"NO SOLDIER'S HOME NEEDED."

There is no sense in the cry of the Populist organ that there is no need of a Soldier's Home in Oregon. The whole fight on the Soldier's Home has not a grain of sense in it. The appropriation is so small that, compared to larger leaks, it will never be felt by the taxpayers. There are twenty indigent soldiers in this county alone who could be far more properly cared for at a home instead of being paupers on the county in a rich country they helped to save. A soldier's home is needed as an object lesson in patriotism to the young to teach them that a grateful people propose to surround the men who wore the blue with every comfort in place of leaving them to rot on the dung hill of public charity.

A COMMITTEE.

Salem should have a strong taxpayer committee if any reforms are expected in the way of reductions in city expenses. The members of the council cannot be expected to sacrifice their time, serve the city for nothing and then get in and fight the bills that are presented to them, often by their own customers and those dependent upon them. On one side stand those interested in claims against the city.

On the other side is no one to back the councilman, he he never so willing to do his duty. He cannot resist the oncoming and increasing tide of expenditure. The weight of pressure is all on the side of the men who clamor for spoils, and the result is the taxpayer's end flies up. The taxpayer will get no results unless he gets out and bears down hard on his end, and gives the man who stands in the middle the wholesome influence of his support. A taxpayers committee will alone reduce expenditures and bring about an economical city administration.

SCHOOL FUND APPORTIONMENT

Money Distributed by the School Land Commissioners.

Secy. of State Geo. W. McBride, Gov. S. Pennoyer, Phil. Metschan, state treasurer, and Geo. W. Davis, clerk, Tuesday afternoon held a meeting of the board of school land commissioners. Among the business receiving attention was that of the distribution of the school fund interest among the several counties in the state. The apportionment is in proportion to the number of persons of school age in the state, being at the rate of 70 cents per capita. The sum amounts to $84,451.50:

Counties	No. Chil.	Amt.
Baker	2,309	$ 1,616 30

Total	120,645	$84,451 50

This money can be used for the support and maintenance of the school and to purchase school libraries and apparatus. Not one dollar of it can be used for paying interest on bonds, indebtedness for construction of buildings, or any other improvements. All school directors should govern themselves accordingly.

Oh woman, lovely woman, why will you suffer so,
Why bear such pain and anguish, and agony of woe?
Why don't you seek the remedy—the one that's all the go.

"All the go," because it makes the pains go. As an invigorating, restorative tonic, soothing cordial and bracing nervine, for debilitated and feeble women generally, Dr. Pierce's Favorite Prescription has no equal. It improves digestion, invigorates the system, enriches the blood, dispels aches and pains, produces refreshing sleep, dispels melancholy and nervousness, and builds up both the flesh and strength of those reduced below a healthy standard. Don't be put off with some worthless compound, easily, but dishonestly recommended to be "just as good," that the dealer may make more profit. "Favorite Prescription" is incomparible.

PERSONAL AND SOCIAL.

Local Correspondence from Towns in the Valley.

FROM JEFFERSON.

Messrs. Curl and Parrish are painting their new meat shop.

Miss Atha Van Scoy, of Drain, is visiting friends in this vicinity this week.

Rev. Stoops, who has been on the sick list, was a visitor at the institute Friday.

Prof. Crawford, of Albany, has organized a dancing school in our city.

The social dance given at Smith & Jones' hall was well attended and an enjoyable time was reported.

Mr. Case is building a new fence around his property near the institute.

Sheriff Knight was in the city one day last week on business.

Isaac Witherite and family have moved to their farm home in Linn county.

Some work is being done on our streets which is needed very much.

FROM BROOKS.

Clark and Walker are making rapid progress on Rev. Royal's new barn.

Rev. Royal and wife went to Howell Prairie Sunday.

Miss Ione McClard and brother Frank visited at Chemawa Sunday.

M. L. Jones had the misfortue of having his horse fall with him Saturday while driving a wild steer. Mr. Jones was not seriously injured. Shaffer & Shaw brought the beef in, in the butcher wagon today.

Mr. Hower is improving very slowly.

E. K. Shaw made a trip to Aurora Bottom Monday looking after stock.

Mr. Shelly of Drift creek is here on business this week.

Mrs. M. Jones' mother visited here last week.

Why does Albert go down the R. R. track every Sunday evening?

ELECTRIC LIGHTED.—By the efforts of Director Parvin of Willamette Conservatory the chapel is ordered lighted by electricity. This will be a great step forward and thousands who look back with pleasure to this historic hall will be more delighted than ever to visit it when entertainments are given.

FROM AUMSVILLE.

The great combat of great minds has ended. For five nights Rev. Bonnell and Rev. Anderson have debated upon the subjects. "Resolved, That the four commandments is binding upon Christians."

The subject was well handled by the learned Southerner, and close attention was paid by a handful of eager listeners. Much information was gained, and the result of the debate was good. Sound believers have become sounder. Weak believers have become weaker and the unbelievers believed the negative on Saturday and the affirmative on Monday. Revs. Spurry and Robert were moderators and S. W. Bard chairman.

Rev. Spurry on Thursday preached on the subject, "The location of Heaven." We were happy to hear that it was to be at Palestine. Some of us have wanted to visit the Holy Land but have now concluded to wait a bit—until we can have a free passage.

Dr. Sterling has left Aumsville, but we hope not for good.

Rev. Roberts goes to Portland this week, to take his mother home, who has been making a long visit at her son's. The old lady is eighty-one years old, but very smart.

A birthday party was given to Mrs. Nott, last Monday.

Quite a number of strangers were in town, attending the debate.

We noticed that everybody worked last Saturday—and went to church Sunday.

Rev. Bonnell is holding a protracted meeting at this place. A considerable interest is being manifested.

Mr. Weaver is busy setting out prune trees.

Miss Lee, one of our school teacher, is sick. We pray for quick recovery.

Headache and Dyspepsia.

William E. Rockwell, 512 West 57th Street, New York, says:

"I have been a martyr to bilious headache and dyspepsia. An indiscretion in diet, overfatigue or cold, brings on a fit of indigestion, followed by a headache lasting two or three days at a time. I think I must have tried over twenty different remedies, which were recommended as certain cures by loving friends, but it was no use. At last I thought I would take a simple course of purgation with Brandreth's Pills. For the first week I took two pills every night, then one pill for thirty nights, in that time I gained three pounds in weight, and never have had an ache or a pain since."

Disease in one part of the body will eventually fill the whole body with disease. Every year or two some part of the system grows weak and begins to decay. Such part should be removed at once, and new matter be allowed to take its place. There is no need of cutting it out with a surgeon's scalpel. Purge away the old diseased and worn-out parts with Brandreth's Pills.

Grape Vines for Sale.

I have propagated several thousand good strong two-year old grape vines for setting out, assorted varities, suitable for culture in Oregon. 25 cts each, $2.00 per dozen. E. Hofer, Salem, Or., JOURNAL office. d w

ODDS AND ENDS.

Orange blossoms sometimes grow on a widow's weeds.

Smiles are smiles only when the heart pulls the string.

Our shirt, collar and cuff factories ordinarily pay out $4,300,000 in wages annually.

China is said to contain numberless small societies of unmarried women who have pledged themselves never to marry.

A portrait of Charlotte Corday as she was being led to trial, sketched by a young artist, has recently been discovered.

Asiatic cholera was first supposed to have originated from the consumption of unsound rice and was called "the rice disease."

The world's oyster fisheries produce annually 4,439,000,000 oysters, one-half being consumed within three days after they are taken.

California puts the rest of the country under obligations by supplying us with 33,000,000 pounds of raisins every year, most of which are eaten in the United States.

A baker estimates that every American will consume two pies a week, and if the statement is correct the American stomach is weekly tortured with 130,000,000 pies.

The parasol is a very ancient article. The Assyrians, the Egyptians and the Persians all carried them as shades against the sun, for fashionable adornment and in religious ceremonies.

In 1886 the people of this country produced 71,000,000 tons of grain, 4,750,000 of meat, 110,000 of sugar, 50,000 of rice, 4,200,000 of potatoes 430,000 of butter and 170,000 of cheese, and consumed the greater part on their own hearthstones.

The theater goers and train passengers of this country make a nuisance of themselves with 2,600,000 bushels of peanuts, which produce 1,300,000 bushels of shells to be swept out, the operation resulting in 13,000,000 oaths and curses every year.

In cleaning the Goddess of Liberty on the Texas state capitol, a local paper says, it was discovered that a swarm of bees had made their home in the hollow head of the goddess and had filled it half full of honey. Here is another proof of the old adage that liberty is sweet.

Metallic Salts and Oxides.

Experiments made to ascertain the action of metallic salts and oxides, as described before the Manchester Philosophical society, exhibit some phenomenal facts. Saturated solutions were made in water and painted on small pieces of the rubber, or, in the case of insoluble substances, pastes were made with water and painted on, the whole being allowed to dry, the heating being done at a temperature of 60 degrees C. for 10 days. The following compounds of copper entirely destroyed the rubber: Sulphate, chloride, nitrate, ferrocyanide, oxide, sulphide; also arsenic, iodide, silver nitrate, strontium chloride, vanadium chloride, manganese oxide and bismuth chloride.

The following had an injurious effect—viz, ferrous nitrate, sodium nitrate, uranium nitrate, ammonium vanadate. Those that had very little action were lead chromate, ferrous sulphate, zinc acetate, zinc chloride, tin perchloride, while the behavior of about 60 salts having no action whatever was also examined. Exceedingly small quantities of copper salts are injurious to rubber, and it was found that wherever the cloth used in making waterproofed fabric contained traces of copper the rubber became generally hardened and destroyed. As to the use of the various blacks, it appears that manganese oxides should not be present, but logwood chrome blacks may be used with impunity.—New York Sun.

She Was Too Devoted.

Figg—I don't see Grimsby with that Lutestring girl lately.

Fogg—No, when he spoke of marriage she frightened him off. She said in an impassioned manner, "Harry, I will be wholly yours—where thou goest I will go." And he says she meant it too. When he came to think of the times he might want to have a quiet little game, or something of that sort, he felt that such devotion as hers might pall on him and so he let the matter drop.—Boston Globe.

Harmony at Any Cost.

If the convicts at Sing Sing were permitted to welcome the new arrivals, and if they desired to continue the harmony suggested by the name of the famous penal institution, their words of greeting would probably take a form similar to these: "Let us learn to respect each other's convictions."—New York Herald.

Could Be of Assistance.

Jim—Say, Fred, old boy, I'm looking for some friend who will lend me $10. Come, now, can't you be of assistance?

Fred—Certainly.

"Thank you ever so much."

"Yes, it's going to rain, and if you'll step over to my office I'll lend you one of your umbrellas so you won't get wet while you're looking."—New York Weekly

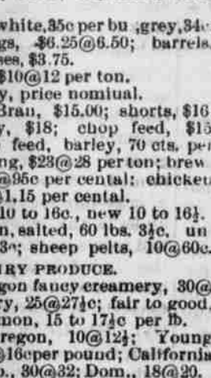
SURROUNDED BY MYSTERY!

A Great Mistake.

A recent discovery is that headache, dizziness, dullness, confusion of the mind, etc., are due to derangement of the nerve centers which supply the brain with nerve force; that indigestion, dyspepsia, neuralgia, wind in stomach, etc., arise from the derangement of the nerve centers supplying these organs with nerve fluid or force. This is likewise true of many diseases of the heart and lungs. The nerve system is like a telegraph system, as will be seen by the accompanying cut. The little white lines are the nerves which convey the nerve force from the nerve centers to every part of the body, just as the electric current is conveyed along the telegraph wires to every station, large or small. Ordinary physicians fail to regard this fact; instead of treating the nerve centers for the cause of the disorders arising therefrom they treat the part affected.



Franklin Miles, M. D., LL. B., the highly celebrated specialist and student of nervous diseases, and author of many noted treatises on the latter subject, long since realized the truth of the first statement, and his Restorative Nervine is prepared on that principle. Its success in curing all diseases arising from derangement of the nervous system is wonderful, as the thousands of unsolicited testimonials in possession of the company manufacturing the remedy amply prove.

Dr. Miles' Restorative Nervine is a reliable remedy for all nervous diseases, such as headache, nervous debility, prostration, sleeplessness, dizziness, hysteria, sexual debility, St. Vitus dance, epilepsy, etc. It is sold by all druggists on a positive guarantee, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid.

Restorative Nervine positively contains no opiates or dangerous drugs.
