently be rapidly increased as the great majority of applicants are from Hood River, which being situated on the line of the railroad, got the news of the opening of the lands first. When the other precincts are heard from, the gathering of the clans of Roderick Dhu will be nowhere.

Hay in the Harney county valley only commands from $2.50 to $3.00 per ton and there is no ready market at that price.

On Thursday evening in Baker City, Geo. W. Bowman, was taken violently ill, in the Masonic lodge, while addressing the members. He fell suddently to the floor and fainted away, in which condition he remained for two hours. His condition is not considered dangerous.

Some farmers plant their crops in the moon, others plant in the ground. The moon does not seem to be as popular as it used to be, but there are some young folks in this town who still go by the moon.—Athens Press.

THE ALASKAN ICEBERG.

The lecture at the M. E. church on Wednesday night was fairly well attended. Rev. C. E. Cline gave a vivid description of the great Muir glaciers of famous land of the "midnight sun." He gave his theory of the cause of the sudden change in the temperature of the northern clime. He also exhibited some articles of the natives and collections of animal life of that country. The Spring Medicine.

All who realize the necessity of purifying the blood know that Hibbard's Rheumatic Syrup can be relied upon. Mr. B. C. Robertson, of Marshall, Mich., says:

I have suffered intensely from billousness and rheumatism for three years, and tried many remedies. Hearing of Hibbard's Syrup I bought a bottle and found it helped me. I have used four bottles and it has restored my liver and kidneys to healthy action, and done more to purify my blood than anything I have ever taken I recommend it as a wonderful blood medicine. General Debility

"For four years my wife suffered with large tumor bunches on the glands under the arms, and general debility of the whole system. She became so poor in health that we were on the verge of despair regarding her recovery. Physicians did not seem to understand her case; at all events she never derived any benefit from their treatment. She finally concluded to try Hood's Sarsaparilla. The immediate effect was so marked and satisfactory that she continued to take it, and this is the result: She has gained in weight

From 84 to 111 Pounds

and is stronger and in better health than she has been for years. The bunches under her arms have diminished, and we believe Hood's Sarsaparilla will be too much for them in time." J. J. NORCROSS 226 Commercial Street, Boston, Mass.
